FCC Form 609-T is used by Designated Entities (Des) to request prior Commission approval pursuant to 47 CFR 1.2114 of the Commission's rules for any reportable eligibility event. The data collected on the form is used by the FCC to determine whether the public interest would be served by the approval of the reportable eligibility event. FCC Form 611-T is used by DE licensees to file an annual report, pursuant to 47 CFR 1.2110(n) of the Commission's rules, related to eligibility for designated entity benefits.

OMB Control Number: 3060-XXXX.

Title: Surrenders of Authorizations for International Carrier, Space Station and Earth Station Licensees.

Form No.: N/A.

Type of Review: New collection.

Respondents: Businesses or other for-profit entities.

Number of Respondents: 306 respondents; 306 responses.

Estimated Time Per Response: 1 hour.
Frequency of Response: On occasion reporting requirement.

Estimated Total Annual Burden: 306 hours.

Estimated Total Annual Costs: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Federal

Communications Commission ("Commission") is requesting that the Office of Management and Budget (OMB) approve the establishment of a new collection for surrenders of authorizations for international carriers (214 authorizations), space stations and earth stations. A surrender of authorization is the licensee's voluntary cancellation of a license (or authorization) to provide international telecommunications services, such as discontinuing operation of a space station.

This new collection is being initiated as a result of the Commission's release of a Public Notice (DA 06-569) on March 15, 2006 titled, "International Bureau Announces New and Improved Filing Modules Within Its MyIBFS Electronic Filing System: Surrender of Authorization and Improved Space Station Milestone Filing." The Public Notice announced the International Bureau's launching of an E-filing module for surrendering authorizations and an improved milestone filing module for satellite space stations within its MyIBFS consolidated licensing and electronic filing system. (**Note:** The OMB approved the electronic filing of milestones under OMB Control No. 3060-1007).

Additionally, the Commission is requesting the OMB's approval of mandatory electronic filing of surrenders of authorizations that do not fall under Part 25 of the Commission's rules. Currently, the surrender module is available to licensees in MyIBFS who are not required to comply with Part 25 on a voluntary basis. (**Note:** The OMB approved electronic filing of all Part 25-related applications and associated documents under OMB Control No. 3060-0678).

Without this collection of information, licensees would be required to submit surrenders of authorizations to the Commission by letter which is more time consuming than submitting such requests to the Commission electronically. In addition, Commission staff would spend an extensive amount of time processing surrenders of authorizations received by letter. The collection of information saves time for both licensees and Commission staff since they are received in MyIBFS electronically and include only the information that is

essential to process the requests in a timely manner. Furthermore, the E-filing module expedites the Commission staff's announcement of surrenders of authorizations via Public Notice.

New Broadband Radio Service (BRS) and Educational Broadband Service (EBS) band plan transitions take place in Basic Trading Areas (BTAs), which will provide both incumbent licensees and potential new entrants in the 2495-2690 MHz band with greatly enhanced flexibility to encourage the efficient and effective use of spectrum domestically and internationally and the growth and rapid development of innovative and efficient communications technologies and services.

The information collection requirements are contained in the following rule sections: 1) the pre-transition data request (47 CFR 27.1231(e)); 2) the transition notice (47 CFR 27.1231(e)); 3) the Initiation Plan (47 CFR 27.1231(f)); and 4) the post-transition notification (47 CFR 27.1235). The Pre-transition data request will be collected by a third-party proponent (proponent) to assist in the transitioning the 2500-2690 MHz band. The proponent may use a variety of methods, including a computerized database. The proponent will send the transition notice to all BRS and EBS licensees in the BTA that the proponent is transitioning. The FCC will collect the Initiation Plan and the Post-transition Notification from the proponent to

enable the FCC to assess when transitions have begun and when they have ended. The FCC will use our electronic comment and filing system (ECFS) database to collect this information from the proponents.
