To participate in the meeting, please submit your first and last name, email address, and phone number to Melissa Banner at *Melissa.Banner@nist.gov* or (301) 975–8912. After pre-registering, participants will be provided with detailed instructions on how to join the meeting in person or remotely. Physical space at this meeting will be limited; 20 members of the public are anticipated to be able to attend in person and will be selected on a first-come, first-served basis. Others may attend via teleconference. Anyone wishing to attend this meeting in person or via teleconference must register by 5:00 p.m. Eastern Time, Tuesday, September 4, 2018, to attend. Please submit your full name, email address, and phone number to Melissa Banner at Melissa.Banner@nist.gov; her phone number is (301) 975-8912.

## National Oceanic and Atmospheric Administration

# Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

Agency: National Oceanic and Atmospheric Administration (NOAA). Title: Reporting of Sea Turtle

Incidental Take in Virginia Chesapeake Bay Pound Net Operations.

OMB Control Number: 0648–0470. Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 35. Average Hours per Response: 10 minutes.

Burden Hours: 165.

Needs and Uses: This request is for extension of a current information collection.

This action would continue the reporting measure requiring all Virginia Chesapeake Bay pound net fishermen to report interactions with endangered and threatened sea turtles, found both live and dead, in their pound net operations.

When a live or dead sea turtle is discovered during a pound net trip, the Virginia pound net fisherman is required to report the incidental take to National Marine Fisheries Service (NMFS) and, if necessary, the appropriate rehabilitation and stranding network. This information will be used to monitor the level of incidental take in the state-managed Virginia pound net fishery and ensure that the seasonal pound net leader restrictions (50 CFR 223.206(d)(10)) are adequately protecting listed sea turtles. Based on the number of sea turtle takes anticipated in the Virginia pound net fishery and the available number of Virginia pound net fishermen and pound nets, the number of responses anticipated on an annual basis is 988. This is an increase from the previous information collection (n=483) as we used the maximum number of possible licensed pound net sites per Virginia fishery regulations (n=161) on which to base our information collection estimate, rather than the number of documented sites from NMFS monitoring efforts (n=80), as the latter is outdated and may be an underestimate.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Mandatory. This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *OIRA\_Submission*@ omb.eop.gov or fax to (202) 395–5806.

Dated: August 28, 2018.

## National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Annual Economic Survey of Federal Gulf and South Atlantic Shrimp Permit Holders

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice.

**SUMMARY:** The Department of Commerce, as part of its continuing

effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted on or before November 5, 2018.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the internet at docpra@doc.gov).

## FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Christopher Liese, Industry Economist, SEFSC, NMFS, 75 Virginia Beach Drive, Miami FL 33149, (305) 365–4109 or Christopher.Liese@noaa.gov.

#### SUPPLEMENTARY INFORMATION:

## I. Abstract

This request is for extension of this information collection.

NOAA Fisheries, Southeast Fisheries Science Center, annually collects socioeconomic data from commercial fishermen in the Gulf of Mexico and South Atlantic shrimp fisheries who hold one or more permits for harvesting shrimp from federal waters (U.S. Exclusive Economic Zone). Information about revenues, variable and fixed costs, capital investment and other socioeconomic information is collected from a random sample of permit holders. These data are needed to conduct socioeconomic analyses in support of management of the shrimp fishery and to satisfy legal requirements. The data will be used to assess how fishermen will be impacted by and respond to federal regulation likely to be considered by fishery managers.

#### II. Method of Collection

The information will be collected on paper using a mail survey.

## III. Data

OMB Control Number: 0648–0591. Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Business or other forprofit organizations; individuals or households.

Estimated Number of Respondents: 650 permit holders.

Estimated Time per Response: 45 minutes.

Estimated Total Annual Burden Hours: 488 hours.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

## **IV. Request for Comments**

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: August 28, 2018.

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Southeast Region Vessel Monitoring System (VMS) and Related Requirements

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted on or before November 5, 2018.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230, or via email at docpra@doc.gov.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Adam Bailey, National Marine Fisheries Service (NMFS), Southeast Regional Office, 263 13th Avenue South, St. Petersburg, FL 33701, (727) 824–5305, adam.bailey@noaa.gov.

#### SUPPLEMENTARY INFORMATION:

#### I. Abstract

This request is for an extension of a currently approved information collection.

The Magnuson-Stevens Fishery Conservation and Management Act authorizes the Gulf of Mexico Fishery Management Council (Gulf Council) and South Atlantic Fishery Management Council (South Atlantic Council) to prepare and amend fishery management plans for any fishery in Federal waters under their respective jurisdictions. NMFS and the Gulf Council manage the reef fish fishery in the Gulf of Mexico (Gulf) under the Fishery Management Plan (FMP) for Reef Fish Resources of the Gulf of Mexico. NMFS and the South Atlantic Council manage the fishery for rock shrimp in the South Atlantic under the FMP for the Shrimp Fishery in the South Atlantic Region. The vessel monitoring system (VMS) regulations for the Gulf reef fish fishery and the South Atlantic rock shrimp fishery may be found at 50 CFR 622.28 and 622.205, respectively.

The FMPs and the implementing regulations contain several specific management areas where fishing is restricted or prohibited to protect habitat or spawning aggregations, or to control fishing pressure. Unlike size, bag, and trip limits, where the catch can be monitored on shore when a vessel returns to port, area restrictions require at-sea enforcement. However, at-sea enforcement of offshore areas is difficult due to the distance from shore and the limited number of patrol vessels, resulting in a need to improve enforceability of area fishing restrictions through remote sensing methods. In addition, all fishing gears are subject to some area fishing restrictions. Because of the sizes of these areas and the distances from shore, the effectiveness of enforcement through over flights and at-sea interception is limited. An electronic VMS allows a more effective means to monitor vessels for intrusions into restricted areas.

The VMS provides effort data and significantly aids in enforcement of

areas closed to fishing. All position reports are treated in accordance with NMFS existing guidelines for confidential data. As a condition of authorized fishing for or possession of Gulf reef fish or South Atlantic rock shrimp in or from Federal waters, vessel owners or operators subject to VMS requirements must allow NMFS, the United States Coast Guard, and their authorized officers and designees, access to the vessel's position data obtained from the VMS.

## II. Method of Collection

Respondents have a choice of either electronic or paper forms. Methods of submittal include email of electronic forms, and mail and facsimile transmission of paper forms.

## III. Data

OMB Control Number: 0648–0544. Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Business or other forprofit organizations.

Estimated Number of Respondents: 927.

Estimated Time per Response: Installation, 5 hours; installation and activation checklist, 20 minutes; powerdown exemption requests, 5 minutes; transmission of fishing activity reports, 1 minute; and annual maintenance, 2 hours.

Estimated Total Annual Burden Hours: 2,557.

Estimated Total Annual Cost to Public: \$1,466,255 in start-up, transfer, operations, and maintenance costs.

## **IV. Request for Comments**

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
