

29, 2002). The tenant comparisons will identify, based on criteria established by HUD, tenants whose incomes, family size, address, or benefit levels, etc., that require further verification to determine if the tenants received appropriate levels of rental assistance. The program also provides for the verification of the matching results and the initiation of appropriate administrative or legal actions.

A. Income Verification

Any match (*i.e.*, a "hit") will be further reviewed by HUD, the POA, or the HUD Office of Inspector General (OIG) to determine whether the income reported by tenants to the POA is correct and complies with HUD and POA requirements. Specifically, current or prior wage information and other data will be sought directly from employers.

B. Administrative or Legal Actions

Regarding all the matching described in this notice, HUD anticipates that POAs will take appropriate action in consultation with tenants to: (1) Resolve income disparities between tenant-reported and independent income source data, and (2) use correct income amounts in determining housing rental assistance.

POAs must compute the rent in full compliance with all applicable occupancy regulations. POAs must ensure that they use the correct income and correctly compute the rent.

The POAs may not suspend, terminate, reduce, or make a final denial of any housing assistance to any tenant as the result of information produced by this matching program until: (a) The tenant has received notice from the POA of its findings and informing the tenant of the opportunity to contest such findings and (b) either the notice period provided in applicable regulations of the program, or 30 days, whichever is later, has expired. In most cases, POAs will resolve income discrepancies in consultation with tenants.

Additionally, serious violations, which POAs, HUD Program staff, or HUD OIG verify, should be referred for full investigation and appropriate civil and/or criminal proceedings.

IV. Records To Be Matched

This computer matching program, to the extent that it involves the use of SSA, IRS or SWICA data is fully described at 69 FR 11033. With respect to FEMA data, the match will involve tenant records obtained directly from POAs and subsidized multifamily projects included in the Tenant Housing Assistance and Contract Verification

Data (HUD/H-11) and the Public and Indian Housing Information Center (HUD/PIH-4). These records contain information about individuals who are participants in the Federal low income and Section 8 housing assistance programs. Specifically, the tenant records include these data elements: (1) SSNs for each family member; (2) family control number to identify each tenant with a particular family; (3) Head of Household Indicator; (4) Last Name, First Name, Middle Initial, and Address for household; (5) Sex; (6) Birth Date; (7) Reported Income by source, description and amount; (8) Program Code; and (9) Recertification Date.

The FEMA will provide HUD with extract files from the FEMA/REG-2 system. The notice for this system was published at 69 FR 65615. The disclosure from FEMA/REG-2 will be made in accordance with routine use "a(1)." HUD will match the tenant records to the FEMA records on disaster assistance applicants to compare tenant reported income.

For matched employees SSNs (*i.e.*, "hits"), HUD will extract the following information from FEMA/REG-2: SSN, Date of Birth, Name, Sex, Income Information, Household Size and Composition, Address, Insurance Coverage Information, and Temporary Housing Assistance Eligibility Determinations.

V. Period of the Match

The computer matching program will be conducted according to an agreement between HUD and the FEMA. The computer matching agreement for the planned matches will terminate either when the purpose of the computer matching program is accomplished, or 18 months from the date the agreement is signed, whichever comes first.

The agreement may be extended for one 12-month period, with the mutual agreement of all involved parties, if the following conditions are met:

(1) Within 3 months of the expiration date, all Data Integrity Boards review the agreement, find that the program will be conducted without change, and find a continued favorable examination of benefit/cost results; and

(2) All parties certify that the program has been conducted in compliance with the agreement. The agreement may be terminated, prior to accomplishment of the computer matching purpose or 18 months from the date the agreement is signed (whichever comes first), by the mutual agreement of all involved parties within 30 days of written notice.
