[Docket No. CP07-14-000]

Wyoming Interstate Company, Ltd.; Notice of Application

November 2, 2006.

Take notice that on October 23, 2006, Wyoming Interstate Company, Ltd. (WIC), Post Office Box 1087, Colorado Springs, Colorado 80944, filed an application in Docket No. CP07-14-000, pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a new supply lateral pipeline and metering facilities, with appurtenances, to be located in Uintah and Daggett Counties, Utah. Known as the Kanda Lateral, the facilities will be comprised of approximately 123 miles of 24-inch diameter pipeline, with appurtenances, designed to transport and deliver up to 406,000 Dth per day into WIC's mainline. In addition, WIC is also proposing to construct mainline expansion facilities that will consist of two compressor units totaling approximately 20,620 horsepower to be sited inside Colorado Interstate Gas Company's (CIG) existing Wamsutter

Compressor Station located in Sweetwater County, Wyoming. WIC estimates the total cost for the Kanda Lateral and Mainline Expansion project to be \$143 million, all as more fully set forth in the application which is on file with the Commission and open for public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding this Application should be directed to Richard Derryberry, Director, Regulatory Affairs, Wyoming Interstate Company, Ltd., P.O. Box 1087, Colorado Springs, Colorado, 80944 at (719) 520-3788 or by fax at (719) 667-7534, or Craig V. Richardson, Vice President and General Counsel, Wyoming Interstate Company, Ltd.; P.O. Box 1087, Colorado Springs, Colorado, 80944 at (719) 520-4829 or by fax at (719) 520-4898.

On February 8, 2006, the Commission staff granted WIC's request to utilize the National Environmental Policy Act (NEPA) Pre-Filing Process and assigned Docket No. PF06-15-000 to staff activities involving the WIC's expansion project. Now, as of the filing of WIC's application on October 23, 2006, the NEPA Pre-Filing Process for this project has ended. From this time forward, WIC's proceeding will be conducted in Docket No. CP07-14-000, as noted in the caption of this Notice.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the

proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Motions to intervene, protests and comments may be filed electronically via the internet in lieu of paper; *see*, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.
