

the Navy's assessment of whether any taking occurred within the SURTASS LFA sonar mitigation and buffer zones and estimates of the percentage of marine mammal stocks affected by SURTASS LFA sonar operations (both within and outside the safety and buffer zones), using predictive modeling based on operating locations, dates/times of operations, system characteristics, oceanographic environmental conditions, and animal demographics. The annual report will also include an analysis of the effectiveness of the mitigation measures with recommendations for improvements where applicable, an assessment of any long-term effects from SURTASS LFA sonar operations, and any discernible or estimated cumulative impacts from SURTASS LFA sonar operations.

NEPA

The Navy completed and released its Draft SEIS to the public for review on October 28, 2005 (70 FR 62102). That document was available to the public for review until December 28, 2005, but was extended until February 10, 2006. NMFS is a cooperating agency in the preparation of the Draft SEIS and will either adopt it or prepare its own NEPA document before making a determination on the issuance of regulations and LOAs for this activity.

Information Solicited

As this document is being published in conformance with NMFS regulations implementing the incidental take program (50 CFR part 216, subpart I), NMFS requests interested persons to submit comments, information, and suggestions concerning the request and the possible structure and content of the regulations to allow the taking. As provided by 50 CFR 216.105, NMFS will consider this information in developing any proposed regulations to authorize the taking. Because this notice contains only a summarization of the proposed Navy action, NMFS requests commenters read the Navy MMPA application and Draft OEIS/EIS on this action prior to submitting comments, as those documents contain information necessary to respond appropriately to this action. If NMFS proposes regulations to allow this take, interested parties will be provided with a 45-day comment period within which to submit comments on the proposed rule.
