

Act authorizes SBA to waive the Nonmanufacturer Rule for any "class of products" for which there are no small business manufacturers or processors available to participate in the Federal market.

As implemented in SBA's regulations at 13 CFR 121.1202(c), in order to be considered available to participate in the Federal market for a class of products, a small business manufacturer must have submitted a proposal for a contract solicitation or received a contract from the Federal government within the last 24 months. The SBA defines "class of products" based on a six digit coding system.

The coding system is the Office of Management and Budget North American Industry Classification System (NAICS).

The SBA is currently processing a request to waive the Nonmanufacturer Rule for Personal Computers, Manufacturing, North American Industry Classification System (NAICS) 334111. The public is invited to comment or provide source information to SBA on the proposed waiver of the Nonmanufacturer Rule for this class of NAICS code within 15 days after date of publication in the **Federal Register**.

Chapter 19 requires that

meetings of the Council include a public session, unless otherwise agreed by the two governments. Under Chapter 19, the two governments agreed to undertake eight specific cooperative activities set out in Annex 19.3 of the Chapter and to negotiate a United States-Chile Environmental Cooperation Agreement to further environmental cooperative activities. The United States-Chile Environmental Cooperation Agreement (the "ECA") entered into force on May 1, 2004 and sets out a framework for environmental cooperative activities between the two governments. Article II of the ECA establishes the United States-Chile Joint Commission for Environmental Cooperation (the "Commission"), with responsibilities that include developing and periodically reviewing a Work Program.
