**Scope of the Order**

The products covered by this order are certain processed olives, usually referred to as “ripe olives.” The subject merchandise includes all colors of olives; all shapes and sizes of olives, whether pitted or not pitted, and whether whole, sliced, chopped, minced, wedged, broken, or otherwise reduced in size; all types of packaging, whether for consumer (retail) or institutional (food service) sale, and whether canned or packaged in glass, metal, plastic, multilayered airtight containers (including pouches), or otherwise; and all manners of preparation and preservation, whether low acid or acidified, stuffed or not stuffed, with or without flavoring and/or saline solution, and including in ambient, refrigerated, or frozen conditions.

Included are all ripe olives grown, processed in whole or in part, or packaged in Spain. Subject merchandise includes ripe olives that have been further processed in Spain or a third country, including but not limited to curing, fermenting, rinsing, oxidizing, pitting, slicing, chopping, segmenting, wedging, stuffing, packaging, or heat treating, or any other processing that would not otherwise remove the merchandise from the scope of the order if performed in Spain.

Subject merchandise includes ripe olives that otherwise meet the definition above that are packaged together with non-subject products, where the smallest individual packaging unit (*e.g.*, can, pouch, jar, etc.) of any such product—regardless of whether the smallest unit of packaging is included in a larger packaging unit (*e.g.*, display case, etc.)—contains a majority (*i.e.*, more than 50 percent) of ripe olives by net drained weight. The scope does not include the non-subject components of such product.

Excluded from the scope are: (1) Specialty olives <sup>10</sup> (including “Spanish-style,” “Sicilian-style,” and other similar olives) that have been processed by fermentation only, or by being cured in an alkaline solution for not longer than 12 hours and subsequently fermented; and (2) provisionally prepared olives unsuitable for immediate consumption (currently classifiable in subheading 0711.20 of the Harmonized Tariff Schedule of the United States (HTSUS)).

The merchandise subject to this order is currently classifiable under subheadings 2005.70.0230, 2005.70.0260, 2005.70.0430, 2005.70.0460, 2005.70.5030, 2005.70.5060, 2005.70.6020, 2005.70.6030, 2005.70.6050, 2005.70.6060, 2005.70.6070, 2005.70.7000, 2005.70.7510, 2005.70.7515, 2005.70.7520, and 2005.70.7525 HTSUS. **Export Trade Certificate of Review**

**ACTION:** Notice of Application To Amend the Export Trade Certificate of Review Held by Ginseng Board of Wisconsin, Inc., Application No. 01–1A001.

**SUMMARY:** The Secretary of Commerce, through the International Trade Administration, Office of Trade and Economic Analysis (“OTEA”), received an application to amend the Export Trade Certificate of Review (“Certificate”) held by Ginseng Board of Wisconsin, Inc. (“GBW”). This notice summarizes the proposed amendment and seeks public comments on whether

<sup>9</sup> The cash deposit rate is equal to the calculated estimated weighted-average dumping margin adjusted for the appropriate subsidy offset(s).

<sup>10</sup> Some of the major types of specialty olives and their curing methods are:

- “Spanish-style” green olives: Spanish-style green olives have a mildly salty, slightly bitter taste, and are usually pitted and stuffed. This style of olive is primarily produced in Spain and can be made from various olive varieties. Most are stuffed with pimento; other popular stuffings are jalapeno, garlic, and cheese. The raw olives that are used to produce Spanish-style green olives are picked while

they are unripe, after which they are submerged in an alkaline solution for typically less than a day to partially remove their bitterness, rinsed, and fermented in a strong salt brine, giving them their characteristic flavor.

- “Sicilian-style” green olives: Sicilian-style olives are large, firm green olives with a natural bitter and savory flavor. This style of olive is produced in small quantities in the United States using a Sevillano variety of olive and harvested green with a firm texture. Sicilian-style olives are processed using a brine-cured method, and undergo a full fermentation in a salt and lactic acid brine

for 4 to 9 months. These olives may be sold whole unpitted, pitted, or stuffed.

- “Kalamata” olives: Kalamata olives are slightly curved in shape, tender in texture, and purple in color, and have a rich natural tangy and savory flavor. This style of olive is produced in Greece using a Kalamata variety olive. The olives are harvested after they are fully ripened on the tree, and typically use a brine-cured fermentation method over 4 to 9 months in a salt brine.
- Other specialty olives in a full range of colors, sizes, and origins, typically fermented in a salt brine for 3 months or more.

the amended Certificate should be issued.

**SUPPLEMENTARY INFORMATION:** Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4001-21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. An Export Trade Certificate of Review protects the holder and the members identified in the Certificate from State and Federal government antitrust actions and from private treble damage antitrust actions for the export conduct specified in the Certificate and carried out in compliance with its terms and conditions. Section 302(b)(1) of the Export Trading Company Act of 1982 and 15 CFR 325.6(a) require the Secretary to publish a notice in the **Federal Register** identifying the applicant and summarizing its proposed export conduct.

**Request for Public Comments**

Interested parties may submit written comments relevant to the determination whether an amended Certificate should be issued. If the comments include any privileged or confidential business information, it must be clearly marked and a nonconfidential version of the comments (identified as such) should be included. An original and five (5) copies, plus two (2) copies of the nonconfidential version, should be submitted no later than 20 days after the date of this notice to: Office of Trade and Economic Analysis, International Trade Administration, U.S. Department of Commerce, Room 21028, Washington, DC 20230.
