

If VIS does not locate a record pertaining to the applicant during an electronic initial verification, a second step additional verification must be requested by the agency, so that a Status Verifier can manually check the records. If the Status Verifier cannot determine status during the second step additional verification, they will request the agency to submit a copy of the applicant's immigration document. The immigration document can be submitted using scan and upload or by attaching it to a Form G-845 and mailing it to the Status Verifier.

Applicants may check on the processing of additional verification through the SAVE Case Check web portal, found at <http://www.uscis.gov/save/save-case-check>. SAVE Case Check permits applicants to use the SAVE verification numbers associated with their benefit applications or the immigration identification numbers and dates of birth provided to those benefit granting agencies to access this information.

In limited cases, agencies may query USCIS by filing Form G-845 by mail. Although the Form G-845 does not require it, if needed, certain agencies may also file the Form G-845 Supplement with the Form G-845, along with copies of immigration documents to receive additional information necessary to make their benefit determinations. These forms were developed to facilitate communication between all benefit-granting agencies and USCIS to ensure that basic information required to assess status verification requests is provided.

USCIS is publishing a second Notice allowing for a 60-day comment period to allow for comments on additional changes to the form and instructions.

You may access the information collection instrument with instructions, or additional information by visiting the Federal eRulemaking Portal site at: <http://www.regulations.gov> and enter USCIS-2006-0023 in the search box. Regardless of the method used for submitting comments or material, all submissions will be posted, without change, to the Federal eRulemaking Portal at <http://www.regulations.gov>, and will include any personal information you provide. Therefore, submitting this information makes it public. You may wish to consider limiting the amount of personal information that you provide in any voluntary submission you make to DHS. For additional information, please read the Privacy Act notice that is available via the link in the footer of <http://www.regulations.gov>.

Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Application for Certificate of Citizenship.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* N-600; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. Form N-600 collects information from respondents who are requesting a Certificate of Citizenship because they acquired United States citizenship either by birth abroad to a U.S. citizen parent(s), adoption by a U.S. citizen parent(s) or after meeting eligibility requirements after the naturalization of a foreign born parent. This form is also used by applicants requesting a Certificate of Citizenship because they automatically became a citizen of the United States after meeting eligibility requirements for acquisition of citizenship by foreign born children. Form N-600 can also be filed by a parent or legal guardian on behalf of a minor child. The form standardizes requests for the benefit, and ensures that basic information required to assess eligibility is provided by applicants.

USCIS uses the information collected on Form N-600 to determine if a Certificate of Citizenship can be issued to the applicant. Citizenship acquisition laws have changed throughout the history of the INA and different laws apply to determine whether the applicant automatically became a U.S. citizen. However, step children cannot acquire U.S. citizenship under any provision of the INA.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection N-600 is 67,000 and the

estimated hour burden per response is 1.58 hours; the estimated total number of respondents for the information collection Biometrics is 67,000 and the estimated hour burden per response is 1.17 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 184,250 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is \$8,207,500.
