

canister and a 100 meter site boundary is approximately 13 mrem/hour. This equates to a 104 mrem dose at the site boundary assuming an 8 hour recovery period. This dose is well below the 10 CFR 72.106 regulatory limit of 5000 mrem for accident conditions.

Therefore, there are no significant radiological environmental impacts associated with the proposed action.

The exemption only affects the requirements associated with TC dose rate measurements, an earlier start time for vacuum drying, and the use of a different thermal analysis of the TC on the transfer trailer and does not affect non-radiological plant effluents or any other aspects of the environment. Therefore, there are no significant non-radiological impacts associated with the proposed action.

Accordingly, the Commission concludes that there are no significant environmental impacts associated with the proposed action.

**Alternative to the Proposed Action:** Because there is no significant environmental impact associated with the proposed action, alternatives with equal or greater environmental impact were not evaluated. As an alternative to the proposed action, the staff considered denial of the proposed action. Denial of the exemption would result in no change in the current environmental impact.

**Agencies and Persons Consulted:** This exemption request was discussed with Julia Schmitt of the Nebraska Health and Human Services Regulation and Licensure Radiation Control Program Office on July 5, 2006. The State official had no comments regarding the environmental impact of the proposed action. The NRC staff has determined that a consultation under Section 7 of the Endangered Species Act is not required because the proposed action will not affect listed species or critical habitat. The NRC staff has also determined that the proposed action is not a type of activity having the potential to cause effects on historic properties. Therefore, no further consultation is required under Section 106 of the National Historic Preservation Act.

**Conclusion:** The staff has reviewed the exemption request submitted by OPPD. Allowing changes to the TS TC dose rate measurements, an earlier start time for vacuum drying, and a different method of thermal analysis of the TC on the transfer trailer would have no significant impact on the environment.

#### Finding of No Significant Impact

The environmental impacts of the proposed action have been reviewed in

accordance with the requirements set forth in 10 CFR part 51. Based upon the foregoing Environmental Assessment, the Commission finds that the proposed action of granting the exemption from specific provisions of 10 CFR 72.48(c)(2)(viii), 72.212(a)(2), 72.212(b)(2)(i)(A), 72.212(b)(7), and 72.214 to allow OPPD to make changes to the TS TC dose rate measurements, an earlier start time for vacuum drying, and a different method of thermal analysis of the TC on the transfer trailer, subject to conditions, will not significantly impact the quality of the human environment. Accordingly, the Commission has determined that an environmental impact statement for the proposed exemption is not warranted.

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," final NRC records and documents regarding this proposed action are publically available in the records component of NRC's Agencywide Documents Access and Management System (ADAMS). The request for exemption dated June 9, 2006, and supplemented July 3, 2006, July 7, 2006, and July 12, 2006, was docketed under 10 CFR part 72, Docket No. 72-54. These documents may be inspected at NRC's Public Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. These documents may also be viewed electronically on the public computers located at the NRC's Public Document Room (PDR), O1F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. The PDR reproduction contractor will copy documents for a fee. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or (301) 415-4737, or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov).

Dated at Rockville, Maryland, this 13th day of July, 2006.

#### RAILROAD RETIREMENT BOARD

##### Agency Forms Submitted for OMB Review

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the Railroad Retirement Board (RRB) has submitted the following proposal(s) for the collection of information to the Office of Management and Budget for review and approval.

##### Summary of Proposal(s)

- (1) *Collection title:* Request for Medicare Payment.
  - (2) *Form(s) submitted:* G-740S, CMS-1500.
  - (3) *OMB Number:* 3220-0131.
  - (4) *Expiration date of current OMB clearance:* 10/31/2006.
  - (5) *Type of request:* Extension of a currently approved collection.
  - (6) *Respondents:* Individuals or households.
  - (7) *Estimated annual number of respondents:* See Justification (Item No. 12).
  - (8) *Total annual responses:* 1.
  - (9) *Total annual reporting hours:* 1.
  - (10) *Collection description:* The Railroad Retirement Board (RRB) administers the Medicare program for persons covered by the Railroad Retirement System. The collection obtains the information needed by Palmetto GBA, the RRB's carrier, to pay claims for services covered under Part B of the program.
- Additional Information or Comments:* Copies of the forms and supporting

documents can be obtained from Charles Mierzwa, the agency clearance officer (312-751-3363) or [Charles.Mierzwa@rrb.gov](mailto:Charles.Mierzwa@rrb.gov).

Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 North Rush Street, Chicago, Illinois, 60611-2092 or [Ronald.Hodapp@rrb.gov](mailto:Ronald.Hodapp@rrb.gov) and to the OMB Desk Officer for the RRB, at the Office of Management and Budget, Room 10230, New Executive Office Building, Washington, DC 20503.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

### In the Matter of Aurora Medical Technology, Inc.; Order of Suspension of Trading

July 14, 2006.

It appears to the Securities and Exchange Commission that there is a lack of current and accurate information concerning the securities of Aurora Medical Technology, Inc. ("AROR") because of possible manipulative conduct occurring in the market for the company's stock.

The Commission is of the opinion that the public interest and the protection of investors require a suspension of trading in the securities of the above-listed company.

Therefore, it is ordered, pursuant to section 12(k) of the Securities Exchange Act of 1934, that trading in the above-listed company is suspended for the period from 9:30 a.m. EDT, on July 14, 2006 through 11:59 p.m. EDT, on July 27, 2006.

By the Commission.

**Nancy M. Morris,**  
Secretary.

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-54133; File No. SR-CBOE-2006-49]

### Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing of a Proposed Rule Change and Amendment No. 1 Thereto To Modify Its Short Term Option Series Pilot Program To Permit the Listing of Up To Seven Series Per Class

July 12, 2006.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on June 27, 2006, the Chicago Board Options Exchange, Incorporated ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Exchange filed Amendment No. 1 to the proposed rule change on July 11, 2006.<sup>3</sup> The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to modify its Short Term Option Series pilot program ("Pilot Program") to change the number of series that may be listed for a class selected to participate in the Pilot Program from five to seven. The text of the proposed rule change, as amended, is set forth below. Proposed new language is in *italics*; deletions are in [brackets].

\* \* \* \* \*

#### Rule 5.5. Option Contracts Open for Trading

(a)-(c) No change.

(d) Short Term Option Series Pilot Program. After an option class has been approved for listing and trading on the Exchange, the Exchange may open for trading on any Friday that is a business day ("Short Term Option Opening Date") series of options on that class that expire on the next Friday that is a business day ("Short Term Option Expiration Date"). If the Exchange is not open for business on a Friday, the Short

Term Option Opening Date will be the first business day immediately prior to that Friday. Similarly, if the Exchange is not open for business on a Friday, the Short Term Option Expiration Date will be the first business day immediately prior to that Friday.

Regarding Short Term Option Series, [no new Short Term Option Series may be added after the open of business on the Short Term Option Opening Date and] no Short Term Option Series may expire in the same week in which monthly option series on the same class expire.

The Exchange may continue to list Short Term Option Series until the Short Term Option Series Pilot Program expires on July 12, 2007.

#### . . . Interpretations and Policies

.01-.02 No change.

.03 Except for Short Term Option Series, the Exchange usually will open four expiration months for each class of options open for trading on the Exchange: The first two being the two nearest months, regardless of the quarterly cycle on which that class trades; the third and fourth being the next the two months of the quarterly cycle previously designated by the Exchange for that specific class. (For example, if the Exchange listed, in late April, a new stock option on a January-April-July-October quarterly cycle, the Exchange would list the two nearest term months (May and June) and the next two expiration months of the cycle (July and October).) When the May series expires, the Exchange would add January series. When the June series expires, the Exchange would add August series as the next nearest month, and would not add April).

Regarding Short Term Option Series, the Exchange may select up to five currently listed option classes on which Short Term Option Series may be opened on any Short Term Option Opening Date. In addition to the five-option class restriction, the Exchange also may list Short Term Option Series on any option classes that are selected by other securities exchanges that employ a similar Pilot Program under their respective rules. For each option class eligible for participation in the Short Term Option Series Pilot Program, the Exchange may open up to [five] *seven* Short Term Option Series for each expiration date in that class. The strike price of each Short Term Option Series will be fixed at a price per share, with [at least two] *approximately the same number of strike prices being opened above and [two strike prices] below* the value of the underlying security or calculated index value at about the time

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

<sup>3</sup> In Amendment No. 1, a partial amendment, the Exchange corrected a typographical error in the proposed rule text.
