

producers individually investigated are determined entirely under section 776 of the Act, the Department may use any reasonable method to establish an "all others" rate for exporters and producers not individually investigated. In this case, although the rate for the only investigated company is based entirely on facts available under section 776 of the Act, there is no other information on the record upon which we could determine an "all others" rate. As a result, we have used the rate for TK as the "all others" rate.

Exporter/Manufacturer	Net Subsidy Rate
PT. Pabrik Kertas Tjiwi Kimia Tbk	40.55 percent
All Others	40.55 percent

As a result of our *Preliminary Determination* and pursuant to section 703(d) of the Act, we instructed the CBP to suspend liquidation of all entries of certain lined paper products from Indonesia which were entered or withdrawn from warehouse, for consumption on or after February 13, 2006, the date of the publication of the *Preliminary Determination* in the **Federal Register**. In accordance with section 703(d) of the Act, we instructed CBP to discontinue the suspension of liquidation for subject merchandise for countervailing duty purposes entered on or after June 13, 2006, but to continue the suspension of liquidation of entries made from February 13, 2006, through June 12, 2006.

We will issue a countervailing duty order and reinstate the suspension of liquidation under section 706(a) of the Act if the ITC issues a final affirmative injury determination, and will require a cash deposit of estimated countervailing duties for such entries of merchandise in the amounts indicated above. If the ITC determines that material injury, or threat of material injury, does not exist, this proceeding will be terminated and all estimated duties deposited or securities posted as a result of the suspension of liquidation will be refunded or canceled.

ITC Notification

In accordance with section 705(d) of the Act, we will notify the ITC of our determination. In addition, we are making available to the ITC all non-privileged and non-proprietary information related to this investigation. We will allow the ITC access to all privileged and business proprietary information in our files, provided the ITC confirms that it will not disclose such information, either publicly or under an Administrative Protective

Order (APO), without the written consent of the Assistant Secretary for Import Administration.

Return or Destruction of Proprietary Information

In the event that the ITC issues a final negative injury determination, this notice will serve as the only reminder to parties subject to an APO of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Failure to comply is a violation of the APO.

This determination is published pursuant to sections 703(f) and 777(i) of the Act.

Dated: August 9, 2006.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:**I. Abstract**

The National Marine Fisheries Service (NMFS) plans to conduct a survey with the objective of measuring the preferences that U.S. residents have toward protecting the Steller sea lion (*Eumetopias jubatus*), which is a listed species under the Endangered Species Act of 1973 (16 U.S.C. 35). NMFS is charged with protecting this species and has identified numerous potential protection options, and begun implementing selected options, to this end (68 FR 204). Since different management options are available to protect Steller sea lions, it is important to understand the public's attitudes toward the variety of potential impacts on Steller sea lions, Alaskan fisheries and fishing communities, and the nation. This information is currently not available, yet is crucial to ensure the efficient management of Alaskan fisheries and protection of Steller sea lions.

SUPPLEMENTARY INFORMATION:**I. Abstract**

The participants in most Federally-managed fisheries in the Southeast Region are currently required to keep and submit catch and effort logbooks from their fishing trips. A subset of these vessels also provide information

on the species and quantities of fish, shellfish, marine turtles, and marine mammals that are caught and discarded or have interacted with the vessel's fishing gear. A subset of these vessels also provide information about dockside prices, trip operating costs, and annual fixed costs.

The data are used for scientific analyses that support critical conservation and management decisions made by national and international fishery management organizations. Interaction reports are needed for fishery management planning and to help protect endangered species and marine mammals. Price and cost data will be used in analyses of the economic effects of proposed regulations.

II. Method of Collection

The information is submitted on paper forms. Logbooks are completed daily and submitted on either a by trip or monthly basis, depending on the fishery. Fixed costs are submitted on an annual basis. Other information is submitted on a trip basis.

OMB Number: 0648-0016.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations; individuals or households.
