

Office of Pesticide Programs (OPP) to collect registration maintenance fees from pesticide registrants as required by law. Respondents complete and submit EPA Form 8570-30 indicating the respondent's liability for the registration maintenance fee. Each affected firm is required to complete the filing form and submit their fee payment by January 15 of each year. No changes in the substance or in the method of collection are proposed in this ICR renewal request.

Burden statement: The annual "respondent" (applicant) burden for the Pesticide Product Registration Maintenance Fee program is estimated to average 0.96 hours per form. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 1,720.

Frequency of response: Annually.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 1,645.

Estimated total annual costs: \$125,801. There are no capital investment or maintenance and operational costs.

IV. Are There Changes In the Estimates From the Last Approval?

The total annual burden for respondents associated with this renewal is 1,645 hours. This reflects a decrease of 118 hours from the last renewal period. The decrease represents the steady decline of the number of pesticide registrants and, therefore, participation under this program. In 2006, the projected estimate is 1,720 registrants. This represents a decrease of 157 respondents from the 1,877 reported in the last ICR renewal. The average time required to complete the

maintenance fee filing form depends upon the number of registrations held by the registrant. In addition to fewer respondents in 2006, a smaller percentage of registrants held a small number of registered products. This shift to a slightly larger average number of registrations per registrant resulted in a slight increase in the average burden hours required to complete the form, from 0.94 hours in the last ICR renewal, to 0.96 hours.

V. What is the Next Step In the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Agency Information Collection Activities; Proposed Collection; Comment Request; Recordkeeping Requirements for Certified Applicators Using 1080 Collars for Livestock Protection; EPA ICR No. 1249.08, OMB Control No. 2070-0074

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a request to renew an existing approved Information Collection Request (ICR) to the Office of Management and Budget (OMB). This ICR, entitled: "Recordkeeping Requirements for Certified Applicators

Using 1080 Collars for Livestock Protection" and identified by EPA ICR No. 1249.08 and OMB Control No. 2070-0074, is scheduled to expire on May 31, 2007. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection.

DATES: Comments must be received on or before December 26, 2006.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2006-0631, by one of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- **Mail:** Office of Pesticide Programs (OPP) Regulatory Public Docket (7502P), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

- **Delivery:** OPP Regulatory Public Docket (7502P), Environmental Protection Agency, Rm. S-4400, One Potomac Yard (South Building), 2777 S. Crystal Drive, Arlington, VA. Deliveries are only accepted during the Docket's normal hours of operation (8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays). Special arrangements should be made for deliveries of boxed information. The Docket telephone number is (703) 305-5805.

Instructions: Direct your comments to docket ID number EPA-HQ-OPP-2006-0631. EPA's policy is that all comments received will be included in the public docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or e-mail. The www.regulations.gov website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through www.regulations.gov your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD ROM you submit. If EPA cannot read your

comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the docket index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the OPP Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Building), 2777 S. Crystal Drive, Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket telephone number is (703) 305-5805.

FOR FURTHER INFORMATION CONTACT: Nathanael R. Martin, Field and External Affairs Division (7506P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 305-6475; fax number: (703) 305-5884; e-mail address: martin.nathanael@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What Information is EPA Particularly Interested In?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting

electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Offer alternative ways to improve the collection activity.
7. Make sure to submit your comments by the deadline identified under **DATES**.
8. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

III. What Information Collection Activity or ICR Does This Action Apply To?

Affected entities: Entities potentially affected by this action are pesticide and other agricultural manufacturers (North American Industrial Classification System (NAICS) code 325320), e.g., pesticide registrants whose products include 1080 collars; and government establishments primarily engaged in the administration of agricultural pest control programs and regulation (NAICS code 926140) and environmental quality programs (NAICS code 9241), e.g., government agencies involved in the application of 1080 collars and states implementing a 1080 collar monitoring program, respectively.

Title: Recordkeeping Requirements for Certified Applicators Using 1080 Collars for Livestock Protection.

ICR numbers: EPA ICR No. 1249.08, OMB Control No. 2070-0074.

ICR status: This ICR is currently scheduled to expire on May 31, 2007. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for

EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR affects approximately 40 certified pesticide applicators who utilize 1080 toxic collars for livestock protection. Four states (Montana, New Mexico, South Dakota, and Wyoming) monitor the program and five pesticide registrants are required to keep records of:

- Number of collars purchased.
- Number of collars attached on livestock.
- Pasture(s) where collared livestock were placed.
- Number and locations of livestock found with ruptured or punctured collars and the apparent cause of the damage.

- The dates of each attachment, inspection, and removal.
- Number, dates, and approximate location of all collars lost.
- Locations and dates of all suspected poisonings of humans, domestic animals or non-target wild animals resulting from collar use location and species data on each animal poisoned as an apparent result of the toxic collar.

Applicators maintain records, and the registrants/lead agencies do monitoring studies and submit the reports. These records are monitored by either the: State lead agencies, EPA regional offices, or the registrants. EPA receives annual monitoring reports from registrants or state lead agencies.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated as follows: Average of 9 hours per response for registrant respondents, 40 hours per response for certified applicator respondents, and 77 hours per response for state agency respondents. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have

subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 49.

Frequency of response: Annual.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 1,953 hours.

Estimated total annual costs: \$70,261.59.

IV. Are There Changes In the Estimates From the Last Approval?

There is an increase of 200 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects EPA's estimate of increased numbers of certified applicators (from 35 certified applicators in 2003 to 40 in the current ICR). This change is an adjustment.

V. What is the Next Step In the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
