requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Small Municipal Waste Combustors.

Estimated Number of Respondents:

Frequency of Response: Initially, semiannually, annually, and on occasion.

Estimated Total Annual Hour Burden:

Estimated Total Annual Cost: \$9,578,926 which includes \$0 annualized capital start up costs, \$1,037,000 annualized O&M costs and \$8,541,926 annualized labor costs.

Changes in the Estimates: There is a decrease of 85,520 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The decrease in burden hours from the most recently approved ICR is due to a decrease in the number of respondents subject to the standard, from 39 to 23. The decrease in the capital cost estimate from the most recently approved ICR, from \$2,800,000 to zero, is due to the fact that no additional monitoring equipment is expected to be installed over the next three years. All monitoring equipment required by this standard was installed during the most recently approved ICR. In addition, no new sources will become subject to this standard over the next three years. The decrease in the O&M costs from the previous ICR is due to the decrease in the number of respondents subject to the standard, from 39 to 23.

Dated: June 28, 2006.

Sara Hisel-McCoy,

Acting Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2005-0069; FRL-8194-2]

Agency Information Collection Activities; Submission for OMB Review and Approval; Comment Request; **NESHAP** for Semiconductor Manufacturing (Renewal), EPA ICR Number 2042.03, OMB Control Number 2060-0519

AGENCY: Environmental Protection

Agency (EPA). **ACTION:** Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 et seq.), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and costs.

DATES: Additional comments may be submitted on or before August 10, 2006. **ADDRESSES:** Submit your comments, referencing docket ID number EPA-HQ-OECA-2005-0069, to (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, Mail Code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB by mail to: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Learia Williams, Compliance Assessment and Media Programs Division (CAMPD), Office of Compliance (OC), (Mail Code 2223A), Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; email address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On September 21, 2005 (70 FR 55368), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID number EPA-HQ-OECA-2005-0069, which is available for online viewing at http:// www.regulations.gov, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at http:// www.regulations.gov to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at http://www.regulations.gov as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NESHAP for Semiconductor Manufacturing (Renewal).

ICR Numbers: EPA ICŔ Number 2042.03, OMB Control Number 2060-

ICR Status: This ICR is scheduled to expire on June 30, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the Federal Register when approved are listed in 40 CFR part 9, are displayed either by publication in the Federal Register or by other appropriate means, such as the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for semiconductor manufacturing were proposed on May 8, 2002, (67 FR 30848), and promulgated on May 22, 2003, (68 FR 87925). These standards apply to each existing, new, or reconstructed effected source that manufactures semiconductors.

Semiconductor manufacturing process units are used to manufacture ptype and n-type semiconductor and active solid-state devices from a water substrate, including research and development activities integrated into a semiconductor manufacturing process unit. Respondents must submit one-time only notifications, compliance status report, and initial performance test results. Owners/operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operations of an affected facility, or any period during which the monitoring system is inoperative. Semiannual summary reports are also required.

Any owner or operator subject to the provisions of this subpart must maintain a file of these measurements, and retain the file for at least five years following the collection of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 18 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:
Semiconductor manufacturing facility.
Estimated Number of Respondents: 1.
Frequency of Response: On occasion, initially, and semiannually.

Estimated Total Annual Hour Burden: 37.

Estimated Total Annual Costs: \$3,117, which include \$0 annualized capital startup costs, \$0 annualized O&M costs, and \$3,117 annualized labor costs.

Changes in the Estimates: There is a decrease of 197 hours in the total estimated burden currently identified in

the OMB Inventory of Approved ICR Burdens. The decrease in burden is due to the requirements of the rule. In the first year of the previous ICR the source category consisted of an estimated 127 facilities, which included area sources, synthetic minor sources and major sources. Of these, only one facility is considered a major source and is subject to the semiconductor manufacturing NESHAP, and the other 126 non-major sources only read the rule the first year. There are no new sources expected over the three years of this ICR.

There are no changes in the capital/startup and operations and maintenance (O&M) costs from the previous ICR, even though there is an O&M cost for the one source, it is not enough for conversion to the thousand dollar requirement.

equirement.

Sara Hisel-McCoy,
