SUPPLEMENTARY INFORMATION:

Title of Collection: Employers of National Service Enrollment Form and Employers of National Service Annual Survey.

OMB Control Number: 3045–0175.

Type of Review: Renewal and addition of second instrument.

Respondents/Affected Public: Any organization that seeks to be or is an Employer of National Service program, including businesses, nonprofits, institutions of higher education, school districts, state/local governments, and federal agencies.

Total Estimated Number of Annual Responses: 1,180.

Total Estimated Number of Annual Burden Hours: 490.

Abstract: This is a request to renew the Employers of National Service Enrollment Form and add an additional related instrument, the Employers of National Service Annual Survey. Organizations from all sectors either seeking to become or already established Employers of National Service will be filling out these forms, including businesses, nonprofits, institutions of higher education, school districts, state/local governments, and federal agencies. The key purpose of the enrollment form is to document what the organization is committing to doing as an Employer of National Service and provide contact information to CNCS. The information gathered on the enrollment form will also allow CNCS to display the organization's information accurately online as a resource for job seekers. It will also enable CNCS to speak to the diversity within the program's membership, both for internal planning and external audience use. The purpose of the survey form is to track what actions an employer has taken in the past year, gather stories of success or impact, collect quantitative hiring data relating to AmeriCorps and Peace Corps alumni, and provide organizations with an opportunity to update their contact and location data. The information will be collected electronically via our website. CNCS also seeks to continue using the currently approved information collection until the revised information collection is approved by OMB. The currently approved information collection is due to expire on March 31, 2019.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. All written comments will be available for public inspection on *regulations.gov.*
