[Docket No. CP05-91-000; Docket No. CP05-380-000]

Calhoun LNG, L.P.; Point Comfort Pipeline Company, L.P.; Notice of Availability of the Draft Environmental Impact Statement for the Calhoun LNG Terminal and Pipeline Project

June 30, 2006.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared this draft Environmental Impact Statement (EIS) for the construction and operation of the liquefied natural gas (LNG) import terminal and natural gas pipeline facilities (referred to as the Calhoun LNG Project or Project) as proposed by Calhoun LNG, L.P. and Point Comfort Pipeline Company, L.P. (collectively referred to as Calhoun Point Comfort) in the above-referenced dockets.

The draft EIS was prepared to satisfy the requirements of the National Environmental Policy Act (NEPA). The staff concludes that approval of the Calhoun LNG Project, with appropriate mitigating measures as recommended, would have limited adverse environmental impact. The draft EIS evaluates alternatives to the proposal, including system alternatives, alternative sites for the LNG import terminal, and pipeline alternatives.

The purpose of the Calhoun LNG Project is to provide facilities necessary to import, store, and vaporize on average about 1.0 billion cubic feet per day of LNG to provide a competitive supply of natural gas to local industrial customers, such as Formosa Hydrocarbons Company and Formosa Plastics Corporation, and other energy-consuming customers in Texas and deliver natural gas into existing interstate and intrastate natural gas pipelines near Edna, Texas. In order to accomplish this purpose, Calhoun Point Comfort proposes to construct and operate a new LNG import terminal including an LNG ship berth and unloading facilities on the southeastern shoreline of Lavaca Bay, south of Point Comfort, in Calhoun County, Texas. In addition, Calhoun Point Comfort would construct and operate a new natural gas pipeline and ancillary facilities extending northward from the LNG terminal to natural gas pipeline interconnects southwest of Edna, in Jackson County, Texas.

The draft EIS addresses the potential environmental effects of the construction and operation of the
