

million; freight forwarding firms are small if their annual receipts are less than \$6 million, and deep sea freight transport firms are small if they have not more than 500 workers. According to the 2002 Economic Census, there were 9,177 trucking firms, 5,840 freight forwarders, and 383 deep sea freight transport companies. Over 99 percent of trucking firms, 90 percent freight forwarders, and 70 percent of deep sea freight transport firms are considered to be small. Although the majority of these establishments are small entities, the effect of this rule will be negligible.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.
