DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2018-0223]

Parts and Accessories Necessary for Safe Operation; Application for an Exemption From Groendyke Transport, Inc.

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: The Federal Motor Carrier Safety Administration (FMCSA) requests public comment on an application for exemption from Groendyke Transport, Inc. (Groendyke) to allow the use of a pulsating brake lamp in addition to the steady burning brake lamps required by the Federal Motor Carrier Safety Regulations (FMCSR) in its fleet operations. The FMCSRs require all exterior lamps (both required lamps and any additional lamps) to be steady-burning, with the exception of turn signal lamps, hazard warning signal lamps, school bus warning lamps, amber warning lamps or flashing warning lamps on tow trucks and commercial motor vehicles (CMV) transporting oversized loads, and warning lamps on emergency and service vehicles authorized by State or local authorities. Groendyke believes that operating a pulsating brake lamp on the rear of its trailers on a fleet-wide basis would allow the company to operate its equipment more effectively, efficiently, and safely, and would maintain a level of safety that is equivalent to, or greater than, the level

that it would achieve without the requested exemption.

DATES: Comments must be received on or before August 29, 2018.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket ID FMCSA-2018-0223 using any of the following methods:

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31315 and 31136(e), FMCSA may grant exemptions from the FMCSRs. Pursuant to the implementing regulations, FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public with an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews the safety analyses and the public comments and determines whether granting the exemption would likely achieve a level of safety equivalent to or greater than the level that would be achieved by the current regulation (49 CFR 381.305).

The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)). If the Agency denies the request, it must state the reason for doing so. If the decision is to grant the exemption, the notice must specify the person or class of persons receiving the exemption and the regulatory provision or provisions from which an exemption is granted. The notice must specify the effective period of the exemption (up to 5 years) and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.315(c) and 49 CFR 381.300(b)).

Groendyke's Application for Exemption

Groendyke applied for an exemption from the requirements of 49 CFR 393.25(e) which requires all exterior lamps (both required lamps and any additional lamps) to be steady-burning, with the exception of turn signal lamps, hazard warning signal lamps, school bus warning lamps, amber warning lamps or flashing warning lamps on tow trucks and CMVs transporting oversized loads, and warning lamps on emergency and service vehicles authorized by State or local authorities. Specifically, Groendyke is requesting the exemption to allow it to install pulsating brake lamps in addition to the steady-burning brake lamps required by the FMCSRs. A
