**SUPPLEMENTARY INFORMATION:** The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

*Title of Collection:* Recent Graduates Employment and Earnings Survey (RGEES) Standards and Survey Form.

*OMB Control Number:* 1845–0138.

*Type of Review:* An extension of an existing information collection.

*Respondents/Affected Public:* Individuals or Households.

*Total Estimated Number of Annual Responses:* 22,123.

*Total Estimated Number of Annual Burden Hours:* 7,374.

*Abstract:* The National Center for Education Statistics (NCES) of the U.S. Department of Education (Department) is required by regulation to develop an earnings survey to support gainful employment (GE) program evaluations. The regulations specify that the Secretary of Education will publish in the **Federal Register** the survey and the standards required for its administration. NCES has developed the Recent Graduates Employment and Earnings Survey (RGEES) Standards and Survey Form. The RGEES can be used in a debt-to-earnings (D/E) ratio appeal under the GE regulations as an

alternative to the Social Security administration earnings data.

Institutions that choose to submit alternate earnings appeal information will survey all Title IV funded students who graduated from GE programs during the same period that the Department used to calculate the D/E ratios, or a comparable period as defined in 668.406(b)(3) of the regulations. The survey will provide an additional source of earnings data for the Department to consider before determining final D/E ratios for programs subject to the gainful employment regulations. Programs with final D/E ratios that fail to meet the minimum threshold may face sanctions, including the possible loss of Title IV federal student financial aid program funds.

### Federal Energy Regulatory Commission

[Docket No. CP18–186–000]

#### Notice of Schedule for Environmental Review of the Transcontinental Gas Pipe Line Company, LLC, Southeastern Trail Project

On April 11, 2018, Transcontinental Gas Pipe Line Company, LLC (Transco) filed an application in Docket No. CP18–186–000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. The proposed project is known as the Southeastern Trail Project (Project), and would provide 296.4 million standard cubic feet of natural gas per day (MMcf/d) of additional firm transportation capacity from the Pleasant Valley Interconnect facility in Fairfax County, Virginia to the existing Station 65 pooling point in St. Helena Parish, Louisiana.

With this notice, this Commission is alerting agencies that issue federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the

FERC staff's planned schedule for the completion of the EA for the Project.

#### Schedule for Environmental Review

Issuance of EA—February 8, 2019  
90-day Federal Authorization Decision

Deadline—May 9, 2019

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

#### Project Description

The Project would involve construction and operation of approximately 7.7 miles of new natural gas pipeline loop located along Transco's existing mainline (referred to as the Manassas Loop) in Fauquier and Prince William Counties, Virginia. The Project also includes approximately 60,720 horsepower of additional compression at three existing facilities in Virginia (Compressor Station 185, Compressor Station 175, and Compressor Station 165); reversal and/or deodorization modifications at eight existing mainline facilities in South Carolina, Georgia, and Louisiana; and modifications at 13 existing mainline valve sites in South Carolina and Georgia. In addition, Transco proposes to retire and abandon 10 compressor units and related buildings and ancillary equipment at existing Compressor Station 165 in Pittsylvania County, Virginia.

#### Background

On June 1, 2018, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Southeastern Trail Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Sessions* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission received comments from the Virginia Department of Conservation and Recreation, the Teamsters National Pipeline Labor Management Cooperation Trust, and four landowners. The primary issues raised by the commentors are noise, safety, land use, and sensitive habitats and species. All substantive comments will be addressed in the EA.

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers
