*Estimated Time per Response:* .1-.25 hours.

*Frequency of Response:* On occasion reporting requirement, recordkeeping requirement and third-party disclosure requirement.

*Obligation To Respond:* Required to obtain or retain benefits. Statutory authority for this information collection is contained in Sections 4, 303, 48 Stat. 1066, 1082, as amended; 47 U.S.C. 154, 303.

*Total Annual Burden:* 18,109 hours.

*Total Annual Cost:* \$51,900.

*Privacy Impact Assessment:* No impact(s).

*Nature and Extent of Confidentiality:* There is no need for confidentiality. However, respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

*Needs and Uses:* The Commission is seeking Office of Management and Budget (OMB) approval for a revision of this information collection in order to obtain the full three-year approval. The Commission has adjusted its burden and cost estimates in order to update the collection burdens necessary to implement a uniform registration process as well as safe and effective lighting procedures for owners of antenna structures.

Section 17.4 includes third party disclosure requirements. Specifically, Section 17.4 requires the owner of any

proposed or existing antenna structure that requires notice of proposed construction to the Federal Aviation Administration (FAA) to register the structure with the Commission. This includes those structures used as part of the stations licensed by the Commission for the transmission of radio energy, or to be used as part of a cable television head-end system. If a Federal Government antenna structure is to be used by a Commission licensee, the structure must be registered with the Commission. Section 17.4(f) provides that antenna structure owners shall immediately provide to all tenant licensees and permittees notification that the structure has been registered. This may be done by providing either a copy of Form 854R or a link to the FCC antenna structure registration website. This notification may be done electronically or via paper mail.

Section 17.4(g) requires antenna structure owners to display the Antenna Structure Registration Number in a conspicuous place that is readily visible near the base of the antenna. This rule specifically requires that the Antenna Structure Number be displayed so that it is conspicuously visible and legible from the publicly accessible area nearest the base of the antenna structure along the publicly accessible roadway or path. Where an antenna structure is surrounded by a perimeter fence, or where the point of access includes an access gate, the Antenna Structure Registration Number should be posted on the perimeter fence or access gate. Where multiple antenna structures having separate Antenna Structure Registration Numbers are located within a single fenced area, the Antenna Structure Registration Numbers must be posted both on the perimeter fence or access gate and near the base of each antenna structure. If the base of the antenna structure has more than one point of access, the rule requires that the Antenna Structure Registration Number be posted so that it is visible at the publicly accessible area nearest each such point of access. The registration number is issued to identify antenna structure owners in order to enforce the Congressionally-mandated provisions related to the owners.

Sections 17.48 and 17.49 contain reporting and recordkeeping requirements. Section 17.48(a) requires that antenna structure owners immediately report outages of top steady burning lights or flashing antenna structure lights to the FAA, if not corrected within 30 minutes. Upon receipt of the outage notification, the FAA will issue a Notice to Airmen (NOTAM), which notifies aircraft of the

outage. Consistent with FAA requirements, if a lighting outage cannot be repaired within the FAA's original NOTAM period, Section 17.48(a) further requires the antenna structure owner to notify the FAA of that fact and provide any needed updates to its estimated return-to-service date. The rule also requires antenna structure owners to continue to provide these updates to the FAA every NOTAM period until its lights are repaired.

Section 17.49 requires antenna structure owners to maintain a record of observed or otherwise known extinguishments or improper functioning of structure lights for two years and provide the records to the Commission upon request.

*Needs and Uses:* On December 21, 2001, the Commission released the *2001 TRS Cost Recovery Order*, document FCC 01–371, in which the Commission:

(a) Directed the Interstate Telecommunications Relay Services (TRS) Fund (TRS Fund) administrator to continue to use the average cost per minute compensation methodology for the traditional TRS compensation rate;

(b) required TRS providers to submit certain projected TRS-related cost and demand data to the TRS Fund Administrator to be used to calculate the rate; and

(c) directed the TRS Fund administrator to expand its form for providers to itemize their actual and projected costs and demand data, to

include specific sections to capture speech-to-speech (STS) and video relay service (VRS) costs and minutes of use.

On November 19, 2007, the Commission released the *2007 Cost Recovery Order*, document FCC 07–486, in which the Commission:

(a) Adopted a new cost recovery methodology for interstate traditional TRS and interstate STS based on the Multi-state Average Rate Structure (MARS) plan, under which interstate TRS compensation rates are determined by weighted average of the states' intrastate compensation rates, and which includes for STS additional compensation approved by the Commission for STS outreach;

(b) adopted a new cost recovery methodology for interstate captioned telephone service (CTS), as well as internet Protocol captioned telephone service (IP CTS), based on the MARS plan;

(c) adopted a cost recovery methodology for internet Protocol (IP) Relay based on price caps;

(d) adopted a cost recovery methodology for VRS that adopted tiered rates based on call volume;

(e) clarified the nature and extent that certain categories of costs are compensable from the Fund; and;

(f) addressed certain issues concerning the management and oversight of the Fund, including prohibiting financial incentives offered to consumers to make relay calls and the role of the Interstate TRS Fund Advisory Council.

47 CFR 64.604(c)(5)(iii)(D), mandatory minimum standards adopted in the *2007 Cost Recovery Order*, requires that TRS providers submit to the TRS Fund administrator information reasonably requested by the administrator, including the following for intrastate traditional TRS, STS, and CTS:

(a) The per-minute compensation rate(s);

(b) whether the rate applies to session minutes or conversation minutes;

(c) the number of intrastate session minutes; and

(d) the number of intrastate conversation minutes.

47 CFR 64.604(a)(7) requires that in order for VRS providers to be compensated from the TRS Fund for U.S. residents making VRS calls from international points to the U.S., the providers must pre-register the users before they leave the country for the purpose of making VRS calls from international points for up to a maximum period of 4 weeks.

47 CFR 64.604(c)(1) requires each state and interstate TRS provider to maintain a log of consumer complaints

and annually file a summary of the complaint log with the Commission.

47 CFR 64.604(c)(2) requires each state and interstate TRS provider to submit contact information to the Commission.

47 CFR 64.604(c)(5)(iii)(D)(3) requires providers to submit speed of answer data.

47 CFR 64.604(c)(5)(iii)(G) requires each new TRS provider to submit to the TRS Fund administrator a notification of its intent to participate in the TRS Fund 30 days prior to submitting its first report of TRS interstate minutes of use.

47 CFR 64.604(c)(6) provides procedures for consumers to file informal complaints alleging violations of the TRS rules, for TRS providers to respond to these complaints, and for the Commission to refer complaints concerning intrastate TRS to the states.
