SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-54533; File No. SR-CBOE-2006-79]

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Include DXL Options on the Hybrid 2.0 Platform

September 28, 2006.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on September 22, 2006, the Chicago Board Options Exchange, Incorporated

("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the CBOE. The Exchange filed the proposal as a "non-controversial" proposed rule change pursuant to section 19(b)(3)(A)(iii) of the Act³ and Rule 19b-4(f)(6) thereunder.⁴ The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE proposes to amend CBOE Rule 8.3 relating to Market-Maker appointments to include DXL options on the Hybrid 2.0 Platform. The text of the proposed rule change is available on the Exchange's Web site <http://www.cboe.com>, at the Exchange's Office of the Secretary and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this rule change is to amend CBOE Rule 8.3 in connection with CBOE's determination to trade options based on $\frac{1}{10}$ the Value of The Dow Jones Industrial Average (DXL) on the Hybrid 2.0 Platform.⁵ Specifically, CBOE proposes to amend Rule 8.3(c)(iv) to delete the reference to DXL options in the table listing the non-Hybrid option classes and their related appointment costs. As a Hybrid 2.0 Class, DXL would fall within the appointment cost structure set forth in CBOE Rule 8.3(c)(i), and based on its trading volume, initially be included in

Tier E with an appointment cost of .01.⁶ As a result, it would have an appointment cost that is identical to its current appointment cost.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations under the Act applicable to a national securities exchange and, in particular, the requirements of section 6(b) of the Act.⁷ Specifically, the Exchange believes the proposed rule change is consistent with the requirements of section 6(b)(5)⁸ that the rules of an exchange be designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither received nor solicited written comments on the proposal.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing rule does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, provided that the Exchange has given the Commission written notice of its intent to file the proposed rule change prior to the date

⁶ CBOE Rules 8.3 and 8.4 provide that Market-Makers and RMMs, respectively, can create a Virtual Trading Crowd ("VTC") Appointment, which confers the right to quote electronically in a certain number of products selected from various "Tiers." Currently, there are five Tiers (Tiers A, B, C, D, and E) that are structured according to trading volume statistics, an "A++" Tier which consists of options on the CBOE Volatility Index (VIX), and an "A+" Tier which consists of two option classes—options on Standard & Poor's Depositary Receipts (SPY) and options on the Nasdaq-100 Index Tracking Stock (QQQQ). These Tiers are also utilized for purposes of determining DPM and e-DPM membership ownership requirements as provided in CBOE Rules 8.85 and 8.92, respectively.

of filing of the proposed rule change or such shorter time as designated by the Commission, the proposed rule change has become effective pursuant to section 19(b)(3)(A) of the Act⁹ and Rule 19b-4(f)(6) thereunder.¹⁰

At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Under Rule 19b-4(f)(6)(iii) of the Act,¹¹ the proposal does not become operative for 30 days after the date of its filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the five-day pre-filing requirement and accelerate the 30-day operative date. The Commission, consistent with the protection of investors and the public interest, has determined to waive the five-day pre-filing requirement and to accelerate the 30-day operative date to allow DXL options to be traded on Hybrid 2.0 without delay.¹²
