

Science Program Office, 1717 Pennsylvania Avenue NW, Suite 250, Washington, DC 20006, Telephone: (202) 419-3465.

SUPPLEMENTARY INFORMATION: The CCSP was established by the President in 2002 to coordinate and integrate scientific research on global change and climate change sponsored by 13 participating departments and agencies of the U.S. Government. The CCSP is charged with preparing information resources that support climate-related discussions and decisions, including scientific synthesis and assessment analyses that support evaluation of important policy issues. The Prospectus addressed by this notice provides a topical overview and describes plans for scoping, drafting, reviewing, producing, and disseminating one of 21 final synthesis and assessment Products that will be produced by the CCSP.

Dated: July 24, 2006.

William J. Brennan,

Deputy Assistant Secretary of Commerce for International Affairs, and Acting Director, Climate Change Science Program.

BILLING CODE 3510-12-S

COMMODITY FUTURES TRADING COMMISSION

Agency Information Collection Activities: Notice of Intent To Renew Collection 3038-0017, Market Surveys

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice.

SUMMARY: The Commodity Futures Trading Commission (CFTC) is announcing an opportunity for public comment on the proposed collection of

certain information by the agency. Under the Paperwork Reduction Act of 1995 (PRA), 44 U.S.C. 3501 *et seq.*, Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, and to allow 60 days for comment in response to the notice. This notice solicits comments on requirements relating to information collected to assist the Commission in the prevention of market manipulation. **DATES:** Comments must be submitted on or before September 26, 2006.

ADDRESSES: Comment may be mailed to Gary J. Martinaitis, Division of Market Oversight, U.S. Commodity Futures Trading Commission, 1155 21st Street NW, Washington, DC 20581.

FOR FURTHER INFORMATION CONTACT: Gary J. Martinaitis, (202) 418-5209; FAX (202) 418-5527; e-mail: gmartinaitis@cftc.gov.

SUPPLEMENTARY INFORMATION: Under the PRA, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency request or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the CFTC is publishing notice of the proposed collection of information listed below.

With respect to the following collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumption used;
- Ways to enhance the quality of, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate electronic, mechanical, or other technological collection techniques or other forms of information technology; *e.g.*, permitting electronic submission of responses.

Market Surveys, OMB Control No. 3038-0017—Extension

Under Commission Rule 21.02, upon call by the Commission, information on open contracts in accounts carried or introduced by futures commission merchants, members of contract markets, introducing brokers, and foreign brokers must be furnished. This rule is designed to assist the Commission in prevention of market manipulation and is promulgated pursuant to the Commission's rulemaking authority contained in section 8a of the Commodity Exchange Act, 7 U.S.C. 7.

The Commission estimates the burden of this collection of information as follows:

Estimated Annual Reporting Burden

17 CFR section	Annual number of respondents	Frequency of response	Total annual responses	Hours per response	Total hours
17 CFR 21.02	400	Annually	400	1.75	700

Dated: July 25, 2006.

Catherine D. Daniels,

Assistant Secretary of the Commission.

DEFENSE SECURITY COOPERATION AGENCY

WASHINGTON, DC 20301-2800

20 JUL 2006

In reply refer to:
I-06/005973

The Honorable J. Dennis Hastert
Speaker of the House of Representatives
Washington, D.C. 20515-6501

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 06-36, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to Saudi Arabia for defense articles and services estimated to cost \$5.8 billion. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

JEFFREY B. KOHLER
LIEUTENANT GENERAL, USAF
DIRECTOR

- (viii) **Date Report Delivered to Congress: 20 JUL 2006**

POLICY JUSTIFICATION**Saudi Arabia - Continued Assistance in the Modernization of the SANG**

The Government of Saudi Arabia has requested a possible sale for the continuation of the United States supported effort to modernize the Saudi Arabian National Guard (SANG) by providing Major Defense Equipment (MDE) and non-MDE items:

724 LAV-25, LAV-AG, LAV-M, LAV-AT, LAV-CC, LAV-PC, LAV-A, LAV-AC
LAV-E and LAV-R Light Armored Vehicles (LAV);
1,160 AN/VRC-90E Single Channel Ground and Airborne Radio Systems
(SINGARS) Vehicular Single Long-Range Radio Systems;
627 AN/VRC-92E SINGARS Vehicular Single Long-Range Radio Systems;
518 AN/VRC-119 E SINGARS Vehicular Single Long-Range Radio Systems;
2,198 SINGARS Spearhead Handheld;
1,700 AN/AVS-7D Night Vision Goggles (NVG);
432 AN/PVS-14 NVG;
630 AN/PAS-13 Thermal Weapon Sight;
162 84mm Recoilless Rifle; and

Harris Corporation Commercial High Frequency Radios; various commercial vehicles; fixed facilities and ranges; simulations; generators; battery chargers; protective clothing; shop equipment; training devices; spare and repair parts; sets, kits, and outfits; support equipment; publications and technical data; personnel training and training equipment; contractor engineering and technical support services and other related elements of logistics support. The estimated cost is \$5.8 billion.

The proposed sale coupled with the training, assistance, and advice provided by the U.S. Government through the Office of the Program Manager SANG will serve to make a key regional ally and partner in the Global War on Terror more capable of defeating those who would threaten regional stability and less reliant on the deployment of U.S. combat forces to maintain or restore stability in the Middle East

The SANG needs these defense articles so that it can effectively conduct security and counter-terrorism operations. The continuation of services under the SANG Modernization Program is an evolution of the SANG as an effective defensive force with the advice, assistance, and training of the U.S. Army. The Modernization Program ensures necessary training, logistics, support, doctrine development and force integration for the continuing expansion and use of their weapon systems. These services will remain the cornerstone of an effort to upgrade and enhance the infrastructure of the SANG organization.

The proposed sale will also provide SANG with additional command, control, and communications equipment needed to operate in a secure communications environment that will facilitate the performance of its mission within Saudi Arabia. It is consistent with the National Command Authority's intent for stability in the Central Command Area of Operation. The radios will modernize equipment and provide the critical VHF and HF links necessary for a large fast moving force and integration with the SINCGARS radios SANG already has fielded in its Light Armored Vehicle and Light Infantry Brigades.

The proposed sale of this equipment and support will not affect the basic military balance in the region. Saudi Arabia is capable of absorbing and maintaining this additional MDE equipment in its inventory.

The principle contractors will be:

ITT Aerospace/Communications	Fort Wayne, Indiana
Harris Corporation	Rochester, New York
General Dynamics Land Systems	London, Ontario
Raytheon Corporation	Tucson, Arizona

There are no known offset agreements proposed in connection with this potential sale.

At present, there are approximately 250 U.S. Government personnel and 630 contractor representatives in country supporting the SANG modernization program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 06-36

**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act**

**Annex
Item No. vii**

(vii) Sensitivity of Technology:

1. The Light Armored Vehicle (LAV) and all associated documentation are unclassified. Sensitive technologies to include the Improved Thermal Sight System (ITSS) and Drivers Vision Enhancer (DVE) are subsystems integral to the LAV-25 mission role variant and the DVE is integral to the other nine mission role variants as well.

2. The Night Vision Devices (NVDs) proposed for sale include the AN/PVS-7D, Night Vision Goggle (NVG); AN/PVS-14, Individual Weapon Night Vision Sight, and the PAS-13 Long Range Infrared Night Vision Sight. These NVDs will be reviewed in compliance with Golden Sentry requirements during all United States reviews.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
