

necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Case Service Report (RSA-911).

OMB Control Number: 1820-0508.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 78.

Total Estimated Number of Annual Burden Hours: 8,112.

Abstract: The RSA-911 is used to collect individual level data on Vocational Rehabilitation (VR) program participants on a quarterly basis. The data collected in this report are mandated by section 101(a)(10) and 607 of the Rehabilitation Act of 1973 (Act), as amended by title IV of the Workforce Innovation and Opportunity Act (WIOA) and section 116(d) of WIOA. In addition, RSA uses data reported through this data collection to support its other responsibilities under the Act. Section 14(a) of the Act calls for the evaluation of programs authorized under the Act, as well as an assessment of the programs' effectiveness in relation to cost. Many of these evaluation studies have utilized RSA-911 data. RSA also uses data captured through the RSA-911 during the conduct of both the annual review and periodic onsite monitoring of VR agencies required by section 107 of the Act to examine the effectiveness of program performance.

Other important management activities, such as the provision of technical assistance, program planning, and budget preparation and development, are greatly enhanced through the use of RSA-911 data. In addition, RSA uses RSA-911 data in the exchange of data under a data sharing agreement with the Social Security Administration as required by section 131 of the Act. Finally, the RSA-911 is considered to be one of the most robust databases in describing the demographics of the disabled population in the country and as such is used widely in researchers' disability-related analyses and reports.

The revisions to this instrument include the removal of duplicative data

elements as well as those not specifically required by statute or used for statutorily required activities. RSA is proposing to remove 66 elements from the current collection. RSA proposed the addition of 15 elements, 7 of which are related to adding a new service to track VR participant participation in Apprenticeships. RSA is also adding several elements by request of the VR agencies: Date of Initial IPE, Date of IPE Extension, and Date all Pre-Employment Transition Services Were Discontinued. These changes yield a net decrease in 251,000 burden hours in data collection and 1,488 burden hours in data reporting nationally.

Dated: September 25, 2018.

Tomakie Washington,

Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer, Office of Management.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[FE Docket No. 18-137-LNG]

Cheniere Marketing, LLC and Corpus Christi Liquefaction, LLC; Application for Blanket Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Countries on a Short-Term Basis

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice (Notice) of receipt of an application (Application), filed on September 14, 2018, by Cheniere Marketing, LLC and Corpus Christi Liquefaction, LLC (collectively, Corpus Christi). Corpus Christi filed a supplement to the Application on September 24, 2018. The Application requests blanket authorization to export domestically produced liquefied natural gas (LNG) in an amount up to the equivalent of 767 billion cubic feet (Bcf) of natural gas on a cumulative basis over a two-year period commencing on the earlier of the date of first export or December 31, 2018. Corpus Christi seeks to export this LNG from the Corpus Christi Liquefaction Project (Liquefaction Project), which is currently under construction in Corpus Christi, Texas. Corpus Christi requests authorization to export the LNG to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy, including both countries with which the United States has

entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA countries) and all other countries (non-FTA countries). Corpus Christi requests this authorization on its own behalf and as agent for other entities who hold title to the LNG at the time of export. Corpus Christi filed the Application under section 3 of the Natural Gas Act (NGA). Additional details can be found in Corpus Christi's Application, posted on the DOE/FE website at: <https://www.energy.gov/fe/cheniere-marketing-llc-and-corpus-christi-liquefaction-llc-18-137-lng-3>. Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene, or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, October 31, 2018.

ADDRESSES:

Electronic Filing by Email: fergas@hq.doe.gov.

Regular Mail: U.S. Department of Energy (FE-34), Office of Regulation, Analysis, and Engagement, Office of Fossil Energy, P.O. Box 44375, Washington, DC 20026-4375.

Hand Delivery or Private Delivery Services (e.g., FedEx, UPS, etc.): U.S. Department of Energy (FE-34), Office of Regulation, Analysis, and Engagement, Office of Fossil Energy, Forrestal Building, Room 3E-042, 1000 Independence Avenue SW, Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT:

Benjamin Nussdorf or Larine Moore, U.S. Department of Energy (FE-34), Office of Regulation, Analysis, and Engagement, Office of Fossil Energy, Forrestal Building, Room 3E-042, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586-7893 or (202) 586-9478
Cassandra Bernstein or Ronald (R.J.) Colwell, U.S. Department of Energy (GC-76), Office of the Assistant General Counsel for Electricity and Fossil Energy, Forrestal Building, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586-9793 or (202) 586-8499

SUPPLEMENTARY INFORMATION: Corpus Christi requests a short-term blanket authorization to export LNG from its Liquefaction Project located in Corpus Christi, Texas, to both FTA and non-FTA countries. Corpus Christi commits that the short-term volumes to be exported under the requested authorization, when added to any

volumes exported under Corpus Christi's existing long-term export authorizations, will not exceed the maximum volumes approved under those DOE/FE authorizations in any annual (*i.e.*, consecutive 12-month) period.

DOE/FE Evaluation

This Notice applies only to the portion of the Application requesting authority to export LNG to non-FTA countries pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a). DOE/FE will review Corpus Christi's request for a FTA export authorization separately pursuant to section 3(c) of the NGA, 15 U.S.C. 717b(c).

In reviewing Corpus Christi's request for a non-FTA export authorization, DOE will consider any issues required by law or policy. DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. As part of this analysis, DOE will consider one or more of the following studies examining the cumulative impacts of exporting domestically produced LNG:

- *Effect of Increased Levels of Liquefied Natural Gas on U.S. Energy Markets*, conducted by the U.S. Energy Information Administration upon DOE's request (2014 EIA LNG Export Study);¹

- *The Macroeconomic Impact of Increasing U.S. LNG Exports*, conducted jointly by the Center for Energy Studies at Rice University's Baker Institute for Public Policy and Oxford Economics, on behalf of DOE (2015 LNG Export Study);² and

- *Macroeconomic Outcomes of Market Determined Levels of U.S. LNG Exports*, conducted by NERA Economic Consulting on behalf of DOE (2018 LNG Export Study).³

Additionally, DOE will consider the following environmental documents:

- *Addendum to Environmental Review Documents Concerning Exports*

of Natural Gas From the United States, 79 FR 48132 (Aug. 15, 2014);⁴ and

- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States*, 79 FR 32260 (June 4, 2014).⁵

Parties that may oppose this Application should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. Corpus Christi states that no changes to the Liquefaction Project will be required for the short-term exports requested in the Application. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Interested parties will be provided 30 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590.

Filings may be submitted using one of the following methods: (1) Emailing the filing to fergas@hq.doe.gov, with FE Docket No. 18-137-LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Regulation, Analysis, and Engagement at the address listed in **ADDRESSES**; or (3) hand delivering an original and three paper copies of the filing to the Office of Regulation, Analysis, and Engagement at the

address listed in **ADDRESSES**. All filings must include a reference to FE Docket No. 18-137-LNG. PLEASE NOTE: If submitting a filing via email, please include all related documents and attachments (*e.g.*, exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this Notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this Notice, in accordance with 10 CFR 590.316.

The Application is available for inspection and copying in the Office of Regulation, Analysis, and Engagement docket room, Room 3E-042, 1000 Independence Avenue SW, Washington, DC 20585. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. The Application and any filed protests, motions to intervene, notices of interventions, and comments will also be available electronically by going to the following DOE/FE Web address: <http://www.fe.doe.gov/programs/gasregulation/index.html>.

Signed in Washington, DC, on September 24, 2018.

Amy Sweeney,

Director, Division of Natural Gas, Office of Fossil Energy.
