The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC.

There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). Title: Telecommunications Reporting Worksheet, CC Docket No. 96–45.

Form Number: FCC Forms 499A and 499Q.

Type of Review: Revision of a currently approved collection.

Respondents: Business and other for-profit and not-for-profit institutions.

Number of Respondents: 5,625 respondents; 17,465 responses.

Estimated Time per Response: 10–25 hours per quarterly filing; 13.5–25 hours per annual filing.

Frequency of Response: On occasion, one-time, quarterly and annual reporting requirements, recordkeeping requirement, and third party disclosure requirement.

Total Annual Burden: 263,230 hours.

Total Annual Cost: 0.

Privacy Impact Assessment: N/A.

Needs and Uses: This collection was submitted as a revision to an existing collection to obtain emergency clearance for FCC Forms 499–A and 499–Q (3060–0855). Universal Service obligations have been extended to Interconnected Voice over Internet Protocol Providers. The Federal Communications Commission (Commission) requires telecommunications carriers and other providers of telecommunications to contribute to the universal service fund. The Commission has found that interconnected VoIP providers are providers of interstate telecommunications. As such, the Commission has determined that interconnected VoIP providers should contribute to the universal service fund. By including interconnected VoIP providers in the contribution base, the Commission ensures that its

contribution mechanism remains equitable, nondiscriminatory, and competitive neutral. The Commission determined that interconnected VoIP providers may contribute based on either an interim safe harbor amount, under which interconnected VoIP providers treat 64.9 percent of their telecommunications revenues as interstate; their actual interstate end-user telecommunications revenues; or an estimate of their interstate end-user telecommunications revenues as determined by a traffic study that has been approved by the Federal Communication Commission and submitted to USAC.

In addition, the Commission determined that to the extent wireless providers report revenue based on traffic studies, in lieu of reporting actual interstate end-user telecommunications revenues or the interim wireless safe harbor of 37.1 percent, such traffic studies must be filed with the Federal Communications Commission and the Universal Service Fund administrator.
