**SUPPLEMENTARY INFORMATION:** The BLM prepared the Oregon Greater SageGrouse Proposed RMP Amendment/Final EIS to enhance cooperation with States by improving alignment with State management plans and strategies for Greater Sage-Grouse, while continuing to conserve, enhance, and restore Greater Sage-Grouse and its habitat. The Proposed RMP Amendment/Final EIS also addresses a legal vulnerability, which was exposed when a Federal District Court in Nevada determined that the BLM had violated the NEPA when it finalized the 2015 plans.

The BLM developed the proposed land use plan amendment in collaboration with Oregon Governor Kate Brown, State wildlife managers, and other concerned organizations and individuals, largely through the Western Governors Association's Sage-Grouse Task Force. Using its discretion and authority under the FLPMA, the BLM proposes amending land use plans that address Greater Sage-Grouse management to improve alignment with State of Oregon plans and management strategies, in accordance with the BLM's multiple use and sustained yield mission. This Proposed RMP Amendment/Final EIS is one of six separate planning efforts that are being undertaken in response to the Secretary's Order (SO) 3353 (*Greater Sage-grouse Conservation and Cooperation with Western States*) and in accordance with SO 3349 (*American Energy Independence*). The proposed plans refine the previous management plan adopted in 2015 and aims to strike a regulatory balance and build greater trust among neighboring interests in Western communities. The Proposed RMP Amendment/Final EIS proposes to amend the RMPs for field offices on BLM-administered lands within Oregon. The current management decisions for resources are described in the following RMPs:

- Andrews (2005)
- Baker (1989)
- Brothers/La Pine (1989)
- Lakeview (2003)
- Southeastern Oregon (2002)
- Steens (2005)
- Three Rivers (1992)
- Upper Deschutes (2005)

The planning area includes approximately 60,649 acres of lands administered by the BLM in three Oregon counties: Harney, Lake, and Malheur. Within the decision area, the BLM administers approximately 21,959

acres of public lands, all of which is Greater Sage-Grouse habitat. Surface management decisions made as a result of this Proposed RMP Amendment/Final EIS will apply only to lands administered by the BLM in the decision area.

The formal public scoping process for the RMP Amendment/EIS began on October 11, 2017, with publication of a Notice of Intent in the **Federal Register** (82 FR 47248), and ended on December 1, 2017. The BLM held one public scoping meeting in Burns, Oregon on November 7, 2017.

The Oregon Draft RMP Amendment/Draft EIS focused on the availability or unavailability of livestock grazing in 13 key Research Natural Areas and mitigation. Research Natural Areas are a subset type of Areas of Critical Environmental Concern. The Draft RMP Amendment/Draft EIS evaluated two alternatives in detail, including the No Action Alternative (Alternative A) and one action alternative (Alternative B, Management Alignment Alternative). Comments on the Draft RMP Amendment/Draft EIS received from the public and internal BLM review were considered and incorporated as appropriate into the proposed RMP Amendment/Final EIS. Alternative A would retain the current management goals, objectives, and direction specified in the current RMPs, as amended, for each field office. Alternative B was identified as the BLM's preferred alternative in the Draft RMP Amendment/Draft EIS for the purposes of public comment and review. Identification of this alternative, however, does not represent final agency direction.

Instructions for filing a protest with the Director of the BLM regarding the Proposed RMPA/Final EIS may be found online at <https://www.blm.gov/programs/planning-and-nepa/public-participation/filing-a-plan-protest> and at 43 CFR 1610.5-2. All protests must be in writing and mailed to the appropriate address, as set forth in the **ADDRESSES** section above or submitted electronically through the BLM ePlanning project website as described above. Protests submitted electronically by any means other than the ePlanning project website protest section will be invalid unless a protest is also submitted in hard copy. Protests submitted by fax will also be invalid unless also submitted either through ePlanning project website protest section or in hard copy.

Before including your address, phone number, email address, or other personally identifiable information in your comment, you should be aware

that your entire comment—including your personally identifiable information—may be made publicly available at any time. While you can ask the BLM in your comment to withhold your personally identifiable information from public review, we cannot guarantee that we will be able to do so.

**SUPPLEMENTARY INFORMATION:** The BLM prepared the Wyoming Greater Sage-grouse Proposed RMP Amendment and Final EIS to enhance cooperation with the States by improving alignment with state management plans and strategies for Greater Sage-Grouse, while continuing to conserve, enhance, and restore Greater Sage-Grouse and its habitat. The Proposed RMP Amendment and Final EIS also addresses the issues remanded to the agency by a March 31, 2017 Order by the United States District Court for the District of Nevada, which determined that the BLM had violated the NEPA when it finalized the 2015 Nevada plan.

The BLM developed the proposed land use plan amendment in collaboration with Wyoming Governor Matt Mead, state wildlife managers, and other concerned organizations and individuals, largely through the Western Governors Association's Sage-Grouse Task Force. Using its discretion and authority under FLPMA, the BLM proposes amending land use plans that address Greater Sage-Grouse management to improve alignment with individual state plans or management

strategies, in accordance with the BLM's multiple use and sustained yield mission.

This Proposed RMP Amendment and Final EIS is one of six separate planning efforts that are being undertaken in response to Secretary's Order (SO) 3353 (*Greater Sage-Grouse Conservation and Cooperation with Western States*) and in accordance with SO 3349 (*American Energy Independence*). The proposed plans refine the previous management plan adopted in 2015 and aims to strike a regulatory balance and build greater trust among neighboring interests in Western communities. The Proposed RMP Amendment and Final EIS proposes to amend the RMPs for field offices on BLM-administered lands within BLM Wyoming boundaries. The current management decisions for resources are described in the following RMPs:

- Buffalo RMP (2015)
- Casper RMP (2007)
- Cody RMP (2015)
- Kemmerer RMP (2010)
- Lander RMP (2014)
- Newcastle RMP (2000)
- Pinedale RMP (2008)
- Rawlins RMP (2008)
- Green River RMP (1997)
- Worland RMP (2015)

The planning area includes approximately 60 million acres of BLM, National Park Service, U.S. Forest Service, U.S. Bureau of Reclamation, State, local, and private lands located in Wyoming, in 20 counties: Albany, Bighorn, Campbell, Carbon, Converse, Crook, Fremont, Hot Springs, Johnson, Lincoln, Natrona, Niobrara, Park, Sheridan, Sublette, Sweetwater, Teton, Uinta, Washakie, and Weston. Within the decision area, the BLM administers approximately 18 million acres of public land, providing approximately 17 million acres of Priority and General Greater Sage-Grouse habitat. Surface management decisions made as a result of this Proposed RMP Amendment and Final EIS will apply only to BLM-administered lands in the decision area.

The formal public scoping process for the RMP Amendment and EIS began on October 11, 2017, with publication of a Notice of Intent in the **Federal Register** (82 FR 47248) and ended on December 1, 2017. The BLM in Wyoming held public scoping meetings in Cheyenne, Wyoming, and Pinedale, Wyoming in November of 2017. The Notice of Availability for the Draft Supplemental EIS was published on May 4, 2018, and the BLM accepted public comments on the range of alternatives, effects analysis and draft RMP amendments for 90 days, ending on August 2, 2018. During the public comment period, two public

meetings were held, one in Cheyenne and one in Pinedale.

The Wyoming Draft RMP Amendment/Draft EIS focused on the issues of designation of sagebrush focal areas, mitigation standards, clarification of habitat objectives tables, adjustments to habitat boundaries to reflect new information, and reversing adaptive management responses when the BLM determines that resource conditions no longer warrant those responses. The Draft RMP Amendment/Draft EIS evaluated two alternatives in detail, including the No Action Alternative (Alternative A) and one action alternative (Alternative B). Comments on the Draft RMP Amendment/Draft EIS received from the public and internal BLM review were considered and incorporated as appropriate into the proposed plan amendment. Alternative A would retain the current management goals, objectives, and direction specified in the current RMPs, as amended, for each field office. Alternative B has been identified as the BLM's Preferred Alternative. Identification of this alternative, however, does not represent final agency direction.

Instructions for filing a protest with the Director of the BLM regarding the Proposed RMP Amendment and Final EIS may be found online at <https://www.blm.gov/programs/planning-and-nepa/public-participation/filing-a-plan-protest> and at 43 CFR 1610.5-2. All protests must be in writing and mailed to the appropriate address, as set forth in the **ADDRESSES** section above or submitted electronically through the BLM ePlanning project website as described above. Protests submitted electronically by any means other than the ePlanning project website protest section will be invalid unless a protest is also submitted in hard copy. Protests submitted by fax will also be invalid unless also submitted either through ePlanning project website protest section or in hard copy.

Before including your address, phone number, email address, or other personal identifying information in your protest, please be aware that your entire protest, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**SUPPLEMENTARY INFORMATION:** The BLM prepared the Proposed RMP Amendment and Final EIS to analyze a range of alternatives that will continue conserving, enhancing, and restoring Greater Sage-Grouse and its habitat, while improving alignment with state management strategies for Greater Sage-Grouse. The plan also addresses a legal vulnerability, which was exposed when a Federal District Court in Nevada determined that the BLM had violated the National Environmental Policy Act when it finalized the 2015 plans.

The BLM developed the proposed land use plan amendment in collaboration with Utah Governor Gary Herbert, state wildlife managers, and other concerned organizations and individuals, largely through the Western Governors Association's Sage-Grouse Task Force. Using its discretion and authority under the Federal Land Policy and Management Act, the BLM proposes amending its land use plans that address Greater Sage-Grouse management to improve alignment with the State of Utah's plan, in accordance with the BLM's multiple use and sustained yield mission. Under the Federal Land Policy and Management Act, the BLM is required by law to work cooperatively with states on land-use plans and amendments.

This Proposed RMP Amendment/Final EIS is one of six separate planning efforts that are being undertaken in response to the Secretary's Order (SO) 3353 (*Greater Sage-grouse Conservation and Cooperation with Western States*) and in accordance with SO 3349 (*American Energy Independence*). The proposed plans refine the previous management plan adopted in 2015 and aims to strike a regulatory balance and build greater trust among neighboring interests in Western communities. The Proposed RMP Amendment and Final

EIS proposes to amend the (RMPs) for field offices on BLM-administered lands within BLM Utah boundaries. The current management decisions for resources are described in the following RMPs:

- Richfield Resource Management Plan (2008)
- Salt Lake District Isolated Tracts Planning Analysis (1985)
- Vernal Resource Management Plan (2008)
- Warm Springs Resource Management Plan (1987)

The planning area includes approximately 48,158,700 acres of BLM, National Park Service, United States Forest Service, U.S. Bureau of Reclamation, State, local, and private lands located in Utah, in 27 counties: Beaver, Box Elder, Cache, Carbon, Daggett, Davis, Duchesne, Emery, Garfield, Grand, Iron, Juab, Kane, Millard, Morgan, Piute, Rich, Salt Lake, Sanpete, Sevier, Summit, Tooele, Uintah, Utah, Wasatch, Wayne, and Weber. Within the decision area, which is limited to the portions of the planning area where the decisions from this process may apply, the BLM administers approximately 4 million acres of public land, providing approximately 3.4 million acres of Greater Sage-Grouse habitat. Surface management decisions made as a result of this Proposed RMP Amendment and Final EIS will apply only to BLM-administered lands in the decision area.

The formal public scoping process for the RMP Amendment/EIS began on October 11, 2017, with publication of a Notice of Intent in the **Federal Register** (82 FR 47248) and ended on December 1, 2017.
