

notice. Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

### The Proposal

The FAA is considering an amendment to the Code of Federal Regulations (14 CFR part 71), which would revise Class E airspace at Kodiak, AK. The intended effect of this proposal is to revise Class E airspace upward from 1,200 ft. above the surface to contain Instrument Flight Rules (IFR) operations at Kodiak, AK.

The FAA Instrument Flight Procedures Production and Maintenance Branch has noticed that a section of uncontrolled airspace north of the Kodiak Airport should be controlled airspace. This action would revise Class E controlled airspace extending upward from 1,200 ft. above the surface near the Kodiak Airport to correct this situation. The proposed airspace is sufficient in size to contain aircraft executing instrument procedures at the Kodiak Airport.

The area would be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 in FAA Order 7400.9P, *Airspace Designations and Reporting Points*, dated September 1, 2006, and effective September 15, 2006, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart 1, Section 40103, Sovereignty and use of airspace. Under that section, the FAA is charged with prescribing regulations to ensure the safe and efficient use of the navigable airspace. This regulation is within the scope of that authority because it proposes to create Class E airspace sufficient in size to contain aircraft executing instrument procedures at Kodiak Airport and represents the FAA's continuing effort to safely and efficiently use the navigable airspace.

### List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

### The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

### PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

#### § 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9P, *Airspace Designations and Reporting Points*, dated September 1, 2006, and effective September 15, 2006, is to be amended as follows:

\* \* \* \* \*

*Paragraph 6005 Class E airspace extending upward from 700 feet or more above the surface of the earth.*

\* \* \* \* \*

#### AAL AK E5 Kodiak, AK [Revised]

Kodiak Airport, AK

(Lat. 57°45'00" N., long. 152°29'38" W.)

Kodiak VORTAC

(Lat. 57°46'30" N., long. 152°20'23" W.)

That airspace extending upward from 700 feet above the surface within a 6.8-mile radius of the Kodiak Airport, and within 5 miles south and 9 miles north of the 050°(M)/

070°(T) radial of the Kodiak VORTAC extending from the 6.8-mile radius to 17 miles northeast of the Kodiak VORTAC and within 8 miles north and 4 miles south of the Kodiak Localizer front course extending from 6.8-mile radius to 20.3 miles east of the Kodiak airport and within 14 miles of the Kodiak VORTAC extending from the 338(M)/358°(T) radial clockwise to the 087°(M)/107°(T) radial; and that airspace extending upward from 1,200 feet above the surface within lat. 57°57'06" N., long. 152°45'00" W. to lat. 57°55'00" N., long. 152°28'00" W. to lat. 57°53'00" N., long. 152°27'06" W. to point of beginning and within 27 miles of the Kodiak VORTAC extending from the 003(M)/023°(T) radial clockwise to the 068°(M)/088°(T) radial and within 8 miles north and 5 miles south of the Kodiak Localizer front course extending from the Kodiak airport to 32 miles east of the Kodiak airport; and that airspace extending upward from 3,500 feet above the surface within 4 miles either side of the 352°(M)/012°(T) radial of the Kodiak VORTAC to 40 miles north of the Kodiak VORTAC.

### Federal Aviation Administration

#### 14 CFR Part 71

[Docket No. FAA–2006–25825; Airspace Docket No. 06–AAL–27]

#### Proposed Revision of Class E Airspace; St. Michael, AK

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This action proposes to revise Class E airspace at St. Michael, AK. One amended Standard Instrument Approach Procedure (SIAP) is being developed for the St. Michael Airport. Adoption of this proposal would result in revising Class E airspace upward from 700 feet (ft.) and 1,200 ft. above the surface at St. Michael, AK.

**DATES:** Comments must be received on or before November 20, 2006.

**ADDRESSES:** Send comments on the proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590–0001. You must identify the docket number FAA–2006–25825/ Airspace Docket No. 06–AAL–27, at the beginning of your comments. You may

also submit comments on the Internet at <http://dms.dot.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

An informal docket may also be examined during normal business hours at the office of the Manager, Safety, Alaska Flight Service Operations, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513-7587.

**FOR FURTHER INFORMATION CONTACT:** Gary Rolf, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513-7587; telephone number (907) 271-5898; fax: (907) 271-2850; e-mail: [gary.ctr.rolf@faa.gov](mailto:gary.ctr.rolf@faa.gov). Internet address: <http://www.alaska.faa.gov/at>.

#### SUPPLEMENTARY INFORMATION:

##### Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2006-25825/Airspace Docket No. 06-AAL-27." The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned

with this rulemaking will be filed in the docket.

#### Availability of Notice of Proposed Rulemakings (NPRMs)

An electronic copy of this document may be downloaded through the Internet at <http://dms.dot.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at <http://www.faa.gov> or the Superintendent of Document's web page at <http://www.access.gpo.gov/nara>.

Additionally, any person may obtain a copy of this notice by submitting a request to the Federal Aviation Administration, Office of Air Traffic Airspace Management, ATA-400, 800 Independence Avenue, SW., Washington, DC 20591 or by calling (202) 267-8783. Communications must identify both docket numbers for this notice. Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

#### The Proposal

The FAA is considering an amendment to the Code of Federal Regulations (14 CFR part 71), which would revise Class E airspace at St. Michael, AK. The intended effect of this proposal is to revise Class E airspace upward from 700 ft. and 1,200 ft. above the surface to contain Instrument Flight Rules (IFR) operations at St. Michael, AK.

The FAA Instrument Flight Procedures Production and Maintenance Branch has amended one SIAP for the St. Michael Airport. The amended approach is the Area Navigation (Global Positioning System) (RNAV (GPS)) Runway (RWY) 20, Amendment 1. This action would revise Class E controlled airspace extending upward from 700 ft. and 1,200 ft. above the surface near the St. Michael Airport. Some of the necessary airspace lies over an area more than 12 miles offshore designated as Offshore Airspace, and is named Norton Sound Low. That Offshore Airspace action will be addressed in a separate pending rulemaking case. This domestic airspace action has no jurisdiction more than 12 miles offshore. The proposed airspace is sufficient in size to contain aircraft executing instrument procedures at the St. Michael Airport.

The area would be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83.

The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 in FAA Order 7400.9P, *Airspace Designations and Reporting Points*, dated September 1, 2006, and effective September 15, 2006, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart 1, Section 40103, Sovereignty and use of airspace. Under that section, the FAA is charged with prescribing regulations to ensure the safe and efficient use of the navigable airspace. This regulation is within the scope of that authority because it proposes to create Class E airspace sufficient in size to contain aircraft executing instrument procedures at St. Michael Airport and represents the FAA's continuing effort to safely and efficiently use the navigable airspace.

**The Proposal**

The FAA is considering an amendment to the Code of Federal Regulations (14 CFR part 71), which would revise Class E airspace at Perryville, AK. The intended effect of this proposal is to revise Class E airspace upward from 700 ft. and 1,200 ft. above the surface to contain Instrument Flight Rules (IFR) operations at Perryville, AK.

The FAA Instrument Flight Procedures Production and Maintenance Branch has developed a new SIAP and a new SID for the Perryville Airport. The new approach is Area Navigation (Global Positioning System) (RNAV (GPS)) Runway (RWY) 02, Original. The SID is the CILAC TWO. This action would revise Class E controlled airspace extending upward from 700 ft. and 1,200 ft. above the surface near the Perryville Airport. Some of the necessary airspace lies over an area more than 12 miles offshore designated as Offshore Airspace, and is named Norton Sound Low, Control 1234L and Woody Island Low. That
