Background Information. On April 12, 2006, the Commission adopted the *AWS Relocation and Cost Sharing Report and Order*,¹ establishing procedures for the relocation of Broadband Radio Service (BRS) operations from the 2150-2160/62 MHz band.² The *AWS Relocation and Cost Sharing Report and Order* also established procedures for the relocation of Fixed Microwave Service (FS) operations from the 2160-2175 MHz band and modified existing relocation procedures for the 2110-2150 MHz and 2175-2180 MHz bands. In addition, the Commission adopted cost sharing rules to identify the reimbursement obligations for

Advanced Wireless Service (AWS) and Mobile Satellite Service (MSS) entrants benefiting from the relocation of incumbent FS operations in the 2110-2150 MHz and 2160-2200 MHz bands and AWS entrants benefiting from the relocation of BRS incumbents in the 2150-2160/62 MHz band.

Specifically, in the *AWS Relocation and Cost Sharing Report and Order*, the Commission delegated authority to the Bureau to select one or more entities for the creation and management of a neutral, not-for-profit clearinghouse³ that would facilitate cost sharing among AWS and MSS entrants benefiting from the relocation of FS incumbents in the 2110-2150 MHz and 2160-2200 MHz bands. Mobile Satellite Service operators are required to participate in the clearinghouse for Ancillary Terrestrial Component (ATC) base stations, *see e.g.*, 47 CFR 101.82(d), and may elect to submit claims for reimbursement to the AWS clearinghouse for FS links relocated due to interference from the MSS space-to-Earth operations. The Commission also therein delegated authority to the Bureau to select one or more entities for the creation and management of a neutral, not-for-profit clearinghouse to facilitate cost sharing among AWS entrants benefiting from the relocation of BRS incumbents in the 2150-2160/62 MHz band.⁴ The Commission stated that selection would be based on criteria established by the Bureau, and that the Bureau would publicly announce the criteria and solicit proposals from qualified parties. The Commission also instructed the Bureau to solicit public comment on proposals that are submitted and, after selecting the clearinghouse administrator(s), to announce the effective date of the clearinghouse filing requirements.⁵

³ WTB will select one or more entities to operate as a neutral, not-for-profit clearinghouse(s). This clearinghouse(s) will administer the cost-sharing plan. *See* 47 CFR 27.1162, 27.1178. For convenience only, herein we refer to the clearinghouse in the singular.

⁴ *See AWS Relocation and Cost Sharing Report and Order* at paragraphs 106-107. The Commission made no determination at the time as to whether a clearinghouse must provide administration for both FS and BRS-related cost sharing. *See id.* at n.374. However, the Commission recognized the efficiencies in a clearinghouse administering the cost sharing processes for the relocation of both FS and BRS incumbents in the subject bands. *See id.* at paragraph 106.

⁵ *See id.* at paragraphs 83, 107. Claims for reimbursement are limited to relocation expenses incurred on or after the date when the first AWS license is issued in the relevant AWS band (start date). If a clearinghouse is not selected by that date, claims for reimbursement and notices of operation for activities that occurred after the start date but prior to the clearinghouse selection must be submitted to the clearinghouse within thirty

Parties submitting comments to the Commission should specifically address the particulars of each proposal. In addition, we seek comment on whether more than one clearinghouse would be feasible and, if we decide to designate multiple clearinghouses, what mechanisms should be implemented to facilitate their simultaneous operation. We further seek comment on whether, as a general matter, proposals that offer to administer cost sharing for both FS and BRS relocations are preferable to proposals that seek to administer cost sharing for only one of these relocation processes.

Clearinghouse Proposals. We request that an existing or newly-formed entity interested in serving as a cost sharing clearinghouse submit a business plan detailing how the entity would perform the functions of a clearinghouse. Proposals received after July 17, 2006, will not be considered. At a minimum, each proposal must include:

- A reference to this public notice and WT Docket No. 02-353 and ET Docket No. 00-258;
- The name and a description of the entity proposing to be a clearinghouse, and a description of its qualifications;
- Information regarding financial data, including business plans, which should address how the entity intends to raise start-up funds and how much the entity plans to charge for individual transactions;
- Whether the entity is interested in serving as a clearinghouse for FS relocations, BRS relocations, or both;
- A detailed description of accounting methods (*e.g.*, how the entity intends to separate out premium payments, which are nonreimbursable);
- A description of how the entity intends to address concerns about confidentiality, and a description of security measures the entity will take to safeguard submitted information, including off-site data back-up facilities and measures to ensure continuity of access to the information in the event the entity's operations are interrupted;
- A certification that the entity will be able and willing to work with other clearinghouse managers should WTB decide to designate more than one;
- A certification that the entity is a not-for-profit organization and will retain its not-for-profit status during the term of its operations;
- A description of how the entity intends to remain impartial and how it will prevent any conflicts of interest;
- An assessment of how long it would take the entity to become operational

calendar days of the selection date. *See* 47 CFR 27.1166.

¹ Amendment of part 2 of the Commission's rules to Allocate Spectrum Below 3 GHz for Mobile and Fixed Service to Support the Introduction of New Advanced Wireless Services, including Third Generation Wireless Systems, ET Docket No. 00-258, Service Rules for Advances Wireless Services in the 1.7 GHz and 2.1 GHz Bands, WT Docket No. 02-353, *Ninth Report and Order and Order*, FCC 06-45 (rel. April 21, 2006) (*AWS Relocation and Cost Sharing Report and Order*).

² The Multipoint Distribution Service (MDS) was renamed the Broadband Radio Service (BRS) in the *BRS R&O*. *See* Amendment of parts 1, 21, 73, 74 and 101 of the Commission's rules to Facilitate the Provision of Fixed and Mobile Broadband Access, Educational and Other Advanced Services in the 2150-2162 MHz and 2500-2690 MHz Bands, WT Docket No. 03-66, *Report and Order and Further Notice of Proposed Rulemaking*, 19 FCC Rcd 14165 (2004) (*BRS R&O and FNPRM*); *Third Memorandum Opinion and Order and Second Report and Order*, FCC 06-46 (rel. April 27, 2006) (*BRS Third MO&O and Second R&O*). Therefore, all former MDS licensees are now referred to as BRS licensees. BRS uses 2160-2162 MHz only in the top 50 markets. In WT Docket 03-66, as part of an overall restructuring of the BRS spectrum, the Commission established a channel plan in the 2496-2690 MHz band that is designed to accommodate BRS licensees that currently operate in the 2150-2160/62 MHz band.

and how many days it would take the clearinghouse to notify licensees of a reimbursement obligation;

- A description of how the entity intends to resolve disputes between parties (e.g., disputes over whether a particular expense is reimbursable); and
- The name, address, telephone number, and signature of a contact person familiar with the proposal.

We emphasize that the above requirements are only what, at a minimum, must be included in each proposal. The Bureau will evaluate proposals by balancing a number of factors, which include the criteria listed above (in particular, the entity's qualifications, plans for operation of the clearinghouse, and amount of time to become operational) as well as an overall assessment of the particulars of each entity's proposal.

Once selected, a clearinghouse must operate in accordance with the Commission's rules. Accordingly, any entity proposing to serve as a clearinghouse is expected to be familiar with the applicable Commission rules, policies, and procedures.

Decision. WTB will base its decision on the information provided. Once WTB designates one or more clearinghouse managers, such designation(s) will take effect upon the execution by such clearinghouse manager(s) and the WTB of a Memorandum of Understanding (MOU). Once a decision has been made and MOUs executed, the Bureau will announce by public notice the names and addresses of the selected Database Managers.
