## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

**[EPA–R10–OAR–2018–0238, FRL–9984–78–Region 10]**

### Air Plan Approval; Oregon; Lane County Permitting and General Rule Revisions

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is approving, and incorporating by reference, specific changes to the Oregon State Implementation Plan (SIP) as it applies in Lane County, Oregon. The local air agency in Lane County, Lane Regional Air Protection Agency, revised its rules to align with recent changes to Oregon State regulations. The revisions, submitted on August 29, 2014 and March 27, 2018, are related to the criteria pollutants for which the EPA has established national ambient air quality standards—carbon monoxide, lead, nitrogen dioxide, ozone,

particulate matter, and sulfur dioxide. The regulatory changes address Federal particulate matter requirements, update the major and minor source pre-construction permitting programs, add State-level air quality designations, update public processes, and tighten emission standards for dust and smoke.

**DATES:** This final rule is effective November 5, 2018.

**ADDRESSES:** The EPA has established a docket for this action under Docket ID No. EPA–R10–OAR–2018–0238. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information the disclosure of which is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and is publicly available only in hard copy form. ## I. Background

On August 29, 2014 and March 27, 2018, Lane Regional Air Protection Agency (LRAPA) and Oregon Department of Environmental Quality (ODEQ) submitted revisions to the SIP as it applies in Lane County, Oregon. On July 31, 2018, the EPA proposed to approve the submitted rule changes (83 FR 36824). Please see our proposed rulemaking for further explanation and the basis of our finding.

## II. Comments

During the public comment period on our proposed action, we received two electronic comments covering broad topics including wildfires, forest management practices, climate change, and the National Environmental Policy

Act. We have determined the comments lack the required specificity to the Oregon SIP revisions and/or the requirements of CAA section 110 and parts C and D. Moreover, the comments do not address a specific regulation or provision in question, or recommend a different action on the SIP submissions. Therefore, we find that the submitted comments are outside the scope of this action and not adverse. The full text of the submitted comments can be found in the docket for this action. We are finalizing our action as proposed.

### **III. Final Action**

The EPA is approving, and incorporating by reference into the Oregon SIP, rule revisions submitted on August 29, 2014 (State effective March 31, 2014) and March 27, 2018 (State effective March 23, 2018) for Lane County. We are also approving, but not incorporating by reference, regulations that provide LRAPA with authority needed for SIP approval.

As discussed in the proposal and described below, we are reviewing and approving the most recent version of the submitted rules applicable in Lane County, specifically, the most recently adopted and submitted version of each rule section. Further action on the earlier adopted version of a particular submitted rule section is not required because it is no longer in effect and has been superseded by the most recent version of that rule section submitted by the State.

As requested by LRAPA and the State, we are also removing certain rules from the SIP, because they are obsolete, redundant, or replaced by equivalent or more stringent local rules. We are deferring action on a section of rules because we intend to address them in a separate, future action.

We note that the submissions include changes to OAR 340–200–0040, a rule that describes the Oregon procedures for adopting its SIP and references all of the State air regulations that have been adopted by LRAPA and ODEQ for approval into the SIP (as a matter of State law), whether or not they have yet been submitted to or approved by the EPA. We are not approving the changes to OAR 340–200–0040 because the federally-approved SIP consists only of regulations and other requirements that have been submitted by LRAPA and ODEQ and approved by the EPA.

#### *A. Rules Approved and Incorporated by Reference*

We are approving into the Oregon SIP, and incorporating by reference at 40 CFR part 52, subpart MM, revisions to the following LRAPA rule sections.

Each rule section listed is State effective March 23, 2018, unless marked with an asterisk, denoting it is effective March 31, 2014:

- Title 38—New Source Review (0010, 0020, 0025, 0030, 0034, 0038, 0040, 0045, 0050, 0055, 0060, 0070, 0245, 0250, 0255, 0260, 0270, 0500, 0510—except (3), 0530, 0540);

- Title 48—Rules for Fugitive Emissions (001, 005, 010, 015);
- Title 50—Ambient Air Standards and PSD Increments (001, 005, 015, 025, 030, 035, 040, 045, 050, 055, 060\*, 065); and
- Title 51—Air Pollution Emergencies (005, 007, 010, 011, 015, 020, 025, Table I, Table II, Table III).

#### *B. Rules Approved but Not Incorporated by Reference*

We are approving, but not incorporating by reference, the following LRAPA rule sections. Each

rule section is State effective March 23, 2018, unless marked with an asterisk, denoting the rule is effective March 31, 2014:

- Title 13—General Duties and Powers of Board and Director (005\*, 010\*, 020\*, 025\*, 030\*, 035\*);
- Title 14—Rules of Practice and Procedures (110, 115, 120, 125, 130, 135, 140, 145, 147, 150, 155, 160, 165, 170, 175, 185, 190, 200, 205); and
- Title 31—Public Participation (0070).

#### *C. Rules Removed*

We are removing the following rules from the current federally-approved Oregon SIP at 40 CFR part 52, subpart MM, because they have been repealed, replaced by rules noted in paragraph A. above, or the State has asked that they be removed:

- Title 12—Definitions (001(2)), State effective March 8, 1994;
- Title 30—Incinerator Regulations (005), State effective March 8, 1994;
- Title 33—Prohibited Practices and Control of Special Classes of Industry (030, 045), State effective November 10, 1994; and
- Title 34—Stationary Source Notification Requirements (040), State effective June 13, 2000.

We also are removing the following rules in the table entitled, “Rules Also Approved for Lane County”, State effective April 16, 2015, because LRAPA has submitted equivalent or more stringent local rules to apply in place of those requirements:

Table 5—EPA-Approved Oregon Administrative Rules (OAR) Also Approved for Lane County

- Division 200—General Air Pollution Procedures and Definitions (0020);
- Division 202—Ambient Air Quality Standards and PSD Increments (0050);
- Division 204—Designation of Air Quality Areas (0300, 0310, 0320);
- Division 208—Visible Emissions and Nuisance Requirements (0110, 0210);
- Division 214—Stationary Source Reporting Requirements (0114)(5);
- Division 216—Air Contaminant Discharge Permits (0040, 8010);
- Division 222—Stationary Source Plant Site Emission Limits (0090);
- Division 224—New Source Review (0030, 0530);
- Division 225—Air Quality Analysis Requirements (0010, 0020, 0030, 0040, 0045, 0050, 0060, 0070);
- Division 226—General Emissions Standards (0210); and
- Division 228—Requirements for Fuel Burning Equipment and Fuel Sulfur Content (0210).

#### D. Rules Deferred

As stated in the proposal, we are deferring action on the following rules, State effective March 23, 2018, and intend to address them in a separate, future action:

- Title 36—Excess Emissions (001, 005, 010, 015, 020, 025, 030).

We note that each of the Title 36 rule sections revised and submitted on August 29, 2014 (State effective March 31, 2014) were also revised and resubmitted on March 27, 2018 (State effective March 23, 2018). As a result, the 2018 submitted version of Title 36 entirely supersedes the 2014 submitted version.

#### IV. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, we are finalizing the incorporation by reference as described in Section III above and the amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these materials generally available through <https://www.regulations.gov> and at the EPA Region 10 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by the EPA for inclusion in the SIP, have been incorporated by reference by the EPA into that plan, are fully federally-enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of the EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.<sup>1</sup>

#### V. Oregon Notice Provision

Oregon Revised Statute 468.126, prohibits ODEQ from imposing a penalty for violation of an air, water or solid waste permit unless the source has been provided five days' advanced written notice of the violation and has not come into compliance or submitted a compliance schedule within that five-day period. By its terms, the statute does not apply to Oregon's title V program or to any program if application of the notice provision would disqualify the program from Federal delegation. Oregon has previously confirmed that, because application of the notice provision would preclude EPA approval of the Oregon SIP, no advance notice is required for violation of SIP requirements.

<sup>1</sup> See 62 FR 27968 (May 22, 1997).

#### VI. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve State choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because this action does not involve technical standards; and
- does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian Tribe has demonstrated that a Tribe has jurisdiction. In those areas of Indian country, the rule does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by December 4, 2018. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).
