Title of Collection: The Department of Education Accrediting Agency, Foreign Medical and Foreign Veterinarian Program Comparability Database Approval.

OMB Control Number: 1840-0788.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Private Sector.

Total Estimated Number of Annual Responses: 94.

Total Estimated Number of Annual Burden Hours: 3,988.

Abstract: The United States Secretary of Education (Secretary) is required by law to publish a list of nationally-recognized accrediting agencies that have been determined to be reliable authorities regarding the quality of education or training offered by the institutions or programs they accredit. In determining whether a specific agency should be recognized, the Secretary evaluates the submission for compliance with the Criteria for Recognition contained in regulations. The collection of information is necessary for the Secretary to evaluate and monitor the continued compliance with the criteria during any period of recognition granted. This collection is submitted due to the approaching end of the 3 year approval period. There is a change in burden hours for the

following reasons. The number of accrediting agencies/organizations submitting documentation increased. Two additional accrediting agencies submitted initial petitions for recognition and supporting documentation, one additional foreign veterinary accrediting agency and two additional accrediting organizations communicated their intent to submit an initial application. Department staff consulted with seven accrediting agencies and organizations and determined that a new evaluation of burden hours was necessary.

Dated: October 16, 2018.

Kate Mullan,

Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer, Office of Management.

[Project No. 14751–002]

Alpine Pacific Utilities Hydro, LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the original license application for the Fresno Dam Site Water Power Project, located on the Milk River, at the existing U.S. Bureau of Reclamation's (Reclamation) Fresno Dam, in Hill County, Montana, and has prepared an Environmental Assessment (EA) for the project. The project would occupy 0.07 acre of federal land managed by Reclamation.

The EA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link.
