

standards. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR Part 51.

**Request for Comments**

Interested persons may participate in these revisions by submitting written

data, views, or arguments to Casey C. Grant, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02269-7471. Commenters may use the forms provided for comments in the Reports on Proposals. Each person submitting a comment should include his or her name and address, identify the notice, and give reasons for any recommendations. Comments received on or before March 2, 2007 for the 2007

Fall Revision Cycle Report on Proposals will be considered by the NFPA before final action is taken on the proposals.

Copies of all written comments received and the disposition of those comments by the NFPA committees will be published as the 2007 Fall Revision Cycle Report on Comments by August 24, 2007. A copy of the Report on Comments will be sent automatically to each commenter.

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

[I.D. 100606B]

**Pacific Fishery Management Council; Public Meeting/Workshop**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of a public meeting.

**SUMMARY:** NMFS and the Pacific Fishery Management Council (Council) will hold a workshop to discuss the incorporation of data from the Northwest Fisheries Science Center (NWFSC) West Coast groundfish bottom trawl survey (conducted on the shelf and slope) into groundfish stock assessments, particularly those that will be conducted in 2007.

**DATES:** The NWFSC Bottom Trawl Survey workshop will be held Tuesday, October 31, 2006 through Thursday, November 2, 2006. The workshop will start at 9 a.m. and end at 5 p.m. on Tuesday and Wednesday, or as necessary to complete business. The workshop will adjourn at noon on Thursday, November 2, 2006.

**ADDRESSES:** The NWFSC Bottom Trawl Survey workshop will be held at the NOAA Western Regional Center (WRC), 7600 Sand Point Way NE, Building 9, Conference Room, Seattle, WA 98115.

*Council address:* Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

**FOR FURTHER INFORMATION CONTACT:** Ms. Stacey Miller, NWFSC; telephone: (206) 860-3480; or Mr. John DeVore, Pacific Fishery Management Council; telephone: (503) 820-2280.

**SUPPLEMENTARY INFORMATION:** Primary objectives of the workshop include: (1) Review survey protocols and data collected by the NWFSC West Coast groundfish bottom trawl surveys; (2) evaluate methods for including bottom trawl survey time series in stock

assessments; (3) evaluate whether recent data from the NWFSC West Coast groundfish bottom trawl survey conducted on the shelf and slope should be included in update assessments only if they can be treated as a new time series, or whether the new data can be used to extend time series included in previous assessment models; and (4) compare biomass and variance estimates generated using a design-based swept area approach and model-based (Generalized Linear Mixed Models) approach.

All participants are encouraged to pre-register for the workshop by contacting Ms. Stacey Miller, NWFSC by phone at (206) 860-3480 or by email at [Stacey.Miller@noaa.gov](mailto:Stacey.Miller@noaa.gov).

Although non-emergency issues not contained in the meeting agenda may come before the workshop participants for discussion, those issues may not be the subject of formal workshop action during this meeting. Workshop action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305c of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the workshop participants' intent to take final action to address the emergency.

### Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 820-2280 at least 5 days prior to the meeting date.

Pre-registration for the workshop will expedite entry to the NOAA WRC. All WRC visitors will be required to show a valid picture ID and register with security every morning. A visitor's badge, which must be worn while at the NOAA Facility, will be issued to non-Federal employees participating in the meeting.

Dated: October 10, 2006.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric and Administration

[Docket No: 061005254-6254-01]

#### Request for Information (RFI) From Commercial Sources on Positioning, Navigation, and Timing

**AGENCY:** National Oceanic and Atmospheric Administration, Department of Commerce.

**ACTION:** Notice.

**SUMMARY:** The National Oceanic and Atmospheric Administration (NOAA) is issuing this RFI on behalf of the National Security Space Office (NSSO) to solicit information on Positioning, Navigation, and Timing (PNT) to assist NSSO in developing an evolutionary path for a robust National PNT architecture for the 2025 time period in cooperation with the Department of Transportation and other relevant government organizations. The NSSO is developing the architecture in response to tasking from the National Space-Based PNT Executive Committee, chaired by the Deputy Secretary of Defense and the Deputy Secretary of Transportation. The goal is to develop a long-term PNT investment strategy and framework to enable robust PNT capabilities needed by the U.S. Government, its allies, and commercial users.

**DATES:** Please contact Shawn Brennan at (571) 432-1486, as soon as you receive this notice or by November 1, 2006 if you are interested in presenting at either of the three meetings that are being set aside for presentations by interested organizations. The first meeting will be on October 10-12, 2006. The second meeting will be on October 17-18, 2006, and the third meeting will be on November 7-8, 2006. Each meeting will consist of a thirty-minute presentation to be followed by a thirty-minute question and answer period; classified meetings will be held on the final day of each period, if required. If follow-up trips or visits to an organization's location are warranted (e.g., demonstrations), they can be arranged during or after the presentations.

**ADDRESSES:** The meeting locations are:

1. The first meeting will be at National Security Space Office in Fairfax, Virginia.
2. The second meeting will be in El Segundo, California, at Aerospace Corporation.
3. The third meeting will be at National Security Space Office in Fairfax, Virginia.

NSSO welcomes the attendance from members of the public, but for security reasons, the location of the meetings will not be disclosed until the interested individual has passed the security clearance protocol.

#### FOR FURTHER INFORMATION CONTACT:

Shawn Brennan, 571 432-1486.

**SUPPLEMENTARY INFORMATION:** NOAA is issuing this RFI on behalf of the NSSO to solicit information regarding PNT to assist NSSO in developing an evolutionary path for a robust National PNT architecture for the 2025 time period in cooperation with the Department of Transportation and other relevant government organizations. The NSSO is developing the architecture in response to tasking from the National Space-Based PNT Executive Committee, chaired by the Deputy Secretary of Defense and the Deputy Secretary of Transportation. The goal is to develop a long-term PNT investment strategy and framework to enable robust PNT capabilities needed by the U.S. Government, its allies, and commercial users. The scope of the architecture includes all PNT-related needs and capabilities, including orientation, and is not limited to space-based capabilities. This RFI seeks information which will help the NSSO team assess PNT capabilities employed, planned, or proposed by national security, civil, and commercial organizations. Of particular interest are innovative practices, concepts, standards, technologies, non-material applications, and associated commercial architectures. Note "the Government" as referred to in these questions includes all executive branch elements, besides the Department of Defense and the Department of Transportation. Specific questions are:

- a. Characterize and evaluate customers of PNT needs.
- b. What improvements to PNT capabilities are planned in these areas?
  1. Space-based capabilities.
  2. Terrestrial capabilities.
  3. Enabling capabilities.
  4. Non-material aspects including policies, procedures, and operations concepts.
- c. What standards are being considered for development, establishment, or implementation of PNT capabilities?
- d. What technologies can be used to achieve, maintain, or improve PNT capabilities? What is the practical limit of such technologies?
- e. What technologies offer high payoff for future PNT capabilities, including those without current funding support or government sponsorship?
