j. *Description of Proceeding:* Brookfield White Pine Hydro LLC, licensee for the Shawmut Project, requests a 1-year extension of the term of the project license, from January 31, 2021, to January 31, 2022. The extension would give the licensee an additional year to file its Final License Application (FLA) for the project, which would then be due January 31, 2020. The licensee indicates that the extension would not affect any other submittal deadlines under the existing relicensing schedule.

The licensee requests an extension of the license term so that it can complete, cooperatively with state and federal resource agencies and other entities, a feasibility assessment of options to provide multi-dam fish passage on the Kennebec River. The options would include, but not be limited to, alternative designs included in the approved Interim Species Protection Plan (Interim SPP) for the Shawmut Project, Weston Project (P-2325), and Lockwood Project (P-2574), as well as the approved Interim SPP for the Hydro-Kennebec Project (P-2611). These two Interim SPPs were developed for the projects to help ensure the protection of, and passage for, Atlantic salmon that use the Kennebec River and that are listed as endangered under the Endangered Species Act. The licensee proposes to develop, in consultation with the resource agencies, a single basin-wide Final SPP and draft Biological Assessment for the four projects together, which would be filed ahead of the December 31, 2019 expiration of the Interim SPPs, and concurrently with the Shawmut Project FLA. The licensee included with its request correspondence from the National Marine Fisheries Service, U.S. Fish and Wildlife Service, Maine Department of Marine Resources, and Maine Department of Inland Fisheries and Wildlife supporting the request.
