Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Primary Lead Smelting apply to existing and new facilities engaged in producing lead metal from ore concentrates. The category includes, but is not limited to, the following smelting processes: Sintering, reduction, preliminary treatment, refining and casting operations, process fugitive sources, and fugitive dust sources. New facilities include those that commenced construction or reconstruction after the date of proposal. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 63, subpart TTT.

Form Numbers: None.

Respondents/affected entities: Facilities engaged in primary lead processing.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart TTT).

Estimated number of respondents: 1 (total).

Frequency of response: Initially, quarterly and semiannually.

Total estimated burden: 6,270 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$855,000 (per year), which includes \$169,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase of 5 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to rounding of the total estimated burden to three significant digits.

Director, Regulatory Support Division.

¹ 16 CFR 681.1 (Duties regarding the detection, prevention, and mitigation of identity theft); 16 CFR 681.2 (Duties of card issuers regarding changes of address); 16 CFR 641.1 (Duties of users of consumer reports regarding address discrepancies).

should be addressed to Mark Eichorn, Assistant Director, Division of Privacy and Identity Protection, Bureau of Consumer Protection, (202) 326-3053, Federal Trade Commission, 600 Pennsylvania Avenue NW, Washington, DC 20580.

SUPPLEMENTARY INFORMATION:

Title: Red Flags Rule, 16 CFR 681.1; Card Issuers Rule, 16 CFR 681.2; Address Discrepancy Rule, 16 CFR part 641.

OMB Control Number: 3084-0137.

Type of Review: Extension of currently approved collection.

Abstract: The Red Flags Rule requires financial institutions and certain creditors to develop and implement written Identity Theft Prevention Programs. The Card Issuers Rule requires credit and debit card issuers to assess the validity of notifications of address changes under certain circumstances. The Address Discrepancy Rule provides guidance on what covered users of consumer reports must do when they receive a notice of address discrepancy from a nationwide consumer reporting agency. Collectively, these three anti-identity theft provisions are intended to prevent impostors from misusing another person's personal information for a fraudulent purpose.

The Rules implement sections 114 and 315 of the Fair Credit Reporting Act ("FCRA"), 15 U.S.C. 1681 *et seq.*

The Commission received no relevant public comments on the Rules' information collection requirements and FTC staff's associated PRA burden analysis and estimates that appeared in an August 8, 2018 **Federal Register** Notice.² That Notice discusses in greater detail staff's methodology behind the estimates restated here in summary form, while also providing an overview of the Rules and the statutes that underlie them.³

Pursuant to the OMB regulations, 5 CFR part 1320, that implement the PRA,

² 83 FR 39096.

³ This **Federal Register** Notice, however, corrects summary figures that had appeared in the prior Notice at Part II., page 39,097 (inadvertently carried over from the FTC's 2015 published PRA estimates). The corrections are not numerically material, however, and the calculation methodologies that appeared in the prior Notice were as intended. Further, in Part III. C. of the prior Notice, at page 39,099, 1,667 hours then intended to be shown as an estimate for address verification were omitted from the hours subtotal for Section 315 and, by extension, the aggregate estimated burden hours for the Rules. However, given statutory changes that had not then been appropriately considered, those hours had been tied to an overstatement of the relevant population affected, as explained further in footnote 9 here. Accordingly, ultimately the estimated burden related to address verification is de minimis.
