SUPPLEMENTARY INFORMATION:

Title and OMB Number: 2006 Election Administration and Voting Survey; OMB Number Pending.

Needs and Uses: This proposed information collection activity is necessary to meet requirements of the Help America Vote Act (HAVA) of 2002 (42 U.S.C. 15301). Section 241 of HAVA requires the EAC to study and report on election activities, practices, policies, and procedures, including methods of voter registration, methods of conducting provisional voting, poll worker recruitment and training, and such other matters as the Commission determines are appropriate. In addition, HAVA transferred to the EAC the Federal Election Commission's responsibility of biennially administering a survey on the impact of the National Voter Registration Act (NVRA). The information the States are required to submit to the EAC for purposes of the NVRA report are found under Title 11 of the Code of Federal Regulations (Chapter 1, Part 8, Subchapter C). HAVA 703(a) also amended the Uniformed and Overseas Citizens Absentee Voters Act by requiring that "not later than 90 days after the date of each regularly scheduled general election for Federal office, each State and unit and local government which administered the election shall (through the State, in the case of a unit of local government) submit a report to the Election Assistance Commission (established under the Help America Vote Act of 2002) on the combined number of absentee ballots transmitted to absent uniformed services voters and overseas voters for the election and the combined

number of such ballots which were returned by such votes and cast in the election, and shall make such a report available to the general public." In order to fulfill these requirements and to provide a complete report to Congress, the EAC is seeking information relating to the period from the close of registration for the November 2, 2004, Federal general election until the close of registration for the November 7, 2006, Federal general election, and information from the November 7, 2006, Federal general election.

Affected Public: State government.

Number of Respondents: 55.

Responses per Respondent: 1.

Estimated Burden per Response: 91 hours.

Estimated Total Annual Burden Hours: 728.50 hours.

Frequency: Biennially.

To improve and facilitate the collection and analysis of the survey data, the EAC anticipates developing and implementing an Internet-based platform to administer the survey. This method will allow respondents to enter, save, and edit data prior to submitting their final survey response. The following categories of information are requested on a state level and/or county/local election jurisdiction:

Voter Registration Applications

(a) Number of active and inactive registered voters at the time of the close of registration for the November 2, 2004, and the November 7, 2006, Federal general elections; (b) Number of persons who registered to vote on Election Day (November 7, 2006)—only applicable to States with Election Day registration; (c) Number of voter registration applications received from all sources during the period between the close of registration for the November 2, 2004, Federal general elections until close of registration for the November 7, 2006, Federal general elections; (d) Number of voter registration applications received by mail during the period between the close of registration for the November 2, 2004, Federal general elections until close of registration for the November 7, 2006, Federal general elections; (e) Number of voter registration applications received in person at the clerk or registrar's office during the period between the close of registration for the November 2, 2004, Federal general elections until close of registration for the November 7, 2006, Federal general elections; (f) Number of voter registration applications received or generated by each voter registration agency during the period between the close of registration for the November 2, 2004, Federal general elections until
