

available to the full Committee are expected to be available to the public at the time the full Committee reviews and approves the work of the subcommittee.

Appointment to the Advisory Committee is for a two-year term, renewable for a total of three consecutive terms. Members are expected to attend all meetings in-person as this is necessary for the functioning of this advisory committee. However, we realize that unexpected events or extenuating circumstances (e.g., a personal or family emergency) may result in a member's inability to attend a meeting in-person, and that attendance through teleconferencing may be necessary. Since this has been a less than optimal means to contribute to the work of the committee, members should make efforts to attend all meetings to the extent that this is possible. In-person attendance is expected but is not a requirement.

Members must be prepared to work outside of scheduled Committee and subcommittee meetings, and may be required to assist in document preparation. Committee members serve on a voluntary basis; however, travel reimbursement and per diem are available.

#### Regarding Nominees Who Are Selected

All nominees who are selected must submit a USDA Advisory Committee Membership Background Information form AD-755, available on-line at: <http://www.fsis.usda.gov/FSISForms/AD-755.pdf>.

As new appointees, SGEs must complete the Office of Government Ethics (OGE) 450 Confidential Financial Disclosure Report, before rendering any advice, or prior to their first meeting. All members will be reviewed for conflict of interest pursuant to 18 U.S.C. 208 in relation to specific NACMCF work charges. Financial disclosure updates will be required annually. Members must report any changes in financial holdings requiring additional disclosure. OGE 450 forms are available on-line at: [http://www.usoge.gov/pages/forms\\_pubs\\_otherdocs/fpo\\_files/forms/fr450fill\\_04.pdf](http://www.usoge.gov/pages/forms_pubs_otherdocs/fpo_files/forms/fr450fill_04.pdf).

#### Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it on-line through the FSIS Web page located at [http://www.fsis.usda.gov/regulations/2006\\_Notices\\_Index/](http://www.fsis.usda.gov/regulations/2006_Notices_Index/). FSIS also will make copies of this **Federal Register** publication available through the FSIS

Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls and other types of information that could affect or would be of interest to constituents and stakeholders. The update is communicated via Listserv, a free electronic mail subscription service for industry, trade and farm groups, consumer interest groups, allied health professionals and other individuals who have asked to be included. The update is available on the FSIS Web page. Through the Listserv and Web page, FSIS is able to provide information to a much broader and more diverse audience. In addition, FSIS offers an e-mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at [http://www.fsis.usda.gov/news\\_and\\_events/email\\_subscription/](http://www.fsis.usda.gov/news_and_events/email_subscription/). Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves and have the option to password protect their account.

### **Forest Service**

#### **Black Hills National Forest, Northern Hills Ranger District, South Dakota and Bearlodge Ranger District, Wyoming—North Zone Range 05 Proposal and Analysis**

**AGENCY:** Forest Service, USDA.

**ACTION:** Revised notice of intent to prepare an environmental impact statement.

**SUMMARY:** This project will revise Rangeland Allotment Management Plans (RAMP) for eight allotments comprising about 79,634 acres within two Ranger Districts of the Black Hills National Forest, and analyze continued grazing within the constraints of the Revised Black Hills National Forest Land and Resource Management Plan, as amended (BHNF LRMP). A Notice of Intent to prepare an environmental impact statement for this project was published August 17, 2005 (70 FR 48369). More than six months have elapsed since the projected FEIS date in

that original NOI. This revised NOI is being issued to update the project schedule.

**DATES:** The Notice of Availability of the draft environmental impact statement was published in the **Federal Register** on July 7, 2006 (71 FR 38641). The final environmental impact statement is expected in September, 2006. No further formal public comment opportunities will be offered on this project.

**FOR FURTHER INFORMATION CONTACT:** Alice Allen, Project Coordinator, Black Hills National Forest, Hell Canyon Ranger District, at 330 Mt. Rushmore Rd., phone (605) 673-4853.

#### **SUPPLEMENTARY INFORMATION:**

*Purpose and Need for Action:* The purpose of the project is to authorize livestock grazing in an environmentally acceptable manner. The EIS will determine current conditions, analyze environmental consequences of grazing management actions on those conditions, and assist the decision maker in selecting management/monitoring strategies consistent with meeting desired conditions in the BHNF LRMP, including Goals 1, 2 and 3. The need for the action is to revise allotment management plans, reverse any existing undesirable conditions, and ensure that authorized uses and associated management activities move them towards desired BHNF LRMP conditions. There is also a need to respond to requests for grazing permits on lands not currently being grazed.

*Proposed Action:* The Northern Hills and Bearlodge Ranger Districts propose to implement best management practices and activities with adaptive management and monitoring strategies to allow livestock grazing consistent with Forest Plan desired conditions, standards and guidelines. The Proposed Action is Alternative A in the EIS.

*Issues:* Key issues include impacts of the proposal to soil and water quality; vegetative diversity; wildlife and wildlife habitat; economic efficiency of the proposal; timeframe for achieving desired conditions; and management of the recently acquired Besant Park, Tilson and Gonzales parcels.

*Alternatives:* Alternative B is similar to Alternative A, but would authorize livestock grazing on three additional recently acquired parcels and add these to adjacent existing allotments. Alternative D, the No Action Alternative, is the No Grazing Alternative and would eliminate any livestock grazing on the project area. Alternative E proposes the use of rest periods to achieve faster recovery of riparian areas. Alternative F would move the area toward desired

conditions by means of reduced stocking rates, mandatory use of range riders, or other non-structural adaptive management actions. No new range improvements are proposed. Alternative C, current management, was dismissed from detailed consideration.

#### **Responsible Official**

The Responsible Official for the allotments on the Bearlodge Ranger District is Steve Kozel, District Ranger, Black Hills National Forest, Bearlodge Ranger District, 121 S. 21st Street, Sundance, Wyoming 82729. The Responsible Official for the allotments on the Northern Hills Ranger District is the District Ranger, Black Hills National Forest, Northern Hills Ranger District, 2014 N. Main St., Spearfish, South Dakota 57783.

#### **Nature of Decision To Be Made**

The decision to be made is whether to continue to permit livestock grazing on all, part, or none of these allotments and, if so, under what terms and conditions to ensure that desired condition objectives are met, or that movement occurs toward those objectives. The Northern Hills District Ranger will also decide whether or not to allow livestock grazing on three recently acquired parcels and one vacant grazing unit, and if so, under what conditions.

#### **Public Comment**

Comments and input regarding the proposal were requested from the public, other groups and agencies via direct mailing on March 21, 2005. Additional comments were solicited during August and September 2005 via public notices and an additional direct mailing. The Draft EIS was issued for a 45-day public comment in July, 2006. No further formal public comment opportunities will be offered on this project.

*Early Notice of Importance of Public Participation in Subsequent Environmental Review:* The following was published as part of the original Notice of Intent. A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency published the notice of availability in the **Federal Register**. The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the
