## SECURITIES AND EXCHANGE COMMISSION

**[Release No. 34-83794; File No. SR-NASDAQ-2018-062]**

### Self-Regulatory Organizations; The Nasdaq Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the Nasdaq Options Regulatory Fee

August 7, 2018.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on July 27, 2018, The Nasdaq Stock Market LLC ("Nasdaq" or "Exchange") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to revise The Nasdaq Options Market LLC's Rules ("NOM") at Chapter XV, Section 5 to amend the Nasdaq Options Regulatory Fee or "ORF."

While the changes proposed herein are effective upon filing, the Exchange has designated the amendments become operative on August 1, 2018.

The text of the proposed rule change is available on the Exchange's website at <http://nasdaq.cchwallstreet.com/>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set

forth in sections A, B, and C below, of the most significant aspects of such statements.

#### A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

Currently, Nasdaq assesses an ORF of \$0.0027 per contract side. The Exchange proposes to decrease this ORF to \$0.0008 per contract side. In light of recent market volumes on NOM, the Exchange is proposing to change the amount of ORF that will be collected by the Exchange. The Exchange's proposed change to the ORF should balance the Exchange's regulatory revenue against the anticipated costs.

##### Collection of ORF

Currently, NOM assesses its ORF for each customer option transaction that is either: (1) executed by a Participant on NOM; or (2) cleared by a NOM Participant at The Options Clearing Corporation ("OCC") in the customer range,<sup>3</sup> even if the transaction was executed by a non-member of NOM, regardless of the exchange on which the transaction occurs.<sup>4</sup> If the OCC clearing member is a NOM Participant, ORF is assessed and collected on all cleared customer contracts (after adjustment for CMTA<sup>5</sup>); and (2) if the OCC clearing member is not a NOM Participant, ORF is collected only on the cleared customer contracts executed at NOM, taking into account any CMTA instructions which may result in collecting the ORF from a non-member.

By way of example, if Broker A, a NOM Participant, routes a customer order to CBOE and the transaction executes on CBOE and clears in Broker A's OCC Clearing account, ORF will be collected by NOM from Broker A's clearing account at OCC via direct debit. While this transaction was executed on a market other than NOM, it was cleared by a NOM Participant in the member's OCC clearing account in the customer range, therefore there is a regulatory nexus between NOM and the transaction. If Broker A was not a NOM Participant, then no ORF should be assessed and collected because there is no nexus; the transaction did not

<sup>3</sup> Participants must record the appropriate account origin code on all orders at the time of entry in order. The Exchange represents that it has surveillances in place to verify that members mark orders with the correct account origin code.

<sup>4</sup> The Exchange uses reports from OCC when assessing and collecting the ORF.

<sup>5</sup> CMTA or Clearing Member Trade Assignment is a form of "give-up" whereby the position will be assigned to a specific clearing firm at OCC.

<sup>21</sup> 17 CFR 200.30-3(a)(12).

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

execute on NOM nor was it cleared by a NOM Participant.

In the case where a Participant both executes a transaction and clears the transaction, the ORF is assessed to and collected from that Participant. In the case where a Participant executes a transaction and a different member clears the transaction, the ORF is assessed to and collected from the Participant who clears the transaction and not the Participant who executes the transaction. In the case where a non-member executes a transaction at an away market and a Participant clears the transaction, the ORF is assessed to and collected from the Participant who clears the transaction. In the case where a Participant executes a transaction on NOM and a non-member clears the transaction, the ORF is assessed to the Participant that executed the transaction on NOM and collected from the non-member who cleared the transaction. In the case where a Participant executes a transaction at an away market and a non-member clears the transaction, the ORF is not assessed to the Participant who executed the transaction or collected from the non-member who cleared the transaction because the Exchange does not have access to the data to make absolutely certain that ORF should apply. Further, the data does not allow the Exchange to identify the Participant executing the trade at an away market.

#### ORF Revenue and Monitoring of ORF

The Exchange monitors the amount of revenue collected from the ORF to ensure that it, in combination with other regulatory fees and fines, does not exceed regulatory costs. In determining whether an expense is considered a regulatory cost, the Exchange reviews all costs and makes determinations if there is a nexus between the expense and a regulatory function. The Exchange notes that fines collected by the Exchange in connection with a disciplinary matter offset ORF.

The ORF is designed to recover a material portion of the costs to the Exchange of the supervision and regulation of its members, including performing routine surveillances, investigations, examinations, financial monitoring, and policy, rulemaking, interpretive, and enforcement activities.

The Exchange believes that revenue generated from the ORF, when combined with all of the Exchange's other regulatory fees, will cover a material portion, but not all, of the Exchange's regulatory costs. The Exchange will continue to monitor the amount of revenue collected from the ORF to ensure that it, in combination

with its other regulatory fees and fines, does not exceed regulatory costs. If the Exchange determines regulatory revenues exceed regulatory costs, the Exchange will adjust the ORF by submitting a fee change filing to the Commission.

#### Proposal

The Exchange is proposing to decrease the ORF from \$0.0027 to \$0.0008 as of August 1, 2018. In light of recent market volumes on NOM, the Exchange is proposing to decrease the amount of ORF that will be collected by the Exchange. The Exchange regularly reviews its ORF to ensure that the ORF, in combination with its other regulatory fees and fines, does not exceed regulatory costs. The Exchange believes this adjustment will permit the Exchange to cover a material portion of its regulatory costs, while not exceeding regulatory costs.

The Exchange notified Participants via an Options Trader Alert of the proposed change to the ORF thirty (30) calendar days prior to the proposed operative date, August 1, 2018.<sup>6</sup> The Exchange believes that the prior notification market participants will ensure market participants are prepared to configure their systems to properly account for the ORF.

#### 2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act<sup>7</sup> in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act<sup>8</sup> in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using its facility and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that decreasing the ORF from \$0.0027 to \$0.0008 as of August 1, 2018 is reasonable because the Exchange's collection of ORF needs to be balanced against the amount of regulatory costs incurred by the Exchange. The Exchange believes that the proposed adjustments noted herein will serve to balance the Exchange's regulatory revenue against the anticipated regulatory costs.

The Exchange believes that amending the ORF from \$0.0027 to \$0.0008 as of August 1, 2018 is equitable and not unfairly discriminatory because assessing the ORF to each Participant for options transactions cleared by OCC

in the customer range where the execution occurs on another exchange and is cleared by a NOM Participant is an equitable allocation of reasonable dues, fees, and other charges among its members and issuers and other persons using its facilities. The ORF is collected by OCC on behalf of NOM from Exchange clearing members for all customer transactions they clear or from non-members for all customer transactions they clear that were executed on NOM. The Exchange believes the ORF ensures fairness by assessing fees to Participants based on the amount of customer options business they conduct. Regulating customer trading activity is much more labor intensive and requires greater expenditure of human and technical resources than regulating non-customer trading activity, which tends to be more automated and less labor-intensive. As a result, the costs associated with administering the customer component of the Exchange's overall regulatory program are materially higher than the costs associated with administering the non-customer component (*e.g.*, Participant proprietary transactions) of its regulatory program.

The ORF is designed to recover a material portion of the costs of supervising and regulating Participants' customer options business including performing routine surveillances, investigations, examinations, financial monitoring, and policy, rulemaking, interpretive, and enforcement activities. The Exchange will monitor the amount of revenue collected from the ORF to ensure that it, in combination with its other regulatory fees and fines, does not exceed the Exchange's total regulatory costs. The Exchange has designed the ORF to generate revenues that, when combined with all of the Exchange's other regulatory fees, will be less than or equal to the Exchange's regulatory costs, which is consistent with the Commission's view that regulatory fees be used for regulatory purposes and not to support the Exchange's business side.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. This proposal does not create an unnecessary or inappropriate intra-market burden on competition because the ORF applies to all customer activity, thereby raising regulatory revenue to offset regulatory expenses. It also supplements the regulatory revenue derived from non-customer activity. This proposal does

<sup>7</sup> 15 U.S.C. 78f(b).

<sup>8</sup> 15 U.S.C. 78f(b)(4) and (5).

not create an unnecessary or inappropriate inter-market burden on competition because it is a regulatory fee that supports regulation in furtherance of the purposes of the Act. The Exchange is obligated to ensure that the amount of regulatory revenue collected from the ORF, in combination with its other regulatory fees and fines, does not exceed regulatory costs.

*C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

No written comments were either solicited or received.

**III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.<sup>9</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
