BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Quantum Engineering, Inc.

(Waiver Petition Docket Number FRA-2006-25794)

Quantum Engineering, Inc. (Quantum) seeks a waiver of compliance with certain requirements of Title 49 Code of Federal Regulations (CFR) part 232, subpart E—*End-of-Train Devices*, published January 17, 2001. Specifically, 49 CFR 232.403(g)(2) states: "If power is supplied by one or more batteries, the operating life shall be a minimum of 36 hours at 0 °C." Quantum requests a waiver to allow a minimum of 12 hours of battery reserve for the two batteries they propose using in their Model Q39 end-of-train devices.

According to Quantum, the Q39 end-of-train device will be powered by an air turbine-powered alternator (which has been in service for several years). Both the batteries and the alternator are continuously connected to provide electrical power to components of the device. The batteries are charged by the air-driven alternator during normal train operations and provide backup power when the alternator is not functioning (e.g., during switching operations when train line air pressure is cut out). Quantum provided test data indicating that the end-of-train device will operate for approximately 16 hours with two new self-contained lead acid batteries at 0 °C after loss of train line air.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (FRA-2006-25794) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000, (Volume 65, Number 70; Pages 19477–78). The Statement may also be found at <http://dms.dot.gov>.

Issued in Washington, DC on September 20, 2006.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including

the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

The South Carolina Railroad Museum, Inc.

[Docket Number FRA-2006-25452]

The South Carolina Railroad Museum, Inc. (SCMZ) seeks a permanent waiver of compliance from *Control of Alcohol and Drug Use*, 49 CFR Part 219 Subparts D through J, which require a railroad to conduct reasonable suspicion alcohol and/or drug testing, pre-employment drug testing, random alcohol and drug testing, and to have voluntary referral and co-worker report policies, and which also specify drug and alcohol testing procedures and recordkeeping requirements. The railroad is a nonprofit railroad museum located near Winnsboro, South Carolina. As part of its museum activity, it operates excursion passenger trains, primarily on certain weekends and on special charters.

The museum only runs scheduled excursion trains on 15 days in the calendar year. On those days, it runs four trains over the 10.2-mile round trip. In addition to the regularly scheduled operating days, it runs excursion trains on a charter basis. In 2005, SCMZ operated charters on 26 days. In each case, only one train was operated on the respective charter.

A portion (4,650 feet) of the museum's track is subject to a recent Lead Track Agreement between the museum and Norfolk Southern Corporation (NS), whereby NS will provide limited rail service to a commercial facility located along the museum's track. This service will not involve SCMZ volunteers but will be conducted entirely by NS employees.

The waiver would cover the museum's operation of excursion trains on the museum's trackage between Rockton, South Carolina, and Rion, South Carolina (approximately 5.1 miles). SCMZ has hours of service volunteers only.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver

Petition Docket Number FRA-2006-25452) and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PL-401, 400 7th Street, SW., Washington, DC 20590-0001. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

FRA wishes to inform all potential commenters that anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477-78), or you may visit <http://dms.dot.gov>.

Issued in Washington, DC on September 20, 2006.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Union Pacific Railroad Company

[Waiver Petition Docket Number FRA-2006-25764]

Union Pacific Railroad Company (UP) seeks a waiver of compliance with certain requirements of 49 CFR, 232.205, *Class I Brake Test-Initial Terminal inspection*, published January 17, 2001, and 49 CFR 215—*Railroad*

Freight Car Safety Standards, published April 21, 1980, for freight cars received in interchange from the Ferrocarriles Nacionales de Mexico Railroad (FXE), at Calexico, California. Specifically, UP seeks approval to move the equipment from the interchange point, at MP 708.5 on the Calexico Subdivision, to the UP rail yard in El Centro, California (a distance of 10.1 miles), without performing the inspections and tests specified.

According to UP, a Class III brake test-trainline continuity inspection would be performed per the requirements of 49 CFR 232.211, prior to departing Calexico, and the equipment would be inspected to ensure safe movement to El Centro at a train speed not to exceed 20 mph. Equipment found unsafe for movement to El Centro for repairs would be set out of the train at Calexico. The train would be equipped with a compliant end-of-train device per 49 CFR 232, Subpart E.

UP currently receives approximately 50 freight cars per day from FXE at the interchange point in Calexico. The volume has grown steadily in recent years and stands to grow even more as the effects of both the NAFTA and GATT trade agreements. United States Customs conduct inspections of the equipment at Heber, which usually takes more than an hour. If the equipment is "off air" for more than 4 hours at Heber, a "transfer train brake test" per the requirements of 49 CFR 232.215, would be performed prior to departure. From Heber, the train would move to El Centro (a distance of 4.6 miles), where a Class I brake test-initial terminal inspection would be performed per the requirements of 49 CFR 232.205.

UP states that the capacity of the existing railroad facility in Calexico is inadequate to handle current volume and the waiver is necessary to facilitate movement and to avoid restricting the volume of rail cars handled through this gateway. UP asserts that Calexico is a "bottleneck" that causes delays to international commerce on both sides of the border, and granting the requested waiver, will have no adverse effect on safety. UP also references current railroad operations at border crossings in Brownsville and Laredo, Texas, where trains move several miles from the border without performing a Class I air test.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires

an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (FRA-2006-25764) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477-78). The Statement may also be found at <http://dms.dot.gov>.

Issued in Washington, DC, on September 20, 2006.
