### Proposed Second Interim Settlement Agreement, Clean Water Act Claims

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice; request for public comment.

**SUMMARY:** In accordance with the EPA Administrator’s October 16, 2017, Directive Promoting Transparency and Public Participation in Consent Decrees and Settlement Agreements, notice is hereby given of a proposed Second Interim Settlement Agreement in a lawsuit filed by the West Goshen Sewer Authority (“WGSA” or “Plaintiff”) in the United States District Court for the Eastern District of Pennsylvania: *West Goshen Sewer Authority v. EPA, et al.* On September 19, 2012, Plaintiff filed a complaint alleging, inter alia, that the United States Environmental Protection Agency (“EPA”) exceeded its statutory authority and acted arbitrarily and capriciously when it established a “total maximum daily load” for Goose Creek in southeastern Pennsylvania. The proposed Second Interim Settlement Agreement would memorialize commitments by WGSA, among other things, to install a “CoMag” ballasted flocculation system at its wastewater treatment plant and achieve certain specified discharge limits for phosphorus. After a period of time, EPA would reassess the water quality of Goose Creek and decide whether to withdraw, revise or retain the Goose Creek TMDL.

**DATES:** Written comments on the proposed Second Interim Settlement Agreement must be received by September 20, 2018.

**ADDRESSES:** Submit your comments, identified by Docket ID number EPA–HQ–OGC–2018–0591, online at [www.regulations.gov](http://www.regulations.gov) (EPA’s preferred method). For comments submitted at [www.regulations.gov](http://www.regulations.gov), follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from [www.regulations.gov](http://www.regulations.gov). The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA generally will not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

#### SUPPLEMENTARY INFORMATION:

#### I. Additional Information About the Proposed Second Interim Settlement Agreement

On June 30, 2008, EPA established a nutrient total maximum daily load (“TMDL”) for the Goose Creek Watershed in Chester and Delaware Counties, Pennsylvania. EPA established that TMDL pursuant to the April 9, 1997 Consent Decree entered in *American Littoral Society, et al., v. EPA*, No. 96–489 (E.D. Pa.). Among other things, the TMDL assigned wasteload allocations (“WLAs”) for phosphorus to Goose Creek’s point source dischargers, WGSA’s wastewater treatment plant being the largest.

WGSA filed a complaint against EPA on September 19, 2012, alleging that in establishing the Goose Creek TMDL EPA failed to comply with requirements of the Clean Water Act (CWA) and Administrative Procedure Act (APA). In July 2013, the Court granted intervenor

status to the Delaware Riverkeeper Network (“DRN”).

The Court placed the case in “civil suspense” following the parties’ execution in January 2014 of a first “Interim Settlement Agreement” (“the 2014 Agreement”) under which EPA reassessed the water quality of Goose Creek and WGSA made voluntary improvements in its operations to achieve phosphorus reductions. The parties have now reached agreement on the terms of a “Second Interim Settlement Agreement” in which (1) WGSA commits, among other things, to install a “CoMag” ballasted flocculation system at its wastewater treatment plant and achieve certain specified discharge limits for phosphorus and (2) EPA commits to reassess the water quality of Goose Creek and decide whether to withdraw, revise or retain the Goose Creek TMDL.

For a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed Second Interim Settlement Agreement from persons who are not named as parties or intervenors to the litigation in question. If so requested, EPA will also consider holding a public hearing on whether to enter into the proposed Second Interim Settlement Agreement. EPA or the Department of Justice may withdraw or withhold consent to the proposed Second Interim Settlement Agreement if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determines that consent to this proposed Second Interim Settlement Agreement should be withdrawn, the parties intend to sign the Agreement and inform the Court.
