h. Collaborate with other Collections and carry out joint activities when appropriate to maximize impact. Collections project directors and key personnel shall meet two times a year with Institute staff, participate in monthly conference calls, and other telephone meetings, as necessary.

i. Develop a sustainability plan that describes how the Collection plans to sustain the proposed activities after the grant period.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we will notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally. If your application is not evaluated or not selected for funding, we will notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice. We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Institute. If you receive a multi-year award, you must submit semi-annual performance reports, as well as an annual performance report that provides the most current performance and financial expenditure information as specified in 34 CFR 75.118.

4. *Performance Measures:* Under the Government Performance and Results Act (GPRA), the following measure has been developed for evaluating the overall effectiveness of the Institute's technical assistance and training: The percentage of individuals who receive NIFL technical assistance who can demonstrate that they implemented instructional practices grounded in scientifically based research within six months of receiving the technical assistance. The Institute will expect all grantees to document in the performance reports referenced in section VI.3. of this notice information that addresses this measure.

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an

agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Revision.

2. *The title of the information collection:* "Nuclear Material Events Database (NMED)" for the Collection of Event Report, Response, Analyses, and Follow-up Data on Events Involving the Use of Atomic Energy Act (AEA) Radioactive Byproduct Material.

3. *The form number if applicable:* N/A.

4. *How often the collection is required:* Agreement States are requested to provide copies of licensee material event reports electronically or by hard copy to NRC on a monthly basis or within 30 days of receipt from their licensee. In addition, Agreement States are requested to report events that may pose a significant health and safety hazard to the NRC Headquarters Operations Officer within the next working day of notification by an Agreement State licensee.

5. *Who will be required or asked to report:* Current Agreement States and any State receiving Agreement State status in the future.

6. *An estimate of the number of responses:* 741.

7. *The estimated number of annual respondents:* 34.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 756 hours, an average of approximately 1.0 hour per response for 711 events and 1.5 additional hours for 30 significant events, for all existing Agreement State reporting. Any new Agreement State would add approximately 21 event reports (including follow-up reports) per year or 22.5 burden hours.

9. *An indication of whether Section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* NRC regulations require NRC licensees to report incidents and events involving the use, transportation and security of radioactive byproduct material, and source material, such as those involving radiation overexposures, leaking or contaminated sealed source(s), release of excessive contamination of radioactive material, lost or stolen radioactive material, equipment failures, abandoned well logging sources and medical events. Agreement State licenses are also required to report these events to their individual Agreement State regulatory authorities under compatible Agreement State regulations. NRC is requesting that the Agreement States provide

information to NRC on the initial notification, response actions, and follow-up investigations on events involving the use (including suspected theft or terrorist activities) of nuclear materials regulated pursuant to the Atomic Energy Act. The event information should be provided in a uniform electronic format, for assessment and identification of any facilities/site specific or generic safety concerns that could have the potential to impact public health and safety. The identification and review of safety concerns may result in lessons learned, and may also identify generic issues for further study which could result in proposals for changes or revisions to technical or regulatory designs, processes, standards, guidance or requirements.

Comments and questions should be directed to the OMB reviewer listed below by September 6, 2006. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

John A. Asalone, Office of Information and Regulatory Affairs (3150-0178), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be e-mailed to John_A._Asalone@omb.eop.gov or submitted by telephone at (202) 395-4650.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-269, 50-270, and 50-287]

Duke Power Company LLC, Oconee Nuclear Station, Units 1, 2, and 3; Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (NRC, the Commission) has granted the request of Duke Power Company LLC (the licensee) to withdraw its February 14, 2005, application for proposed amendments to Renewed Facility Operating License Nos. DPR-38, DPR-47, and DPR-55 for Oconee Nuclear Station, Units 1, 2, and

3, respectively, located in Oconee County.

The proposed amendments would have revised the Technical Specifications to accommodate the replacement of the current analog-based reactor protective system (RPS) and engineered safeguards protective system (ESPS) with a digital computer-based RPS and EPS.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on March 16, 2005 (70 FR 12907). However, by letter dated June 22, 2006, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendments dated February 14, 2005, and the licensee's letter dated June 22, 2006, which withdrew the application for license amendments. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/reading-rm.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 24th day of July 2006.

For the Nuclear Regulatory Commission.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-255]

Nuclear Management Company, LLC; Notice of Consideration of Issuance of Amendment to Facility Operating License and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-20, issued to Nuclear Management Company (the licensee), for operation of

the Palisades Plant located in Van Buren County, Michigan.

The proposed amendment would remove tri-sodium phosphate from the Palisades' containment.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

Within 60 days after the date of publication of this notice, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. Interested persons should consult a current copy of 10 CFR 2.309, which is available at the Commission's public document room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/doc-collections/cfr/>. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or a presiding officer designated by the Commission or by the Chief Administrative Judge of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the Chief Administrative Judge of the Atomic Safety and Licensing Board will issue a notice of a hearing or an appropriate order.

As required by 10 CFR 2.309, a petition for leave to intervene shall set forth with particularity the interest of the petitioner/requestor in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following general requirements: (1) The name, address and telephone number of the requestor or petitioner; (2) the nature of the requestor's/petitioner's right under the Act to be made a party to the proceeding; (3) the nature and extent of the requestor's/petitioner's property,
