Overview of This Information Collection

1. *Type of Information Collection:* New collection.
2. *The Title of the Form/Collection:* Fourth National Incidence Studies of Missing, Abducted, Runaway and Thrownaway Children (NISMART-4).
3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Not applicable (new collection).

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: State, county, and local law enforcement agencies (LEAs), state Missing Child Clearinghouses (MCCs), and the National Center on Missing and Exploited Children (NCMEC). *Abstract:* The Fourth National Incidence Studies of Missing, Abducted, Runaway and Thrownaway Children (NISMART-4) will include three pilot studies and one national data collection. The three pilot studies will test methodologies for collecting information from law enforcement agencies on child victims of stranger abductions, parental abductions, and other types of missing children, respectively. The pilot test data will be used solely to evaluate the effectiveness of the proposed survey methodologies. The national study will collect data on the number and characteristics of children abducted by strangers (*i.e.*, “stereotypical kidnappings”). OJJDP will use the information gathered in the national study in published reports and statistics. The reports will be made available to the U.S. Congress, Executive Office of the President, practitioners, researchers, students, the media, others interested in missing children statistics, and the general public via the OJJDP website.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:*

Burden Hours for Law Enforcement Survey—Stereotypical Kidnappings (LES-SK) Pilot: OJJDP expects 20 law enforcement investigators to spend an average of 40 minutes completing an online case detail survey and 20 minutes completing the telephone debriefing about the online survey (20 × 60 minutes = 20 hours). In addition, OJJDP expects the NCMEC database administrator to spend 5 hours pulling 20 stereotypical kidnappings cases from the NCMEC database for use in testing the online survey (1 × 5 hours = 5 hours). The total amount of time for the LES-SK pilot is 25 hours.

Burden Hours for Law Enforcement Survey—Family Abductions (LES-FA) Pilot: The sample size for Components 1 and 2 of the pilot is 30 law enforcement investigators who will be asked to search their database for cases of family abductions occurring in a 1-year period. OJJDP estimates the search will take an average of 3 hours and that 28 will comply (28 × 3 hours = 84 hours), 2 will decline (2 × 3 minutes = 6 minutes). OJJDP estimates that database administrators for NCMEC and the MCCs associated with states in the sample will all agree to conduct
