Federal Aviation Administration

Agency Information Collection Activities: Corrected Requests for Comments; Clearance of a Renewed Approval of Information Collection: Certification of Repair Stations, Part 145 of Title 14, CFR

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on August 28, 2018. The burden in this 30-day notice is less than the burden published in the 60-day notice. The 60-day notice burden included a one-time training obligation that is complete. Persons requesting to obtain an initial air agency certificate for a repair station or changes to an existing repair station (air agency) certificate are required to submit this request in a format acceptable to the FAA. Repair stations perform maintenance, preventive maintenance, alterations of aircraft and aircraft components and parts thereof. In order to remain consistent and provide ease of application, the FAA designed and made available to the public the FAA Form 8310-3 Application for Repair Station Certificate and/or Rating. The form provides space for the applicant to provide certification information such as, but not limited to, ratings sought, physical place of business, ownership, and request to contract maintenance functions. The applicants submit FAA Form 8310-3 to the FAA Flight Standards Office closest to the proposed place of business for initial certification. The information collected is necessary to obtain repair station certification or if currently certificated, a change in ratings, changes in ownership, changes in the physical location of the repair station, or any other purpose the applicant deems appropriate.

DATES: Written comments should be submitted by November 28, 2018.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed

to the attention of the Desk Officer, Department of Transportation/FAA, and sent via electronic mail to oira_submission@omb.eop.gov, or faxed to (202) 395-6974, or mailed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW, Washington, DC 20503.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Petition for Approval of Product Safety Plan

Under part 211 of Title 49 Code of Federal Regulations (CFR), this provides the public notice that on October 16, 2018, BNSF Railway Company (BNSF) petitioned the Federal Railroad Administration (FRA) for approval of a Product Safety Plan (PSP) Version 2.5, dated August 31, 2018, pursuant to 49 CFR 236.907(a). FRA assigned the petition Docket Number FRA-2006-23686.

BNSF requests FRA approval of a PSP for the Dual Radar Roadway Vehicle Detector (VDR24). The VDR24, supplied by Island Radar, is used as a vehicle detection subsystem for four-quadrant gate crossing warning systems, with its intended application as an alternative to inductive loop vehicle detectors. BNSF asserts that this PSP addresses all requirements of 49 CFR 236.907(a). The petition states that Version 2.5 incorporates revisions required by the conditions of FRA's July 19, 2018 letter.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.
