

available upon request. There are no changes to the Diary Survey for 2007.

### III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

*Type of Review:* Revision of a currently approved collection.

*Agency:* Bureau of Labor Statistics.

*Title:* The Consumer Expenditure Surveys: The Quarterly Interview and the Diary.

*OMB Number:* 1220-0050.

*Affected Public:* Individuals or households.

Form	Total respondents	Frequency	Total responses	Average time per response	Estimated total burden
CE Quarterly Interview CAPI Instrument .....	8,825	4	35,300	65	38,242
CE Quarterly Interview Reinterview CAPI Instrument .....	4,000	1	4,000	10	667
CE Diary: Household Questionnaire CAPI Instrument .....	7,050	3	21,150	25	8,813
CE: Diary CE-801, Record of Your Daily Expenses .....	7,050	2	14,100	105	24,675
CE Diary Reinterview CAPI Instrument .....	1,300	1	1,300	10	217
<b>Totals .....</b>			<b>75,850</b>		<b>72,614</b>

*Total Burden Cost (capital/startup):* \$0.

*Total Burden Cost (operating/maintenance):* \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 15th day of September 2006.

**Kimberley Hill,**

*Acting Chief, Division of Management Systems, Bureau of Labor Statistics.*

## NATIONAL SCIENCE FOUNDATION

### Advisory Committee for Environmental Research and Education; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, amended), the National Science Foundation announces the following meeting:

*Name:* Advisory Committee for Environmental Research and Education (9487).

*Dates:* October 18, 2006, 8:30 a.m.–5 p.m. and October 19, 2006, 8:30 a.m.–3 p.m.

*Place:* Stafford II, Room 555, National Science Foundation, 4201 Wilson Blvd., Arlington, Virginia 22230.

*Type of Meeting:* Open.

*Contact Person:* Alan Tessier, National Science Foundation, Suite, 4201 Wilson Blvd., Arlington, Virginia 22230. Phone 703-292-7198.

*Minutes:* May be obtained from the contact person listed above.

*Purpose of Meeting:* To provide advice, recommendations, and oversight concerning support for environmental research and education.

*Agenda:* October 18—Update on recent NSF environmental activities, Planning for Diversity Workshop, Update on the social and human impact of NEON, Update on NSF Plans for Water Research, AC-ERE task group meetings, Presentation on the NAS International Human Dimensions of Global Change committee.

October 19—AC-ERE task group reports, Discussion of Biological Sciences Themes in Environmental Research and Education, Update on Cyberinfrastructure for Observing Systems, International Polar Year Update, Meeting with the Director (or Representative).

Dated: September 19, 2006.

**Susanne Bolton,**

*Committee Management Officer.*

## NATIONAL SCIENCE FOUNDATION

### Committee on Equal Opportunities in Science and Engineering; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

*Name:* Committee on Equal Opportunities in Science and Engineering (1173).

*Dates/Time:* October 17, 2006, 8:30 a.m.–5:30 p.m. and October 18, 2006, 8:30 a.m.–2 p.m.

*Place:* National Science Foundation, 4201 Wilson Boulevard, Room 375, Arlington, VA 22230.

*Type of Meeting:* Open.

*Contact Person:* Dr. Margaret E.M. Tolbert, Senior Advisor and Executive Liaison, CEOSE, Office of Integrative Activities, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. Telephone: (703) 292-8040. [mtolbert@nsf.gov](mailto:mtolbert@nsf.gov).

*Minutes:* May be obtained from the Executive Liaison at the above address.

*Purpose of Meeting:* To provide advice and recommendations concerning broadening participation in science and engineering.

*Agenda*

Tuesday, October 17, 2006

Welcome and Opening Statement by the CEOSE Chair.

Introduction of New CEOSE Members.

Reports by CEOSE Liaisons to NSF Advisory Committees and Discussion of Key Points.

Discussion: Representatives of Several Federal Agencies to Participate in a Discussion of Broadening Participation Programs and Activities at Their Agencies.

Interaction with an NSF Senior Manager.

Subcommittee Report on Institutional Transformation and Discussion of Plans for a Future Mini-Symposium on That Topic.

Wednesday, October 18, 2006

Opening Statement by the CEOSE Chair.

Reports by Subcommittee Chairs and Discussions Continued: Community Colleges, Communications, Evaluation and Accountability, and Preparation of the 2006 CEOSE Biennial Report to Congress.

Completion of Unfinished Business: Refining Potential Recommendations to NSF and Action Items.

Dated: September 19, 2006.

**Susanne Bolton,**

*Committee Management Officer.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 70-7004]

### Safety Evaluation Report for the Proposed American Centrifuge Plant in Piketon, OH, NUREG-1851; Notice of Availability

**AGENCY:** United States Nuclear Regulatory Commission.

**ACTION:** Notice of Availability of Safety Evaluation Report.

**SUMMARY:** Notice is hereby given that the Nuclear Regulatory Commission (NRC) has issued a Safety Evaluation Report (SER) for the USEC Inc. (USEC) license application, dated August 23, 2004, and as revised, for the possession and use of source, byproduct, and special nuclear materials at its proposed American Centrifuge Plant (ACP) in Piketon, Ohio.

The SER discusses the results of the safety review performed by NRC staff in the following areas: General information, organization and administration, Integrated Safety Analysis (ISA) and ISA Summary, radiation protection, nuclear criticality safety, chemical process safety, fire safety, emergency management, environmental protection, decommissioning, management measures, materials control and accountability, and physical protection.

The NRC is planning to conduct a public meeting in Ohio to provide an overview of the staff's safety review and to address any comments or questions relating to the issuance of the SER.

**SUPPLEMENTARY INFORMATION:** The SER (NUREG-1851) is available for inspection and copying for a fee at the NRC's Public Document Room, located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. The Public Document Room is open from 7:45 a.m. to 4:15 p.m., Monday through Friday, except on Federal holidays.

Publicly available records will be accessible electronically from the Agency-wide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room, and on the Internet at the NRC Web site, <http://www.nrc.gov/NRC/ADAMS/index.html>. Persons who do not have access to ADAMS or who encounter problems in

accessing the documents located in ADAMS, should contact the NRC Public Document Room Reference staff by telephone at 1-800-397-4209, 301-415-4737, or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov).

#### FOR FURTHER INFORMATION CONTACT:

Stanley Echols, Mail Stop: T-8F42, Special Projects Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Telephone: (301) 415-6981, and e-mail: [jse@nrc.gov](mailto:jse@nrc.gov).

Dated at Rockville, Maryland, this 12th day of September, 2006.

For the Nuclear Regulatory Commission.

**Joseph G. Giitter,**

*Chief, Special Projects Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards.*

BILLING CODE 7590-01-P

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 070-00026 and 040-03558]

### Notice of Availability of Environmental Assessment and Finding of No Significant Impact for the Westinghouse Specialty Metals Plant in Blairsville, PA

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Issuance of Environmental Assessment and Finding of No Significant Impact.

#### FOR FURTHER INFORMATION CONTACT:

Mark Roberts, Senior Health Physicist, Decommissioning Branch, Division of Nuclear Materials Safety, Region I, U.S. Nuclear Regulatory Commission, 475 Allendale Road, King of Prussia, Pennsylvania; Telephone: (610) 337-5094; fax number (610) 337-5069; or e-mail: [mcr@nrc.gov](mailto:mcr@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) has decided to take no further regulatory action at the Westinghouse Specialty Metals Plant site, located in Derry Township, near Blairsville, PA, off Township Road 966 (the Site). The Atomic Energy Commission (AEC) issued License Nos. SUC-509 and SNM-37 to Westinghouse Electric Corporation (Westinghouse) in the 1950s (pursuant to 10 CFR parts 40 and 70, respectively), authorizing the use of low enriched uranium, highly enriched uranium, and depleted uranium for conducting research and

development, and for manufacturing activities related to the production of commercial and naval nuclear fuel. The two licenses were terminated in 1961 and 1964. The Site is currently being used for manufacturing operations that do not involve the use of licensed radioactive material.

Subsequent NRC administrative reviews in the early 1990s and radiological surveys by Westinghouse identified residual radioactive contamination in excess of NRC criteria for release for unrestricted use. The Westinghouse corporate office at 4350 Northern Pike in Monroeville, PA, took technical responsibility for remediating the Site, and transmitted documentation indicating that the Site now meets NRC criteria for release for unrestricted use. Following a favorable technical review, the NRC intends to inform Westinghouse via letter of its decision that the Site now meets current NRC criteria for release for unrestricted use and the NRC will take no further regulatory action regarding the Site. The NRC will remove the Site from the NRC listing of complex decommissioning sites.

Westinghouse requested this action in a letter dated February 15, 2006. The NRC has prepared an Environmental Assessment (EA) in support of this proposed action in accordance with the requirements of Title 10, Code of Federal Regulations (CFR), part 51 (10 CFR part 51). Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate with respect to the proposed action. The letter will be issued to Westinghouse following the publication of this FONSI and EA in the **Federal Register**.

##### II. Environmental Assessment

###### Identification of Proposed Action

The proposed action would approve Westinghouse's February 15, 2006, request that the NRC concur that Westinghouse provided adequate documentation to conclude that the Site meets the requirements in 10 CFR 20.1402 for release for unrestricted use and that the Site can therefore be removed from the NRC listing of complex decommissioning sites.

The Site is situated on 485 acres and is located in a rural area with scattered residential and manufacturing properties within its vicinity. One of the four major buildings and two exterior areas at the Site contained radioactive contamination that has now been remediated. Within the buildings, use of licensed materials was primarily confined to the southeast quarter of the
