BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Biological and Environmental Research (BER); Federal Interagency Steering Committee on Multimedia Environmental Modeling

AGENCY: Office of Science; Biological and Environmental Research (BER), Department of Energy, (DOE).

ACTION: Notice of open meeting.

SUMMARY: The annual public meeting of the Federal Interagency Steering Committee on Multimedia Environmental Modeling (ISCMEM) will convene to discuss new operational initiatives for FY 2007 as a result of the revised Memorandum of Understanding (MOU) among the participating agencies.

DATES: August 24, 2006. Time: 9:30 a.m. to 5 p.m.

ADDRESSES: The American Geophysical Union (AGU) headquarters building, 2000 Florida Avenue, NW., Washington, DC 20009.

FOR FURTHER INFORMATION CONTACT:

Inquiries and notice of intent to attend the meeting may be faxed or E-mailed to: Dr. Robert T. Anderson, ISCMEM Chair, Office of Biological and Environmental Research SC-23.4 / Germantown Building, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-1290. Tel: 301-903-5549. Fax: 301-903-4154. Todd.Anderson@science.doe.gov.

SUPPLEMENTARY INFORMATION:

Background: Nine Federal agencies have been cooperating under a MOU on the research and development of multimedia environmental models for the last 5 years. The MOU establishes a framework for facilitating cooperation and coordination among the following agencies (the specific research organization within the agency is in parenthesis): U.S. Army Corps of

Engineers (Engineer Research and Development Center); U.S. Department of Agriculture (Agricultural Research Service); U.S. Department of Agriculture (Natural Resources Conservation Service); U.S. Department of Energy (Office of Biological and Environmental Research); U.S. Environmental Protection Agency; U.S. Geological Survey; U.S. National Oceanographic and Atmosphere Administration; and U.S. Nuclear Regulatory Commission (Office of Nuclear Regulatory Research); U.S. Bureau of Reclamation. These agencies are cooperating and coordinating in the research and development (R&D) of multimedia environmental models, software and related databases, including development, enhancements, applications and assessments of site specific, generic, and process-oriented multimedia environmental models as they pertain to human and environmental health risk assessment. Multimedia model development and simulation supports interagency interests in risk assessment, uncertainty analyses, water supply issues and contaminant transport. This MOU was just renewed by member agencies ensuring another 5 years of continuing collaboration and cooperation among the participating agencies in these areas.

Purpose of the Public Meeting: The annual public meeting provides an opportunity for the scientific community, other Federal and State agencies, and the public to be briefed on ISCMEM activities and their initiatives for the upcoming year, and to discuss technological advancements in multimedia environmental modeling.

Proposed Agenda: The ISCMEM Chair will open the meeting with a brief overview of the goals of the MOU, the activities of ISCMEM and changes in organizational operations as a result of the revised and renewed ISCMEM MOU. This introduction will be followed by series of invited presentations throughout the morning session focusing on topics of mutual interest to ISCMEM participants. The afternoon session will be largely devoted to discussing future goals and projects that will set the stage for collaborative interactions among ISCMEM participating agencies for the next 5 years. A detailed agenda with presentation titles and speakers will be posted on the MOU public Web site: <http://www.ISCMEM.org>.

Meeting Access: The headquarters of the American Geophysical Union (AGU) is located at 2000 Florida Avenue, NW., Washington, DC 20009. The most convenient transportation to the meeting venue is via Metro. Please take

Metro to the Dupont Circle Metro stop on the Red Line. Take the "Q" Street exit of the Dupont Circle station. Upon exiting the Metro station proceed North on Connecticut Avenue for about 3 blocks. Turn right onto Florida Avenue for about one-half block. AGU building is on the right. Please inform the security personnel upon entering the building that you are attending the public meeting on multimedia environmental modeling. The meeting room is on the ground floor to your left as you enter the building.

Robert T. Anderson,

Chair, Federal Interagency Steering Committee on Multimedia Environmental Modeling.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Energy Information Administration

Continuation of Forms EIA-182, "Domestic Crude Oil First Purchase Report," and EIA-856, "Monthly Foreign Crude Oil Acquisition Report"

AGENCY: Energy Information Administration, Department of Energy.

ACTION: Notice of Continuation of Forms EIA-182, "Domestic Crude Oil First Purchase Report," and EIA-856, "Monthly Foreign Crude Oil Acquisition Report."

SUMMARY: The Energy Information Administration (EIA) will continue the monthly collection of data on the Forms EIA-182, "Domestic Crude Oil First Purchase Report," and EIA-856, "Monthly Foreign Crude Oil Acquisition Report," through the reporting of October 2006 data that is due to EIA by November 30, 2006.

DATES: Data collection on Forms EIA-182 and EIA-856 will continue through November 30, 2006.

ADDRESSES: Inquiries about the continuation of Forms EIA-182 and EIA-856 should be directed to Susan Harris at the Energy Information Administration, EI-42, Forrestal Building, Mail Stop: 2E-050, U.S. Department of Energy, Washington, DC 20585, telephone: (202) 586-8384, E-mail address: susan.harris@eia.doe.gov or fax number: (202) 586-1076.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Susan Harris at the address listed above.

SUPPLEMENTARY INFORMATION:

I. Background

II. Current Actions

I. Background

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Pub. L. 93-275) and the Department of Energy Organization Act (Pub. L. 95-91), the Energy Information Administration (EIA) is obliged to carry out a central, comprehensive, and unified energy data and information program. As part of this program, EIA collects, evaluates, assembles, analyzes, and disseminates data and information related to energy resource reserves, production, demand, and technology, and related economic and statistical information relevant to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

In the March 23, 2006, **Federal Register** (71 FR 14690), EIA announced its plan to discontinue the collection of Forms EIA-182 and EIA-856 after the data for July 2006 were collected. Given that no final decision has yet been made by the Congress regarding EIA's Fiscal Year 2007 budget, EIA has decided to continue collecting both forms monthly through the reporting of October 2006 data that is due to EIA by November 30, 2006, when the current Office of Management and Budget approval of all EIA petroleum marketing surveys is scheduled to expire.

II. Current Actions

EIA will continue collecting the Forms EIA-182, "Domestic Crude Oil First Purchase Report," and EIA-856, "Monthly Foreign Crude Oil Acquisition Report," through November 30, 2006.

Statutory Authority: Section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35).

Issued in Washington, DC, August 1, 2006.

Jay H. Casselberry,

Agency Clearance Officer, Energy Information Administration.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP06-422-000]

Cameron LNG, LLC, Notice of Application

July 28, 2006.

Take notice that on July 18, 2006, as supplemented on July 27, 2006, Cameron LNG, LLC (Cameron LNG) filed an application pursuant to section

3 of the Natural Gas Act (NGA) and Part 153 of the Commission's Rules and Regulations for approval of proposed expansion and modifications of its liquefied natural gas (LNG) import terminal. The Commission has previously granted approvals for Cameron LNG's import terminal, which is now under construction.¹

This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding the application may be directed to Stacy Van Goor, Director, Federal Regulatory Affairs, Sempra Global, 101 Ash Street HQ08C, San Diego, California 92101. Telephone number is 619-696-2264. Facsimile number is 619-696-2500. E-mail address is svangoor@sempraglobal.com.

The application seeks authority to expand the LNG terminal facilities previously approved and, in particular: (i) To increase the sendout rate of the terminal to 2,650,000 Mcf/d from the previously authorized send out rate of 1,500,000 Dth/d; (ii) to increase LNG storage tank capacity from 480,000 m³ to 640,000 m³ through the addition of a fourth storage tank; (iii) to increase the LNG unloading rate at each ship berth; (iv) to increase the send out rate to 1,800,000 Mcf/d from the previously certificated send out rate of 1,500,000 Dth/d, on an interim basis, while the proposed expansion facilities are being constructed, and (v) to modify the Btu control unit to include an option for diluting the send out gas with an inert gas stream composed of nitrogen and oxygen in addition to, or as an alternative to the liquids-stripping facility previously identified by Cameron LNG in earlier applications.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426,

¹ See Hackberry LNG Terminal, L.L.C., 101 FERC 61,294 (2002) and Cameron LNG, LLC; 104 FERC 61,269 (2003); 111 FERC 61,018 (2005), and 115 FERC 61,229 (2006).

a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Please note that on February 10, 2006, the Commission issued a Notice of Intent to Prepare an Environmental Assessment for Cameron LNG's above proposed LNG terminal expansion project in Docket No. PF06-10-000. The environmental pre-filing review of Cameron LNG's proposal has been underway since December 2005 in that docket. However, Docket No. PF06-10-000 is now closed and all further
