

Transmittal No. 18–0D

*REPORT OF ENHANCEMENT OR
UPGRADE OF SENSITIVITY OF
TECHNOLOGY OR CAPABILITY (SEC.
36(B)(5)(C)), (AECA)*

(i) *Purchaser:* Government of Norway
(ii) *Sec. 36(b)(1), AECA Transmittal
No.:* 13–68

Date: December 18, 2013

Military Department: Air Force

(iii) *Description:* On December 18, 2013, Congress was notified by Congressional certification transmittal number 13–68, of the possible sale under Section 36(b)(1) of the Arms Export Control Act of C–130J technical, engineering and software support; software updates and patches; familiarization training for the Portable Flight Planning System (PFPS) and Joint Mission Planning System (JMPS); spare and repair parts; U.S. Government and contractor technical support services; and other related elements of logistics and program support. The estimated cost was \$107 million, with no Major Defense Equipment (MDE).

This transmittal notifies the extension of non-MDE support provided to Norway's C–130J aircraft sustainment program, including additional

distribution support for unclassified and classified software. Extending the sustainment case will result in an increase in non-MDE cost of \$123 million. The total case value will increase to \$230 million.

(iv) *Significance:* The addition of this funding to Norway's C–130J sustainment program represents an increase in capability over what was originally notified. The proposed sale will allow Norway to continue to effectively maintain its current fleet of C–130J fleet.

(v) *Justification:* This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally. Norway intends to use this technical, engineering, and software support to provide successful operation of the PFPS and JMPS. This program will increase Norway's ability to contribute to future NATO operations, support U.S. national security interests, and strengthen a critical, long-term strategic military partnership.

(vi) *Date Report Delivered to
Congress:* July 6, 2018

The Honorable Paul D. Ryan
Speaker of the House
U.S. House of Representatives
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 18-14, concerning the Air Force's proposed Letter(s) of Offer and Acceptance to the Government of the Netherlands for defense articles and services estimated to cost \$110 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

A handwritten signature in black ink, appearing to read "C. W. Hooper", is written over a horizontal line.

Charles W. Hooper
Lieutenant General, USA
Director

Enclosures:

1. Transmittal
2. Policy Justification

Transmittal No. 18–14

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

The Netherlands—F–16 Formal Training Unit at Tucson Air National Guard Base (ANGB), Arizona

The Government of the Netherlands has requested to buy defense articles and services in support of continuation

of a Continental United States (CONUS) based Royal Netherlands Air Force F–16 Formal Training Unit, to include up to twenty-seven (27) GBU–12 Inert Paveway IIs. Also included are PGU–27 Inert training rounds, Impulse Cartridges, MJU–7/B Flares, RR–188 Chaff, BDU–33/B and BDU–50/B training munitions, fuel and air refueling support, airlift services, base operating support, facilities, publications and technical documentation, pilot training, personnel training and training equipment, weapon system and software support, U.S. Government and contractor technical, engineering, and logistics personnel services, and other related elements of logistics and program support. The estimated program value is \$110 million.

This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a NATO Ally which is an important force for political stability and economic progress in Europe.

This potential sale will continue to improve the Royal Netherlands Air Force’s (RNLAf) ability to develop mission-ready and experienced pilots to support its F–16 aircraft inventory. The well-established pilot proficiency training program at Tucson Air National Guard Base will train pilots in F–16 operations, tactics, techniques, and procedures. This training will enhance the RNLAf’s ability to continue contributions to Overseas Contingency Operations and to NATO air policing operations, as well as, to possible future coalitions operations. The Netherlands will have no difficulty absorbing this training.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There is no prime contractor involved in this proposed sale. The Tucson Air National Guard will provide instruction,

flight operations, and maintenance support and facilities with defense articles anticipated to come from U.S. stocks, as needed. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to the Netherlands.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
