The Commission adopted rules in May 1997 providing discounts on telecommunications services, Internet access, and internal connections for eligible schools and libraries under the Schools and Libraries Universal Service program. FCC Forms 472, 473, and 474 are utilized to administer these requirements and obligations. The purpose of FCC Form 472 is to establish the process and procedure for an eligible entity to seek reimbursement from the service provider for the discounts on services paid in full. The purpose of FCC Form 473 is to establish that the participating service provider is eligible to participate in the program. The purpose of FCC Form 474 is to establish the process and procedure for a service provider to seek payment for the discounted costs of services it provided to Billed Entities for eligible services. The forms and instructions in this collection will be modified to utilize a format previously approved by OMB in 1998 and 2001, but have been revised to reflect the most current burden information available with updated language to the forms and instructions. The FCC Form 472 also contains a revision reflecting the timing of reimbursements. Service providers must forward reimbursement payments to a school or library within 20 business days, rather than 10 calendar days, of receipt of such funds from the Universal Service Administrative Company (USAC). (Schools and Libraries Second Report and Order in FCC 03–101). And, in addition, the FCC Form 473 has added a certification that the service provider has complied with the universal service competitive bidding rules (Schools and Libraries Fifth Report and Order in FCC 04–190). These revised forms and instructions will assist in the implementation of the Schools and Libraries Universal Service Program. As a result, the Commission is now seeking OMB approval for the changes to the forms and instructions.

In CC Docket No. 96–98, comment was sought on whether ILECs should provide certain notifications to competing carriers.
