

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-83960; File No. SR-BOX-2018-28]

Self-Regulatory Organizations; BOX Exchange LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend BOX Rules 5050 and 5070

August 27, 2018.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 15, 2018, BOX Exchange LLC (the "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend BOX Rule Rules 5050 (Series of Options Contracts Open for Trading) and 5070 (Long-term Options Contracts) to conform to the recently approved changes to the Options Listing Procedures Plan ("OLPP").³ The text of the proposed rule change is available from the principal office of the Exchange, at the Commission's Public Reference Room and also on the Exchange's internet website at <http://boxoptions.com>.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to amend Rules 5050 (Series of Options Contracts Open for Trading) and 5070 (Long-term Options Contracts) to conform to the recently approved changes to the Options Listing Procedures Plan ("OLPP").⁴

The Exchange, which is one of the Participant Exchanges to the OLPP, currently has rules that are designed to incorporate the requirements of the OLPP.⁵ All Participant Exchanges have similar such (essentially uniform) rules to ensure consistency and compliance with the OLPP. The Exchange proposes to modify such rules to reflect the recent updates as described below.

Addition of Long-Term Equity Options ("LEAPS")

First, the OLPP has been amended to change the earliest date on which new January LEAPS on equity options, options on Exchange Traded Funds ("ETF"), or options on Trust Issued Receipts ("TIR") may be added to a single date (from three separate months). As noted in the OLPP Notice, in the past there were operational concerns related to adding new January LEAPS series for all options classes on which LEAPS were listed on a single trading day. And, the addition of new series in a pre-electronic trading environment was a manual process. To accommodate this, the addition of new January LEAPS series was spread across three months (September, October, and November). Today, however, these operational concerns related to January LEAPS have been alleviated as new series can be added in bulk electronically. The Plan Participants, including the Exchange, believe that moving the addition of new January LEAPS series to no earlier than the Monday prior to the September expiration would reduce marketplace confusion about available January LEAPS series. Where previously January

⁴ *Id.*

⁵ In addition to the Exchange, the "Participant Exchanges" are: Chicago Board Options Exchange, Incorporated (now known as Cboe Exchange, Inc.), on behalf of the BATS Exchange, Inc. (now known as Cboe BZX Exchange, Inc.); C2 Exchange, Incorporated (now known as Cboe C2 Exchange, Inc.); EDGX Exchange, Inc. (now known as Cboe EDGX Exchange, Inc.); Miami International Securities Exchange, LLC; MIAX PEARL, LLC; Nasdaq BX, Inc.; Nasdaq GEMX, LLC; Nasdaq ISE, LLC; Nasdaq MRX, LLC; Nasdaq Options Market, LLC; Nasdaq PHLX, LLC; NYSE Arca, Inc.; and NYSE American, LLC.

LEAPS series for options classes on the February or March expiration cycles would not have been available as early as January LEAPS series for options classes on the January expiration cycle, under the proposed change, all January LEAPS series will be available concurrently.

Accordingly, to conform to this change, the Exchange proposes to modify Rule 5070(c) to reflect that new January LEAPS series on equity options classes, options on ETFs, or options on TIRs, may not be added on a currently listed and traded option class earlier than the Monday prior to the September expiration (which is 28 months before the expiration).

Addition of Equity, ETF, and TIR Option Series After Regular Trading Hours

Second, the OLPP has been amended to allow equity, ETF, and TIR option series to be added based on trading after regular trading hours (*i.e.*, after-market). As noted in the OLPP Notice, the prior version of the OLPP did not allow for option series to be added based on trading following regular trading hours. As such, the Exchange Participants were unable to add new option series that may result from trading following regular trading hours until the next morning, depending on the range of prices in pre-market trading, which is significant because events that occur after regular trading hours, such as earnings releases, often have an important impact on the price of an underlying security. In addition, there are operational difficulties for market participants throughout the industry adding series after system startup. To avoid the potential burden that would result from the inability to add series as a result of trading following regular trading hours, the OLPP was amended to allow an additional category by which the price of an underlying security may be measured. Specifically, to conform to the amended OLPP, the Exchange proposes to add to Rule 5050(b)(1) to provide that "for option series to be added based on trading following regular trading hours," the price of the underlying security is measured by "the most recent share price reported by all national securities exchanges between 4:15 p.m. and 6:00 p.m. Eastern Time."

Technical Changes

The Exchange proposes to modify Rule 5070(b) to delete now obsolete operational language, which dates back to when LEAPS were first adopted. The language in question provides that:

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ See Securities Exchange Act Release Nos. 82235 (December 7, 2017), 82 FR 58668 (December 13, 2017) (order approving the Fourth Amendment to the OLPP); 81893 (October 18, 2017), 82 FR 49249 ("OLPP Notice").

After a new long-term options contract series is listed, such series will be opened for trading either when there is buying or selling interest, or forty (40) minutes prior to the close, whichever occurs first. No quotations will be posted for such options series until they are opened for trading.

The Exchange proposes to delete this language because when this language was adopted LEAPs were not opened for trading until late in the trading day unless there was buying or selling interest. Today, however, technological improvements allow the Exchange to open all LEAP series at the same time as all other series in an option class.

2. Statutory Basis

The Exchange believes that the proposal is consistent with the requirements of Section 6(b) of the Securities Exchange Act of 1934 (the "Act"),⁶ in general, and Section 6(b)(5) of the Act,⁷ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest.

In particular, the proposed rule change, which conforms to the recently adopted provisions of the OLPP, as amended, allows the Exchange to continue to list extended far term option series that have been viewed as beneficial to traders, investors and public customers. Accordingly, the Exchange believes that the proposal is consistent with the Act because it will allow the Exchange to list all January, 2021 expiration series on the Monday prior to the September, 2018 expiration. Moreover, this change would simplify the process for adding new January LEAP options series and reduce potential for investor confusion because all new January LEAP options would be made available beginning at the same time, consistent with the amended OLPP. The Exchange notes that this proposal does not propose any new provisions that have not already been approved by the Commission in the amended OLPP, but instead maintains series listing rules that conform to the amended OLPP.

The proposal to permit series to be added based on after-market trading is designed to promote just and equitable principles of trade, to foster cooperation

and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanisms of a free and open market and a national market system, by allowing the Exchange to make series available for trading with reduced operational difficulties. The Exchange notes that this proposed change, which is consistent with the amended OLPP should provide market participants with earlier notice regarding what options series will be available for trading the following day, and should help to enhance investors' ability to plan their options trading.

The Exchange also believes that the proposed technical changes, including deleting obsolete language and reorganizing and consolidating the rule, promote just and equitable principles of trade, foster cooperation and coordination with persons engaged in facilitating transactions in securities, and remove impediments to and perfect the mechanism of a free and open market and a national market system.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the Exchange believes that by conforming Exchange rules to the amended OLPP, the Exchange would promote regulatory clarity and consistency, thereby reducing burdens on the marketplace and facilitating investor protection. The Exchange believes that adopting rules, which it anticipates will likewise be adopted by Participant Exchanges, would allow for continued competition between Exchange market participants trading similar products as their counterparts on other exchanges, while at the same time allowing the Exchange to continue to compete for order flow with other exchanges in option issues.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act⁸ and Rule

19b-4(f)(6) thereunder.⁹ Because the proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6)(iii) thereunder.¹⁰

A proposed rule change filed under Rule 19b-4(f)(6)¹¹ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),¹² the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission notes that the Exchange's proposal would conform the Exchange's rules to the amended OLPP, which the Commission previously approved.¹³ Accordingly, the Commission believes that the proposal raises no new or novel regulatory issues and waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. The Commission therefore waives the 30-day operative delay and designates the proposed rule change to be operative upon filing.¹⁴

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings

⁹ 17 CFR 240.19b-4(f)(6).

¹⁰ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

¹¹ 17 CFR 240.19b-4(f)(6).

¹² 17 CFR 240.19b-4(f)(6)(iii).

¹³ See OLPP Notice, *supra* note 3.

¹⁴ For purposes only of waiving the 30-day operative delay, the Commission has also considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

⁶ 15 U.S.C. 78f(b).

⁷ 15 U.S.C. 78f(b)(5).

⁸ 15 U.S.C. 78s(b)(3)(A)(iii).

under Section 19(b)(2)(B)¹⁵ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-BOX-2018-28 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090. All submissions should refer to File Number SR-BOX-2018-28. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-BOX-2018-28 and should be submitted on or before September 21, 2018.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁶

Eduardo A. Aleman,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-83958; File No. SR-CboeEDGX-2018-039]

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Delete Obsolete Language Regarding the Timing of Listing Long-Term Options Series

August 27, 2018.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 24, 2018, Cboe EDGX Exchange, Inc. (the "Exchange" or "EDGX") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is proposing to amend Rules 19.8 and 29.11.

The text of the proposed rule change is available at the Exchange's website at www.markets.cboe.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to amend Rules 19.8 and 29.11 to delete now obsolete operational language, which dates back to when long-term options contracts were first adopted. This language provides that when a new equity or index long-term options contract series, as applicable, is listed, such series will be opened for trading either when there is buying or selling interest, or 40 minutes prior to the close, whichever occurs first. No quotations will be posted for such option series until they are opened for trading. The Exchange proposes to delete this language because when this language was adopted, long-term options contracts were not opened for trading until late in the trading day unless there was buying or selling interest. Today, however, technological improvements³ allow the Exchange to open all long-term options contract series at the same time as all other series in an option class.⁴

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the "Act") and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁵ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)⁶ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with

³ Historically, market participants needed to manually adjust pricing models when a new long-term options contract series was added, which was time-consuming and created pricing risk. Market participants' systems are able to incorporate series added intraday in an automatic, and thus more timely, manner. Therefore, any previous operational concerns related to the historic manual process have been alleviated.
