Abstract: Policy and Program Studies Service (PPSS) needs these data to determine (1) the extent to which Child Care Access Means Parents in School (CCAMPIS) grantees are better able than similar postsecondary institutions to provide child care services to low-income students, and (2) if data are available to determine if these services improve these students' persistence and graduation rates. Data collected from child care directors at grantee and non-grantee institutions will be used to monitor and improve the CCAMPIS program.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: This program promotes academic achievement and improves results for children with

disabilities by supporting technical assistance, model demonstration projects, dissemination of useful information, and implementation activities that are supported by scientifically-based research.

Priority: In accordance with 34 CFR 75.105(b)(2)(v), this priority is from allowable activities specified in the statute (see sections 663 and 681(d) of the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. 1400 et seq.).

Absolute Priority: For FY 2006 this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is: *General Supervision Enhancement Grants (GSEG)*.

Background

Section 616 of the Individuals with Disabilities Education Act (IDEA) requires the Department and States to establish and implement systems for monitoring implementation of and enforcing obligations under Parts B and C of IDEA. The Department monitors States, and requires each State to monitor its LEAs, using indicators that the Secretary established for certain priority areas under section 616 of IDEA. Under Part B of the IDEA (Part B) each State must develop a State Performance Plan (SPP) that, among other things, evaluates its efforts to implement the requirements and purposes of Part B. As part of its SPP, a State must establish targets for the indicators established by the Secretary, and use those targets and indicators in annually reporting to the Secretary on its performance in the priority areas. Each State also must use its targets and the Secretary's indicators to report annually to the public on the performance of each LEA in the State.

One of the indicators established by the Secretary under section 616 of IDEA (for the priority area concerning the provision of a free appropriate public education in the least restrictive environment) is the participation and performance of children with disabilities on the State assessments required under title I of the Elementary and Secondary Education Act of 1965, as amended (ESEA). States are expected to report on student performance on State assessments in their SPPs and Annual Performance Reports (APRs) using the same assessment data required under title I of ESEA.

Title I of ESEA requires accountability for the academic achievement of all students. Under that law, every school is expected to be working to ensure that every one of its students and group of students meet State achievement

standards as documented by their performance on State assessments. Under title I of ESEA, a State's academic assessment system must be valid and reliable for the purposes for which the assessment system is used and it must be consistent with relevant, nationally recognized professional and technical standards for assessment. In addition, a State's academic assessment system must be accessible for use by the widest possible range of students, including students with disabilities, students covered under section 504 of the Rehabilitation Act of 1973, as amended, and students with limited English proficiency.

Under both title I of ESEA and IDEA, State academic assessments must provide for reasonable testing accommodations for students with disabilities where necessary. Many students with disabilities require test accommodations in order to ensure that the State's academic assessment accurately measures their knowledge and skills. Accommodations are changes in testing materials or procedures that ensure that an assessment measures a student's knowledge and skills rather than the student's disabilities or English proficiency. Accommodations generally are grouped into the categories of: (1) Presentation; (2) Response; (3) Setting; and (4) Timing and Scheduling. Section 612(a)(16)(B) of IDEA requires that all States have guidelines for the provision of appropriate accommodations.

In addition, the Department's regulations under title I of ESEA allow States to develop alternate achievement standards that are aligned with the State's academic content standards and reflect professional judgment of the highest learning standards possible for that very limited group of students with the most significant cognitive disabilities. The Department's regulations under title I of ESEA permit the proficient and advanced scores of students assessed based on alternate achievement standards to be included in adequate yearly progress (AYP) calculations in the same manner as scores based on grade level achievement, subject to a cap of one percent of all students in the grades assessed, at the district and State level. See <http://www.ed.gov/legislation/FedRegister/finrule/2003-4/120903a.pdf> for more information. Under section 612(a)(16)(C) and (D) of IDEA, States must report on the number and performance of students taking alternate assessments based on alternate achievement standards.

All alternate assessments that are used for title I ESEA purposes must be designed to generate valid data that can

be used for AYP purposes under ESEA. All alternate assessments must also meet the requirements in 34 CFR 200.2 (State Responsibilities for Assessment) and 34 CFR 200.3 (Designing State Academic Assessment Systems), including the requirements relating to validity, reliability, and high technical quality; and fit coherently in the State's overall assessment system under 34 CFR 200.2. The alternate assessment must, among other things: (1) Be valid and reliable for the purposes for which the assessment system is used; (2) be consistent with relevant, nationally recognized professional and technical standards; and (3) be supported by evidence from test publishers or other relevant sources that the assessment system is of adequate technical quality for each purpose required under ESEA. States must include alternate assessment data in their SPPs and APRs relative to performance and participation of children with disabilities on State assessments under IDEA.

The Department is announcing the following priority to assist States in: (1) Developing alternate achievement standards aligned with the State's academic content standards; (2) developing high-quality alternate assessments that measure the achievement of students with the most significant cognitive disabilities based on those standards; (3) reporting on the participation and performance of students with disabilities on alternate assessments; and (4) developing appropriate assessment accommodations that do not alter the established reliability and validity of the assessment instrument.

Priority

This priority supports projects that assist States in improving their capacity to accurately report on the performance and participation of children with disabilities on the State's assessments.

In order to meet this priority an applicant must demonstrate that the project for which it seeks funding will do one or more of the following: (1) Develop alternate achievement standards aligned with the State's academic content standards; (2) develop high-quality alternate assessments that measure the achievement of students with the most significant cognitive disabilities based on those standards; (3) report on the participation and performance of students with disabilities on alternate assessments; and (4) develop appropriate assessment accommodations that do not alter the established reliability and validity of the assessment instrument.

Projects funded under this priority also must—

(a) Budget to attend a two-day Project Directors' meeting;

(b) If the project maintains a Web site, include relevant information and documents in a format that meets a government or industry-recognized standard for accessibility; and

(c) Provide a written assurance that the State's Assessment Office (e.g., the office that addresses ESEA accountability) was given the opportunity to contribute to the formulation of the application.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (APA) (5 U.S.C. 553), the Department generally offers interested parties the opportunity to comment on a proposed priority. However, section 681(d) of IDEA makes the public comment requirements under the APA inapplicable to the priority in this notice.

Program Authority: 20 U.S.C. 1463 and 1481(d).

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Note: The regulations in 34 CFR part 86 apply to IHEs only.

You may not e-mail an electronic copy of a grant application to us.

You may access the electronic grant application for the General Supervision Enhancement Grants at: <http://www.grants.gov>. You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number's alpha suffix in your search.

The Department will contact you after a determination is made on whether your application will be accepted.

Note: Extensions referred to in this section apply only to the unavailability of or technical problems with the Grants.gov system.
