DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP17-117-000; CP17-118-000]

Driftwood LNG LLC; Driftwood Pipeline; LLC Notice of Availability of the Draft Environmental Impact Statement for the Proposed Driftwood LNG Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a draft environmental impact statement (EIS) for the Driftwood LNG and Pipeline Projects (Project). Driftwood LNG LLC and Driftwood Pipeline LLC, collectively Driftwood, request authorization (FERC Docket Nos. CP17-117-000 and CP17-118-000) to site, construct, and operate liquefied natural gas (LNG) export facilities and certain interstate, natural gas transmission pipeline facilities in Evangeline, Acadia, Jefferson Davis, and Calcasieu Parishes, Louisiana. The Project would provide gas and processing to produce up to 26 million tonnes per annum of LNG for export.

The draft EIS assesses the potential environmental effects of the construction and operation of the Driftwood LNG Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the Project would result in adverse impacts on the environment. However, with the exception of the visual impact on the nearby Driftwood Community which we conclude would be significant, impacts on the environment would be reduced to acceptable levels with the implementation of Driftwood's proposed impact avoidance, minimization, and mitigation measures and the additional measures recommended by staff in the draft EIS.

The U.S. Environmental Protection Agency, the U.S. Army Corps of Engineers, U.S. Coast Guard, U.S. Department of Energy, and the U.S. Department of Transportation participated as cooperating agencies in the preparation of the EIS. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the
