OMB Control Number: 0579–0322.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701–7772), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. APHIS' "Domestic Quarantine Notices" in 7 CFR 301, "Potato Cyst Nematode" (§§ 301.86 through 301.86.9) requires quarantining parts of Bingham and Bonneville counties, ID; due to the discovery of the potato cyst nematode (PCN) and establishes restrictions on the

interstate movement of regulated articles from the quarantined area. This action is necessary to prevent the spread of the PCN via potatoes, soil, and other host material to non-infested areas of the United States.

Need and Use of the Information: APHIS will collect information using certificates, limited permits, compliance agreements, self-certification, appeal of withdrawn certificate or limited permit, appeal of withdrawn compliance agreement, and labeling to prevent the spread of PCN and to ensure that regulated articles can be moved safely from the quarantined area without spreading PCN. If APHIS did not collect this information, the spread of PCN in the United States could result in a loss of United States potatoes and other commodities from domestic and/or foreign markets.

Description of Respondents: Farms; Business or other for-profit.

Number of Respondents: 123.

Frequency of Responses: Reporting: On occasion.
