SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of a currently approved collection.

(2) *Title of the Form/Collection:* Semi-Annual Progress Report for Grantees of the Legal Assistance for Victims Grant Program.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: 1122-0007. U.S. Department of Justice, Office on Violence Against Women.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* The affected public includes the approximately 200 grantees of the Legal Assistance for Victims Grant Program (LAV Program) whose eligibility is determined by statute. In 1998, Congress appropriated funding to provide civil legal assistance to domestic violence victims through a set-aside under the Grants to Combat Violence Against Women, Public Law 105-277. In the Violence Against Women Act of 2000 and again in 2005, Congress statutorily authorized the LAV Program. 34 U.S.C. 20121. The LAV

Program is intended to increase the availability of legal assistance necessary to provide effective aid to victims of domestic violence, stalking, or sexual assault who are seeking relief in legal matters arising as a consequence of that abuse or violence. The LAV Program awards grants to law school legal clinics, legal aid or legal services programs, domestic violence victims' shelters, bar associations, sexual assault programs, private nonprofit entities, and Indian tribal governments. These grants are for providing direct legal services to victims of domestic violence, sexual assault, and stalking in matters arising from the abuse or violence and for providing enhanced training for lawyers representing these victims. The goal of the Program is to develop innovative, collaborative projects that provide quality representation to victims of domestic violence, sexual assault, and stalking.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* It is estimated that it will take the approximately 200 respondents (LAV Program grantees) approximately one hour to complete a semi-annual progress report. The semi-annual progress report is divided into sections that pertain to the different types of activities that grantees may engage in and the different types of grantees that receive funds. An LAV Program grantee will only be required to complete the sections of the form that pertain to its own specific activities.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total annual hour burden to complete the data collection forms is 400 hours, that is 200 grantees completing a form twice a year with an estimated completion time for the form being one hour.

This case involves claims for alleged violations of Sections 112(r)(1) and 112(r)(7) of the Clean Air Act ("CAA"), 42 U.S.C. 7412(r)(1), (7), Section 103 of the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. 9603 ("CERCLA"), and Section 304 of the Emergency Planning and Community Right-To-Know Act, 42 U.S.C. 11004 ("EPCRA"), with respect to Gibson's winemaking facility ("Facility") located in Sanger, California. The complaint sought injunctive relief and civil penalties stemming from the 2012 accidental release of anhydrous ammonia from the Facility's refrigeration system that resulted in the death of a worker. The settlement involves a civil penalty payment of \$330,000, a reconfiguration of portions of the refrigeration process to reduce the risk of worker exposure in the event of an ammonia release, an upgrade to the refrigeration system from manual controls to a centralized computer control system programmed with automated warnings and shut-downs in the event of a release, and other injunctive relief geared towards reducing the risk of further releases at the Facility.

Agency Information Collection Activities; Comment Request; Trade Adjustment Assistance Community College and Career Training Grant Program Reporting Requirements

ACTION: Notice.

SUMMARY: The Department of Labor (DOL), Employment and Training Administration is soliciting comments concerning a proposed extension for the authority to conduct the Information Collection Request (ICR) titled, “Trade Adjustment Assistance Community College and Career Training Grant Program Reporting Requirements.” This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA).

DATES: Consideration will be given to all written comments received by April 3, 2018.

FOR FURTHER INFORMATION CONTACT:

Kristen Milstead by telephone at 202–693–3949 (this is not a toll-free number) or by email at taaccct@dol.gov.

SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

ETA requires grantees to submit Quarterly Narrative Progress Reports with a narrative summary of the capacity building progress as identified by the grantee in their project work plan. Every fourth quarter, grantees submit an Annual Performance Report with standardized outcome measures that will include aggregate data for program participants for the following ten outcome measures: Unique participants served/enrolled; total number of participants who have completed a grant-funded program of study; total number still retained in their programs of study; total number retained in other education programs; total number of credit hours completed; total number of earned credentials; total number pursuing further education after program of study completion; total number employed after program of study completion; total number retained in employment after program of study completion; and the total number of those employed at enrollment who receive a wage increase post-enrollment.

These reports help ETA gauge the effects of the TAACCCT grants, respond to inquiries about the progress and successes of the TAACCCT grants from Congress and other stakeholders, identify grantees that could serve as useful models, target technical assistance appropriately, and provide data for the national evaluation of the TAACCCT grants. ETA is seeking an extension for the collection of the final Annual Performance Report and the final Quarterly Narrative Progress Report from the fourth and final round of grants. Section 1872 of the Trade and

Globalization Adjustment Assistance Act of 2009 (Division B, Title I, Subtitle I of the American Recovery and Reinvestment Act of 2009, Pub. L. 111–5) (19 U.S.C 2372a), as amended by the Health Care and Education Reconciliation Act of 2010, Public Law 111–152, authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB 1205–0489.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL–ETA.
