

any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In terms of inter-market competition, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may connect to third parties instead of directly connecting to the Exchange, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

In this instance, the proposed changes to the charges assessed for connectivity to the Exchange are consistent with the fees assessed by other exchanges for the same or similar connectivity. The Exchange must assess fees to cover the costs incurred in providing connectivity and members had been assessed fees for Exchange connectivity prior to the sunset of the old Exchange architecture. The Exchange considered the historical fees paid by subscribers to the Exchange's connectivity and set the proposed fees at a level that it determined would be as similar to the historical fees paid by members for similar connectivity. As a consequence, competition will not be burdened by the proposed fees. In sum, if the changes proposed herein are unattractive to market participants, it is likely that the Exchange will see a decrease in subscribership to ports and possibly lose market share as a result. Accordingly, the Exchange does not believe that the proposed changes will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.

January 23, 2018.

On November 30, 2017, Banque Centrale de Compensation, which conducts business under the name LCH SA ("LCH SA"), filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder² a proposed rule change to adopt an updated recovery plan (the "RP"). (File No. SR-LCH SA-2017-012). Self-Regulatory Organizations; The Nasdaq Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to the Criteria for Listing Underlying Securities

January 23, 2018.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on January 16, 2018, The Nasdaq Stock Market LLC ("Nasdaq" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Chapter IV, Section 3 (Criteria for Underlying Securities) of the rules governing the Nasdaq Options Market ("NOM") to modify the criteria for listing an option on an underlying covered security.

The text of the proposed rule change is available on the Exchange's website at <http://nasdaq.cchwallstreet.com>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend NOM Chapter IV, Section 3 to modify the criteria for listing options on an underlying security as defined in Section 18(b)(1)(A) of the Securities Act of 1933 (hereinafter "covered security" or "covered securities"). In particular, the Exchange proposes to modify Section 3(b)v.1) to permit the listing of an option on an underlying covered security that has a market price of at least \$3.00 per share for the previous three consecutive business days preceding the date on which the Exchange submits a certificate to the Options Clearing Corporation ("OCC") for listing and trading. The Exchange does not intend to amend any other criteria for listing options on an underlying security in Chapter IV, Section 3.

This proposed rule change is identical to a recently-approved rule change by the Exchange's affiliate, Nasdaq PHLX LLC ("Phlx"), to its initial listing

standards,³ and serves to align the rules of Phlx and the Exchange.

Currently the underlying covered security must have a closing market price of \$3.00 per share for the previous five consecutive business days preceding the date on which the Exchange submits a listing certificate to OCC. In the proposed amendment, the market price will still be measured by the closing price reported in the primary market in which the underlying covered security is traded, but the measurement will be the price over the prior three consecutive business day period preceding the submission of the listing certificate to OCC, instead of the prior five business day period.

The Exchange acknowledges that the Options Listing Procedures Plan⁴ requires that the listing certificate be provided to OCC no earlier than 12:01 a.m. and no later than 11:00 a.m. (Chicago time) on the trading day prior to the day on which trading is to begin.⁵ The proposed amendment will still comport with that requirement. For example, if an initial public offering ("IPO") occurs at 11 a.m. on Monday, the earliest date the Exchange could submit its listing certificate to OCC would be on Thursday by 12:01 a.m. (Chicago time), with the market price determined by the closing price over the three-day period from Monday through Wednesday. The option on the IPO would then be eligible for trading on the Exchange on Friday. The proposed amendment would essentially enable options trading within four business days of an IPO becoming available instead of six business days (five

³ See Securities Exchange Act Release No. 82474 (January 9, 2018) (SR-Phlx-2017-75) (Order Granting Approval of a Proposed Rule Change) ("Phlx Filing"). The Exchange, together with its affiliates, Nasdaq BX, Inc. ("BX") and Nasdaq ISE, LLC ("ISE"), all of which are wholly owned subsidiaries of Nasdaq, Inc. ("Nasdaq HoldCo"), have filed identical rule change proposals based on the Phlx Filing.

⁴ The Plan for the Purpose of Developing and Implementing Procedures Designed to Facilitate the Listing and Trading of Standardized Options Submitted Pursuant to Section 11a(2)(3)(B) of the Securities Exchange Act of 1934 (a/k/a the Options Listing Procedures Plan ("OLPP")) is a national market system plan that, among other things, sets forth procedures governing the listing of new options series.
