

verification report is issued in this investigation. Rebuttal briefs, limited to issues raised in case briefs, may be submitted no later than five days after the deadline date for case briefs.⁹ Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this investigation are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain the party's name, address, and telephone number, the number of participants, whether any participant is a foreign national, and a list of the issues to be discussed. If a request for a hearing is made, Commerce intends to hold the hearing at the U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, at a time and date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

Postponement of Final Determination and Extension of Provisional Measures

Section 735(a)(2) of the Act provides that a final determination may be postponed until not later than 135 days after the date of the publication of the preliminary determination if, in the event of an affirmative preliminary determination, a request for such postponement is made by exporters who account for a significant proportion of exports of the subject merchandise, or in the event of a negative preliminary determination, a request for such postponement is made by the petitioner. Section 351.210(e)(2) of Commerce's regulations requires that a request by exporters for postponement of the final determination be accompanied by a request for extension of provisional measures from a four-month period to a period not more than six months in duration.

On September 18, 2018, pursuant to 19 CFR 351.210(e), Yuki Gosei and Nagase requested that Commerce postpone the final determination and that provisional measures be extended

to a period not to exceed six months.¹⁰ In accordance with section 735(a)(2)(A) of the Act and 19 CFR 351.210(b)(2)(ii), because: (1) The preliminary determination is affirmative; (2) the requesting exporters account for a significant proportion of exports of the subject merchandise; and (3) no compelling reasons for denial exist, Commerce is postponing the final determination and extending the provisional measures from a four-month period to a period not greater than six months. Accordingly, Commerce will make its final determination no later than 135 days after the date of publication of this preliminary determination.

International Trade Commission Notification

In accordance with section 733(f) of the Act, Commerce will notify the International Trade Commission (ITC) of its preliminary determination. If the final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after the final determination whether these imports are materially injuring, or threaten material injury to, the U.S. industry.

Notification to Interested Parties

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act and 19 CFR 351.205(c).

Dated: October 24, 2018.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The merchandise covered by this investigation is glycine at any purity level or grade. This includes glycine of all purity levels, which covers all forms of crude or technical glycine including, but not limited to, sodium glycinate, glycine slurry and any other forms of amino acetic acid or glycine. Subject merchandise also includes glycine and precursors of dried crystalline glycine that are processed in a third country, including, but not limited to, refining or any other processing that would not otherwise remove the merchandise from the scope of this investigation if performed in the country of manufacture of the in-scope glycine or precursors of dried crystalline glycine. Glycine has the Chemical Abstracts Service

(CAS) registry number of 56-40-6. Glycine and glycine slurry are classified under Harmonized Tariff Schedule of the United States (HTSUS) subheading 2922.49.43.00. Sodium glycinate is classified in the HTSUS under 2922.49.80.00. While the HTSUS subheadings and CAS registry number are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Appendix II

List of Topics Discussed in the Preliminary Decision Memorandum

- I. Summary
- II. Background
- III. Period of Investigation
- IV. Postponement of Final Determination and Extension of Provisional Measures
- V. Scope Comments
- VI. Application of Facts Available and Use of Adverse Inference
- VII. All-Others Rate
- VIII. Discussion of the Methodology
 - A. Determination of Comparison Method
 - B. Results of the Differential Pricing Analysis
- IX. Date of Sale
- X. Product Comparisons
- XI. Export Price
- XII. Normal Value
 - A. Home Market Viability
 - B. Level of Trade
 - C. Cost of Production (COP) Analysis
 1. Calculation of COP
 2. Test of Comparison Market Sales Prices
 3. Results of the COP Test
 - D. Calculation of NV Based on Comparison Market Prices
- XIII. Currency Conversion
- XIV. Conclusion

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XG423

Endangered and Threatened Species: Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: NMFS has received an application for a new Enhancement of Survival Permit and a request for entry into an associated proposed Safe Harbor Agreement (Agreement) between the applicant and NMFS. The proposed Enhancement of Survival Permit and Agreement are intended to promote the survival and recovery of Central California Coast (CCC) Coho Salmon (*Oncorhynchus kisutch*) and CCC Steelhead (*O. mykiss*) listed as

⁹ See 19 CFR 351.309; see also 19 CFR 351.303 (for general filing requirements).

¹⁰ See Letter from Yuki Gosei and Nagase, "Glycine from Japan: Request to Postpone the Due Date for the Final Determination," dated September 18, 2018.

endangered and threatened, respectively, under the Endangered Species Act (ESA). Information NMFS received as a part of the application is available upon request by contacting the NMFS West Coast Region (WCR) at its California Coastal Office in Santa Rosa, California (see **FOR FURTHER INFORMATION CONTACT**).

DATES: Comments or requests for a public hearing on the action proposed in the application or related matters must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific standard time on November 30, 2018.

ADDRESSES: You may submit comments on this document and requests for a public hearing by any of the following methods. Please identify comments as relating to the “MacMurray Ranch Safe Harbor Agreement.”

Electronic Submissions: Submit all electronic comments via the Federal Rulemaking Portal. Go to <http://www.regulations.gov/>, click the “Comment Now!” icon, complete the required fields, and enter, or attach your comments.

Mail, Email, Fax: Submit written comments and requests for a public hearing to California Coastal Office, NMFS WCR, 777 Sonoma Avenue, Room 325, Santa Rosa, CA 95404. Comments and requests may also be submitted via fax to 707-578-3435 or by email to WCRMacMurraySHA.comments@noaa.gov.

Instructions: Comments sent by any other methods, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are part of the public record and will generally be posted for public viewing on <http://www.regulations.gov> without change. All personally identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Dan Wilson, Santa Rosa, CA, Telephone: 707-578-8555, Fax: 707-578-3435, email: WCRMacMurrayRanchSHA.comments@noaa.gov.

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

The proposed Enhancement of Survival Permit and Agreement are intended to promote the survival and

recovery of endangered CCC Coho Salmon and threatened CCC Steelhead.

Authority

Enhancement of Survival Permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing ESA-listed fish and wildlife permits (50 CFR parts 222–227). NMFS issues permits based on findings that such permits: (1) Were applied for in good faith; (2) if granted and exercised would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy set forth in section 2 of the ESA. The authority to take ESA-listed species is subject to conditions set forth in the permits.

Under a Safe Harbor Agreement, participating landowners voluntarily undertake management activities on their property to enhance, restore, or maintain habitat benefiting species listed under the ESA (16 U.S.C. 1531 *et seq.*). Safe Harbor Agreements, and the subsequent Enhancement of Survival Permits that are issued pursuant to section 10(a)(1)(A) of the ESA, encourage private and other non-Federal property owners to implement conservation efforts for listed species by assuring property owners that they will not be subjected to increased property-use restrictions as a result of their efforts to attract listed species to their property and increase the numbers or distribution of these species already on their property. Application requirements and issuance criteria for Enhancement of Survival Permits through Safe Harbor Agreements are found in 50 CFR 222.308(b), 222.308(c), and the Announcement of Final Safe Harbor Policy published on June 17, 1999 (64 FR 32717). These permits allow any necessary future incidental take of covered species above the mutually agreed-upon baseline conditions for those species in accordance with the terms and conditions of the permits and accompanying agreements.

An interested party may submit data, views, arguments, or a request for a hearing with respect to the action proposed in the application or related matters. Anyone requesting a hearing on a matter pursuant to this notice should set out the specific reasons why a hearing on that matter would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Applications Received

Permit 22362

E. & J. Gallo Winery, (Applicant) is requesting that NMFS issue an Enhancement of Survival Permit and approve an associated proposed Agreement that it developed with NMFS. The Enhancement of Survival Permit will facilitate implementation of the Agreement that is expected to promote the recovery of CCC Coho Salmon and CCC Steelhead on non-Federal property within Porter Creek on the Applicant’s MacMurray Ranch. Porter Creek is a tributary to the Russian River in Sonoma County, California. The proposed duration of the Agreement and the associated Enhancement of Survival Permit is three years. The proposed Enhancement of Survival Permit would authorize the incidental taking of CCC Coho Salmon and CCC Steelhead that may be associated with covered activities including beneficial management activities (*i.e.*, reservoir releases) and the return of the enrolled property to baseline conditions at the end of the Agreement, as defined in the Agreement. The Agreement specifies the beneficial management activities to be carried out on the enrolled property and the schedule for implementing those activities.

The Agreement requires that the Applicant maintain baseline condition for the covered species habitat on the enrolled property. NMFS has reviewed the baseline condition for the enrolled property as it is defined in the Agreement. The Agreement also contains a monitoring component that requires the Applicant to ensure compliance with the terms and conditions of the Agreement, and that the baseline levels of habitat for the covered species occurs on the enrolled property. Results of the monitoring efforts will be provided to NMFS by the Applicant in an annual report for the duration of the three-year permit term.

Upon all parties’ execution of this Agreement, and consistent with the NMFS’ Safe Harbor Policy (64 FR 32717), NMFS will issue an Enhancement of Survival Permit to the Applicant. The Enhancement of Survival Permit will authorize the Applicant to take CCC Coho Salmon and CCC Steelhead incidental to the implementation of the covered activities specified in the Agreement, incidental to other lawful uses of the enrolled property, and to return to baseline conditions if desired at the end of the Agreement. In addition to meeting other criteria, actions to be performed under the Enhancement of Survival Permit

must not jeopardize the existence of Federally listed species.

This notice is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the application, associated documents, and comments submitted to determine whether the application meets the applicable requirements of section 10(a) of the ESA and Federal regulations. NMFS' decision on whether to issue the permit will not be made until after the end of the 30-day comment period.

NMFS will publish notice of its final action in the **Federal Register**.

Dated: October 26, 2018.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

[FR Doc. 2018-23812 Filed 10-30-18; 8:45 am]

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Pacific Islands Region Coral Reef Ecosystems Permit Form.

OMB Control Number: 0648-0463.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 12.

Average Hours per Response: 2 hours per special permit application; 10 minutes per transshipment permit application.

Burden Hours: 31.

Needs and Uses: This request is for extension of a current information collection.

The National Marine Fisheries Service (NMFS) requires, as codified under 50 CFR part 665, any person (1) fishing for, taking, retaining, or using a vessel to fish for Western Pacific coral reef ecosystem management unit species in the designated low-use Marine Protected Areas, (2) fishing for any of these species using gear not specifically allowed in the regulations, or (3) fishing for, taking, or retaining any Potentially Harvested Coral Reef Taxa in the coral

reef ecosystem regulatory area, to obtain and carry a permit. A receiving vessel owner must also have a transshipment permit for at-sea transshipment of coral reef ecosystem management unit species. The permit application form provides basic information about the permit applicant, vessel, fishing gear and method, target species, projected fishing effort, *etc.*, for use by NMFS and the Western Pacific Fishery Management Council in determining eligibility for permit issuance. The information is important for understanding the nature of the fishery and provides a link to participants. It also aids in the enforcement of Fishery Ecosystem Plan measures.

Affected Public: Business or other for-profit organizations and individuals or households.

Frequency: Annually.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at *reginfo.gov*. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *OIRA_Submission@omb.eop.gov* or fax to (202) 395-5806.

Dated: October 25, 2018.

Sarah Brabson,

NOAA PRA Clearance Officer.

[FR Doc. 2018-23830 Filed 10-30-18; 8:45 am]

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Observer Programs' Information That Can Be Gathered Only Through Questions.

OMB Control Number: 0648-0593.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 3,711.

Average Hours per Response: 75 minutes.

Burden Hours: 27,238.

Needs and Uses: The National Oceanic and Atmospheric Administration (NOAA), National Marine Fisheries Service (NMFS) deploys fishery observers on United States (U.S.) commercial fishing vessels and to fish processing plants in order to collect biological and economic data. NMFS has at least one observer program in each of its five Regions. These observer programs provide the most reliable and effective method for obtaining information that is critical for the conservation and management of living marine resources. Observer programs primarily obtain information through direct observations by employees or agents of NMFS; and such observations are not subject to the Paperwork Reduction Act (PRA). However, observer programs also collect the following information that requires clearance under the PRA: (1) Standardized questions of fishing vessel captains/crew or fish processing plant managers/staff, which include gear and performance questions, safety questions, and trip costs, crew size and other economic questions; (2) questions asked by observer program staff/contractors to plan observer deployments; (3) forms that are completed by observers and that fishing vessel captains are asked to review and sign; (4) questionnaires to evaluate observer performance; and (5) a form to certify that a fisherman is the permit holder when requesting observer data from the observer on the vessel. NMFS seeks to renew OMB PRA clearance for these information collections.

The information collected will be used to: (1) Monitor catch and bycatch in federally managed commercial fisheries; (2) understand the population status and trends of fish stocks and protected species, as well as the interactions between them; (3) determine the quantity and distribution of net benefits derived from living marine resources; (4) predict the biological, ecological, and economic impacts of existing management action and proposed management options; and (5) ensure that the observer programs can safely and efficiently collect the information required for the previous four uses. In particular, these biological and economic data collection programs contribute to legally mandated analyses required under the Magnuson-Stevens Fishery Conservation and Management Act (MSA), the Endangered Species Act (ESA), the Marine Mammal Protection Act (MMPA), the National Environmental Policy Act (NEPA), the Regulatory Flexibility Act (RFA), Executive Order 12866 (E.O. 12866), as
