DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 2005N-0290]

Agency Information Collection Activities; Announcement of Office of Management and Budget Approval; Importer's Entry Notice

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a collection of information entitled "Importer's Entry Notice" has been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995.

FOR FURTHER INFORMATION CONTACT: Karen Nelson, Office of Management Programs (HFA-250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-1482.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of November 16, 2005 (70 FR 69576), the agency announced that the proposed information collection had been submitted to OMB for review and clearance under 44 U.S.C. 3507. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. OMB has now approved the information collection and has assigned OMB control number 0910-0046. The approval expires on May 31, 2009. A copy of the supporting statement for this information collection is available on the Internet at <http://www.fda.gov/ohrms/dockets>.

Dated: June 23, 2006.

Jeffrey Shuren,

Assistant Commissioner for Policy.

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities; Submission for OMB Review; Comment Request

Periodically, the Health Resources and Services Administration (HRSA) publishes abstracts of information collection requests under review by the Office of Management and Budget (OMB), in compliance with the Paperwork Reduction Act of 1995 (44

U.S.C. Chapter 35). To request a copy of the clearance requests submitted to OMB for review, call the HRSA Reports Clearance Office on (301)-443-1129.

The following request has been submitted to the Office of Management and Budget for review under the Paperwork Reduction Act of 1995:

Proposed Project: Assessment of the State Maternal and Child Health Comprehensive Systems Grant (SECCS) Program (NEW)

HRSA's Maternal and Child Health Bureau (MCHB) is conducting an assessment of MCHB's State Maternal and Child Health Comprehensive Systems Grant (SECCS) Program. The purpose of the SECCS Program is to support State and local communities in their efforts to build comprehensive and coordinated early childhood service systems and to increase the leadership and participation of State MCH Title V programs in multi-agency early childhood systems development initiatives.

The SECCS funding is offered to States, jurisdictions, or Territory Title V agencies in two stages: *Planning and Implementation*. This assessment will only focus on *Implementation Grantees* awarded in 2005 (approximately 20 grantees) and 2006 (approximately 40 grantees). The purpose of the assessment is to determine: (1) Progress of implementation grantees in meeting the goals and objectives set forth in their plans developed during the planning phase and in building program infrastructure and capacity to improve early childhood services in their states/jurisdictions/territories; (2) programmatic, policy, and systemic barriers and facilitators that affect program implementation; and (3) quality and effectiveness of the technical assistance (TA) provided to the grantees. The results of the assessment will provide MCHB with timely feedback on the achievements of the SECCS Program and identify potential areas for improvement, which will inform program planning and operational decisions.

As part of the project, all implementation grantees will be asked to complete a Minimum Data Set (MDS), which will primarily include closed-ended questions addressing grantees' progress in achieving the requirements outlined in the implementation grant guidance. The MDS will primarily capture quantitative data on implementation grantees' progress in increasing the State MCH Program's role and leadership in multi-agency early childhood systems development initiatives and building partnerships

and system capacity to improve early childhood services in their States.

This information will supplement and enhance the MCHB's current data collection efforts by providing a quantifiable, standardized, systematic mechanism for collecting information across the funded implementation

grantees. For the 2005 cohort of implementation grantees, the MDS will be administered once in 2006 to gather baseline data, and again in the second year of implementation (2007) to gather follow-up data on progress made. For the 2006 cohort of grantees, the MDS will be administered once in 2007.

Respondents: The SECCS implementation grantees (Title V agencies) funded in 2005 and 2006 will be the primary respondents of the instrument. Approximately 60 implementation grantees will respond to the MDS. The estimated response burden is as follows:

Cohort	Number of respondents	Responses per respondent	Hours per response	Total hour burden
2005 Cohort	18	* 2	2	72
2006 Cohort	42	1	2	84
Total	60	156

* Data will be collected once in 2006 and once in 2007.

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: John Kraemer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.

Dated: June 23, 2006.

Cheryl R. Dammons,
Director, Division of Policy Review and Coordination.

BILLING CODE 4165-15-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Submission for OMB Review; Comment Request; Fogarty International Center CareerTrac

Summary: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the Fogarty International Center (FIC), the National Institutes of Health (NIH), has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal Register** on February 14, 2006, page 7780-7781, and allowed 60-days for public comment. No comments were received from this notification regarding the cost and hour burden estimates. One comment was received suggesting that the Federal Government should not be funding international work until all Americans are cared for. We note that through partnerships in training and research with scientists from around the world, including those in developing countries, we are able to identify new strategies and new

understandings of disease processes, including for AIDS, TB, and chronic diseases such as heart disease, that affect all Americans. The purpose of this announcement is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection

Title: Fogarty International Center CareerTrac.

Type of Information Collection Request: New.

Need and Use of Information Collection: This data collection system is being developed to track, evaluate and report short and long-term outputs, outcomes and impacts of international trainees involved in health research training programs specifically tracking this for at least ten years following training by having trainees enter their own data after they have completed the program. The data collection system provides a streamlined, Web-based application permitting principal investigators to record career achievement progress by trainee on a voluntary basis. FIC management will use this data to monitor, evaluate and adjust grants to ensure desired outcomes are achieved, comply with OMB PART requirements, respond to congressional inquiries, and as a guide to inform future strategic and management decisions regarding the grant program.

Frequency of Response: Annual and periodic.

Affected Public: None.

Type of Respondents: Principal Investigators funded by Fogarty International Center.

The annual reporting burden is as follows:

Estimated Number of Respondents: 150.

Estimated Number of Responses per Respondent: 15.

Average Burden Hours per Response: 50; and

Estimated Total Annual Burden Hours Requested: 1125.

The annualized cost to respondents is estimated at \$87,939. There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Direct Comments to OMB: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20503.

Attention: Desk Office NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and
